Mas Been Done in the Legislature-Other News from the Capital.

Hannisbung, May 17. The lawmakers started in this week to transact legislative business at a good lively pace, and are making a first-class showing down the home stretch on the road to final adjournment

While some of the members of the house are of the opinion that it will take at least a week beyond the first of June to finish up the business that body will be obliged to transact before adjournment, others are equally confident that nothing will stand in the way of winding up the affairs of this session in time for them all to bid good bye to the legislative halls on June 1, as originally agreed upon.

The senate has received from the gover-nor a veto of the bill authorizing the trial of issues on the statement and affidavit of defence and the taking of judgment for the amount admitted to be due thereon. Bills have passed second reading fixing at \$250 the liquor license fee to be paid by whole-sale druggists; requiring the capacity of beer, ale or porter bottles to be stamped in the glass; empowering foreign corporations to acquire and hold real estate necessary for business purposes; fixing the cost in criminal prosecutions; incorporating cas-

ualty insurance companies. The anti-Pinkerton bill went through on final passage without a dissenting vote. When the house concurs in the amendments it will go to the governor.

Governor Pattison has returned without his approval the house bill to regulate the liability under policies of insurance on buildings and structures against fire and lightning. The real intent and purpose of this bill is to make insurance companies liable for the whole amount of the insured value of building and structure destroyed by fire, and not to limit their liability by the actual value of the property.

The house has adopted a resolution reelecting Alexander Crow, of Philadelphia, a trustee of the Pennsylvania museum and school of industrial art from January 1, 1893. After brief discussion the senate judiciary apportionment bill, which came up on second reading, was postponed. The house bill permitting water companies to preserve water supply from contamination, which came back from the senate with amendments, has been further amended

and laid over to be printed.

Mr. Riter, of Philadeiphia, introduced a bill to prevent the pollution of inland waters and sources of domestic water supply, and it was almost immediately reported favorably by the committee on health and sanitation. The senate bill permitting the incorporation of wholesale meat and provision companies has been defeated.

The house, after a long discussion on the O'Kell-Quinnan contested election case, voted to unseat Quinnan, dem., and seated O'Kell, rep., instead.

Last week the house passed by a vote of 108 votes—a bare constitutional majority the Wertheimer bill giving distillers of sprituous liquors the right to sell forty-gal-lon packages of their own manufacture out taking out license. Mr. Hockley, of Cameron, arose and said he noticed he was recorded as voting for the Werthelmer bill, something he wished to disclaim, as he was not present when the vote was taken. Under the circumstances the bill receiving but 102 votes, not a constitutional majority, it was defeated, and Mr. Crawford offered a resolution, which was adopted, recalling it from the senate. Just what action will be taken on this bill now is problematical, and there is no precedent. It is probable that when the bill gets back to the house it will be declared dead by the speaker, and that will settle it.

HARRISBURG, May 12. - Secretary Edge, of the state board of agriculture, denies very emphatically that the cattle killed near Robisonia, Berks county, were suffering from pleuro-pneumonia, and says they were afflicted with tuberculosis. READING, May 17 .- H. W. Straw, who came to this city from Philadelphia, was arrested on the charge of false pretense and committed to prison in default of bail. It is charged that he represented himself as an agent for the Protective Mutual Life Insurance Company, of New York, and induced parties to take out policies in this company, charging them \$6, and promising to forward the policy in a few days. His latest victim was Hiram Young, who paid Straw \$6 several weeks ago, and was to receive his policy in a few days. A week passed, and as no policy was in sight Mr. Yeager became anxious. He wrote to the branch office in Philadelphia, and was informed that Straw was no agent. It is charged that Straw has been derrauding people for some time in this city, and has also acted in the same manner in Pottsville. Lebanon, Pottstown, Birdsboro, and other towns in this section of the state.

Lebanon, May 15.—From an official source it is learned that the explosion of the locomotive boiler here Saturday by which two persons were killed and several others fatally injured was not due to a shortage of water, and some engineers are inclined to believe that it was not due to a defect in the material of the boiler. This being the case, the company has ordered the other engines of this class to the shops in Reading for a thorough inspection. The engine is the most complete wreck ever seen by railroad men. This is the fourth engine of this class that has exploded.
