Other News from the Capital.

HARRISBURG, May 10.

Getting ready for final adjournment seems to occupy the mind of every legislator these times and the way business is being rushed through both branches leads one to believe that when the lawmakers meet on June 1, for the last time this session, there will be nothing left for them to do but adjourn in accordance with a resolution adopted in the senate and house yesterday.

Senator Lloyd has amended the house anti-Pinkerton bill on second reading so as to reduce the bond required by special policemen or detectives from \$10,000 to \$2,000. Among the bills that have passed second reading are the house bill repealing the act requiring the Philadelphia and Delaware River railroad to maintain gates at its intersection with the Philadelphia and Reading railroad, and also the house bill for establishment of boards of arbitration to settle all questions of wages and other matters of variance between capital and labor. The bill requiring contractors to cover the joists of each floor above the third of a building in process of construction with rough boards, for the better protection of workmen, has passed finally in the senate. The governor sent to the senate the name of Thomas Potter, Jr., of Philadelphia, to be a director of the Philadelphia Nautical school for six years from May 3.

The senate has passed finally the Farr free text book bill. The vote on the measure was almost a unanimous one in its favor, there being but two votes against its passage.

In the house the appropriations committee has reported another batch of bills providing for appropriations amounting to \$2,088,331, all but \$640,000 of which goes to charitable institutions. Mr. Cesana has reported the senate judicial apportionment bill with a number of changes. The house has received a message from the governor vetoing the bill introduced by Mr. Clary, entitled "An act to empower all municipal corporations of this commonwealth to appropriate money for the payment of firemen in service and of firemen not in service disabled in the performance of their duties as firemen." The veto was sustained.

On motion of Mr. Stewart the bill for the revision of the wharf lines on the Delaware river, Philadelphia, was postponed for the present. The amendment to the election law requiring assessors to sit at their residences to perform their duties has passed finally. The Talbot bill, prohibiting persons by sale, gift or otherwise from furnishing cigarettes or cigarette papers to minors, passed third reading. A bill authorizing street passenger railway and traction companies to consolidate, and granting them numerous other privileges, passed second reading. The bill amending the high license law so as to provide that ownership of stock in a brewery or distillery shall not prevent a person from obtaining a retail license was defeated.

On motion of Mr. Crawford, the vote by which the bill permitting the holders of retail liquor licenses to own stock in breweries or distilleries was defeated in the house on Thursday last has been reconsidered and the bill placed on the postponed calendar. This bill was defeated in the absence of its author, Mr. Bliss, of Delaware, and the reconsideration was for the purpose of allowing him to be heard in its defense. The senate bill to prevent the spread of tuberculosis among cattle was reported favorably.

In the house the Niles tax bill has been defeated by a vote of 120 to 69. The rapid transit bill has suffered defeat by a vote of 83 to 95.

HARRISBURG, May 9.—In four opinions handed down yesterday by Judge Simonton at the opening of court he again sustained the constitutionality of the Boyer revenue law of 1891. At the beginning of the present year the state was flooded with circulars issued by the smaller trust companies in Philadelphia, setting forth that as the act of 1891 taxed the capital stock of corporations at 3 mills while other property was only taxed 4, the extra mill was unconstitutional, and stating that it had been asked to act as the custodian of a fund for the purpose of having the matter determined by the courts. Nearly every corporation of the State received such a circular and was asked to join in the movement. Some of the circulars also fell into the hands of State officials here.

A number of companies accepted the invitation of the trust company and appeals were accordingly entered, the companies paying four mills tax and appealing from the mill. The companies entered appeals, which judgments were entered upon the Buffalo, Rochester and Pittsburgh Railroad Company, Johnsonburg and Bradford Railroad Company, Bristol Water Company, and Mill Creek Railroad Company, which were argued a short time ago by Mr. Newlin, of Philadelphia. Judge Simonton makes very short work of the constitutional objections, holding that, under the principles laid down in numerous decisions of his court and of the supreme court, classification may be carried to a much greater length than necessary for the purpose of sustaining the tax in question in this case.

The taxation of the capital stock of these corporations at a different rate from the taxation of the personal property of individuals does not result in a want of uniformity forbidden by the constitution. While it is true that the capital stock of corporations represent their property it is not identical with it and cannot in any real sense be said to belong to the same class of subjects as the personal property of individuals.

He holds also that the act of 1891 does not conflict with any of the provisions of the constitution of the United States. Judgments are therefore directed to be entered against the four companies above named for the balance of taxes claimed by the state, with interest at 12 per cent. per annum and attorney general's commission of 5 per cent.

HARRISBURG, May 8.—Hon. George V. Lawrence, an ex-state senator and member of the house at the present time, was stricken with apoplexy yesterday. Mr. Lawrence was in Philadelphia with the house committee investigating the electric trust but returned to this city late on Saturday night. At the time he complained of feeling unwell, but thought little of it and retired to his room in the Commonwealth hotel, where he was stricken as above stated.
