REVOLUTION IN HAWAII.

Annexation to the United States Desired.

OUEEN LILIUOKALANI IS DEPOSED.

An Attempt to Disfranchise the White Residents the Cause of the Revolt. The Provisional Recognized by Austria, Germany, Russia and Italy.

SAN FRANCISCO, Jan. 30 .- The Hawaiian steamer Claudine arrived at this port at 2 o'clock Saturday morning with the news of a revolution at Honoluch. The revolu-tionists have succeeded in overthrowing the Government of Hawaii, and the United States marines have been landed. A pro-visional government has been established and a commission, headed by Mr. Thurston, came in on the Claudine en route to Washington with a petition to the American government to annex the Hawaiian Islands to the United States.

The first intimation of trouble came on January 15, when the queen tried to get the cabinet to sign a new constitution that disfranchised all foreigners, and put the government in the hands of the native politicians. The ministers refused, and when threatened by the queen fled for their lives. They returned later and induced the queen to postpone the coup. There was a public meeting in front of the palace.

The queen announced the failure of her lans, and a native orator demanded the ives of the ministers. Early in the evening citizens met and formed a committee of public safety. On Jan. 16 a mass meeting was held in the armory.

At about 5 o'clock p. m. the United States steamship Boston landed 300 men, fully armed. They marched to the office of the consul general of the United States. All day on Tuesday, the 18th, the com-munity was in a state of of expectancy, looking to the committee of public safety to do something to end the tension. The committee in the meantime was not idle, being incessantly occupied completing its organization and completing the final arrangements necessary to the proclamation of the provisional government and its pro-

section by armed forces. The provisional government and the cabinet went to the palace and submitted their plan to the queen. She refused at first to yield, but finally retired to her country residence, her troops surrendered, and the government was in the hands of the foreigners.

WASHINGTON, Jan. 31.-There are some important developments in the Hawaiian situation. First, it is pretty clearly understood that the administration is not in any way lukewarm in the matter, as was at first supposed. Secondly, the action of the commander of the Boston, against which Great Britain is about to file a formal protest, has received the official approval of the president and his cabinet. The sentiment in favor of annexing is rapidly extending. Several members of the cabinet have expressed themselves as being in favor of accepting the proposition, but as the action necessary to accomplish annexation must come as well from the legislative as the executive branch of the government, these declarations do not in them selves amount to more than expressions of

An Enemy Baffled.

There is an enemy with whom thousands are familiar all their lives, because they are born with a tendency to, biliousness. With this with a tendency to, billousness. With this enemy they are constantly battling with in-effectual weapons. Hostetter's Stomach Bit-ters will baffle it. Mere purgatives will not reform a disordered condition of the liver in-dicated, not by constipation alone, but also by sick headaches, yellowness of the skin and eye balls, nausea, furred tongue and uneasiness, more particular upon pressure on the right side upon and below the short ribs. Avoid drastic purgatives which gripe and weaken the intes-tines, and substitute this world famous anti-billious cordial, which likewise removes malarial, stomachic and kidney complaints, rheumatism and nervousness. As a laxative of rheumatrial, stomachic and kidney complaints rheumatism and nervousness. As a laxative o the bowels, painless but effectual, it improves appetite, sleep and the ability to direst, and possesses the additional advantage of a stand-ard tonic.
