ENGLAND AND EGYPT.

Britain's Ministry Decides That the Khedive Must be Firmly Dealt With. LONDON, Jan. 18.—A hurriedly convened cabinet council was held at 5:20 yesterday afternoon. The call for a conference caused a decided sensation at the club, where it was conjectured that action was to be taken in regard to the sudden spirit of independence displayed by the khedive of Egypt in changing his ministry without having first obtained the consent of the British government. So far as is publicly known here the situation at Cairo remains unchanged. The British representative there declines to recognize the new min-istry, and the khedive refuses to make any

changes in it. The council lasted an hour and ten minutes. It transpired that the ministers had discussed the Egyptian question in all its aspects, and had come to the decision that the khedive must be firmly dealt with. This is taken to mean that the new Egyptian cabinet must be dismissed and re placed by men who are favorable to Great Britain. It is charged that the new ministers owe their appointment to their hos tility to Great Britain, and that the khedive, in selecting them, was influenced by Russia and France. Further developments are eagerly looked for. It is thought that the British representative at Cairo will be immediately notified of the course he is to

An Enemy Baffled.

There is an enemy with whom thousands are familiar all their lives, because they are born with a tendency to biliousness. With this with a tendency to billousness. With this enfectual weapons.
