At 10:30 last night an infuriated mob battered down the outer doors of the county jail and forced their way into the cell where the suspected rapist was confined. HAWAIIAN ANNEXATION.

WASHINGTON, Feb. 15.—It is the understanding that the treaty providing for the annexation of the Hawaiian islands to the United States, which has been negotiated by the commissioners now in the city and Secretary of State Foster, will be sent to the senate today, although it is not beyond possibility that its transmission may be delayed. The treaty, it is said, is not a very long document, and covers the subject matter only so far as necessary to secure the object sought, with as little delay as possible. A well informed authority says that the treaty contains a provision for its reference to the provisional government of Hawaii after its ratification by the United States senate, to be returned to this country with the approval of the Hawaiian government within two months after its arrival in Honolulu. It is further said that the treaty contains no reference to the sugar bounty at all. It will be transmitted to the senate accompanied by a message from the president, which, it is said, will cover the historic features of the annexation movement from the beginning, fifty years ago, and make a strong argument in favor of annexation.
