THE RACKET

Between the goods coming into the store and the goods going out of the store this has been a very busy week. On an average a two-horse wagon load of assorted merchandise has been ers, daily, were not as busy as bees, carrying the stuff away, well, we would either smother or be crowded with the "bestest goods for the leastest money," but are life preservers as well, and always receive our best thanks and we hope the best possible service. Small Vote Polied in the Borough and Townships on account of the Bad Weather-Other News and Happenings.

The election in Bellefonte, on Tuesday, passed off very quietly. The unpleasant weather and heavy snow had much to do with a small vote being polled. In the North ward a small vote was polled and in the case of Spring and Benner townships, which have emptied into our already overcrowd- their voting places at the court house, ed room every day for the past there was a small vote out, all on acmonth, and if the crowds of custom- count of the weather. DEDICATED YESTERDAY.

Wednesday, February 22, 1893, will be a memorable day in the history of Penna. State College. It was the occasion of an assemblage of distinguished men, of not only State but national repute, at that place to attend, and participate in, the dedicatory exercises of the magnificent new structure, erected by an appropriation from the state for a department of mechanical engineering. The accompanying cut is a good likeness of the exterior of the building which is an indication that the appropriation has been well applied.

Over five hundred guests were expected but owing to the snow

storm the attendance was not what might have been expected. Among those who were to be in THE PENNSYLVANIA STATE COLLEGE-ENGINEERING BUILDING. attendance were: General John W. Noble, secretary of the interior; Dr. J. G. Schuman, president of Lowell university; Mr. and Mrs. Andrew Carnegie, of Pittsburg; his excellency Governor Robert E. Pattison, with his entire staff; General Francis A. Walker; Congressman Hatch, of Missouri; C. W. Stone, Huff, Hopkins, Wolverton, Krebs, Reyburn and W. A. Stone; Colonel Francis A. Jordon; Comoclore Melville, the famous Arctic explorer; Dr. Waller, superintendent of cal gun smith, lock smith and tinner public instruction; heads of state departments at Harrisburg, and others.

The exercises of the day can be divided into three divisions. First, at the old-fashioned bour of 12 o'clock, noon, the college cadets fired a salute and conducted the visitors to the armory where a banquet took place, with General James A. Beaver as toast master. Then the throng repaired to the engineering building, where General Beaver formally transferred the building to the board of trusteess, the speech of acceptance being delivered by Colonel Francis A. Jordon, president of the board of trustees. Following this was a series of addresses by some of the above notables.

The assembly given in the evening was the most successful one of recent years.

THE BLIZZARD.

On Sunday evening a snow squall The wind blew a terriffic gale and the snow fell so heavily that the large arc business at Athens, Pa. For the past lights could be seen but a short distance away.
