Mrs. Epphlimer sustained a severe contusion of the left temple and a number of bruises, while Miss Delle had her left collar-bone fractured, and it is believed that she was injured internally, as she complains of severe pains in the chest. The carriage was completely demolished.

The victim, who had been released from the Hahnemann hospital, testified that he met the defendants in the saloon, had a few drinks, and the rest was a blank. PITTSBURGH BIG HAIL STORM.

The Wire Service Still Crippled—All the Latest Particulars.

PITTSBURGH, May 22.—It seems almost miraculous that a number of lives were not lost by the furious hail storm of Saturday evening. It was the most terrible storm this city has ever experienced. Reports from many points show that the hail did immense damage. The telephone and telegraph service of this city is still demoralized. In the east end of Pittsburgh and upwards of Allegheny City, nearly every window glass on the south sides of the buildings was shattered while all over both cities, skylights, green-houses, private and park conservatories were shattered and foliage ruined. In the Phipps conservatory in Schenley Park, over 9,000 lights of glass were broken. The descending floods of rain did for the Fifth avenue traction line what the hail did for the Pleasant Valley. Flooding its tracks in places three feet deep in a few moments, washing cars off the track en route, tearing up the roadbed, and burying it several feet under sand and mud.

This occurred in the Sobo and East End districts. The Duquesne line escaped a little better. Estimates of the extent of the losses vary, many points not having been heard from, but some judges place it as high as \$1,000,000.

J. W. C. Dell, of John R. & A. Murdoch, nurserymen, etc., states that the loss to the Schenley park and Allegheny park conservatories, together with that to the private greenhouses and conservatories here, will alone amount to over \$500,000. He says that it will ruin some of the men engaged in that business. One such says that he will be forced to go out of the business, having lost his plants as well as glass.

Entertainments were in progress at all theaters. At the opera house and Bijou theater serious panics were narrowly averted and several women fainted from fright. The stinging pelting of the hail caused a number of serious accidents by frenzied horses that broke away from their drivers. Twenty head of horses, some of them valuable animals, are known to have been killed in Pittsburgh, either by collision or becoming entangled in electric wires. John Downey, the driver of one team was dragged several squares and fatally hurt.

Michael Dunn, aged 14, was almost electrocuted by stepping on an electric light wire on Second avenue.

At Marietta, O., a number of buildings were destroyed and crops were laid to the ground. Great destruction is reported in the Belmont, Eureka and Sistersville oil fields.

HARRISBURG, May 24. There is now some talk of extending this session of the legislature until June 15. Some of the lawmakers are of the opinion that this will have to be done in order to clear the calendars, although an effort will be made to clear up all the business on or before June 1. The time this week will be devoted principally to the consideration and passage of appropriation bills.

Mr. Bliss, of Delaware, has offered a resolution and it has been adopted inquiring of the attorney general what action can be taken by the state government to prevent the construction of a railway upon the battlefield of Gettysburg. The senate bill conferring upon street passenger railways and traction motor companies the power to carry the mails has been amended to allow electric companies to carry also such merchandise as is usually carried by express companies.
