Bills introduced: Repealing the act providing for the examination of miners and preventing the employment of incompetent persons; repealing that part of the act regulating boroughs which prevents corporate officers from receiving compensation for their services in that capacity. The telephone bill passed second reading after being amended so as to make \$7 the maximum charge per month for one or more instruments. The bill appropriating \$163,000 for the re-equipment of the National Guard passed finally. ## QUEEN & CO., OCULISTS and OPTICIANS

Send their EYE SPECIALIST

BELLEFONTE, WED., APRIL 5TH.

He will be found at the BROCKERHOFF HOUSE.

Every one who calls upon Queen's specialist will receive painstaking and skillful attention, plenty of time being taken for each examination. As many persons are not able to spare the time to come to Queen's main store in Philadelphia, this will prove a valuable opportunity to obtain a really scientific pair of glasses at a moderate cost. Those who are troubled with blurred vision, pain in the eyes and head, will generally find that imperfecteyers are the cause. Not being aware of this unconscious strain, the thought of obtaining relief from glasses is quite a novel one. As so many have obtained almost instant relief from Queen's glasses, and as Queen & Co. guarantee every pair of glasses furnished to be satisfactory, could any one do better than consult their specialist on his next visit? Remember it will cost you nothing to learn what glasses will do for you, and whether you should wear them or not. To those who are aiready wearing glasses, which have been clumsily fitted by some unqualified person, the services of Queen's specialist will indeed prove a blessing. There are, no doubt, hundreds in this locality whose glasses will eventually run, if not entirely destroy their sight. Why then should such danger be incurred when safety may be so easily obtained? Queen & Co. would also suggest to teachers and others, who have children in their care, to look for those who appear to be below the average in intellectual ability, and suggest to parents or guardians that Queen's specialist be consulted. That children should not wear glasses, when they will be brighter and more intelligent from their use, is a worn out fallacy, adherence to which in many cases results in bitter regret in years to come.
