The Blood of Life.

Runs the old (aying, and everything that ever makes part of any organ of the body must reach its place therein through the blood. Therefore, if the blood is purified and kept in good condition by the use of Hood's Sarsaparilla, it necessarily follows that the benefit of the medicine is imparted to every organ of the body. Can anything be simpler than the method by which this excellent medicine gives good health to all who will try it fairly and patiently? The Blood of Life.
