No Extra Pay for Presiding Officers of the Legislature.

HARRISBURG, May 24.—State Treasurer Morrison, in hunting around for the law regulating the pay and mileage of legislators, found no warrant for the payment to the presiding officers of both houses of an extra dollar per day, as has been the custom for years.

The decision is not pleasant to the presiding officers, as it cuts them out of about \$150 each.

Length of Days.

A simple rule from the Scientific American enables us to tell the length of the day and night, any time of the year. Doubling the time of the sun's rising will give the length of the night, and doubling the time of its setting will give the length of the day.

The Spring,

Of all seasons in the year, is the one for making radical changes in regard to health. During the winter, the system becomes to a certain extent clogged with waste, and the blood loaded with impurities, owing to lack of exercise, close confinement in poorly ventilated shops and homes, and other causes. This is the cause of the dull, slugglish, tired feeling so general at this season, and which must be overcome, or the health may be entirely broken down. Hood's Sarsaparilla has attained the greatest popularity all over the country as the favorite spring medicine. It expels the accumulation of impurities through the bowels, kidneys, liver, lungs and skin, gives to the blood the purity and quality necessary to good health and overcomes that tired feeling. Remedy for Colds.

A simple cure for the hoarse colds which are general in an open season consists of the white of an egg beaten with the juice of a lemon and sweetened with sufficient sugar to make it palatable. While such a mild perscription as this has no remedial effect in the case of a violent cold, it does cure hoarseness, and it is a great relief to the sufferer. It should be taken by the teaspoonful every half hour.
