**Symptoms of Insanity Return to William Lock, of Plymouth.**

NORRISTOWN, June 28.—William Lock, of Plymouth, who was released from the hospital for the insane last Thursday by decree of the court, after a probationary period of six months, is back to the institution again. Monday night Mrs. Lock's screams brought the neighbors to the house. They found the woman and her children huddled together outside and Lock inside the house, behind barricaded doors and windows.

Mrs. Lock says her husband manifested signs of insanity, and that he drove her and the children out. Fearing there would be a scene similar to that one night last September, when Lock, in a fit of insanity, slew his youngest child by cutting his throat, she fled to the house of a neighbor. This morning Lock drove to Norristown and accompanied his counsel to the court, where he expressed the belief that he had better return to the hospital. He was accordingly sent back. Lock says he did not drive his wife out—that she ran out of her own volition. His release last Thursday was ordered only after the hospital physicians gave a certificate of his complete restoration to mental soundness.

**OVER 300 MEN WERE DROWNED.**

**Latest Particulars Concerning the Wreck of the Victoria.**

LONDON, June 27.—A most terrible calamity befell the British battleship Victoria, flagship of the Mediterranean squadron, and hundreds of lives were lost.

The Victoria, which flew the flag of Vice Admiral Sir George Tryon, K. C. B., was run into off Tripoli by the British battleship Camperdown, also belonging to the Mediterranean squadron, and under the command of Captain Charles Johnston. The Victoria had an enormous hole made in her side through which the water poured in torrents.

The immense hull of the Victoria at once began to settle and before the onset of her sinking her small boats were sent to the bottom, carrying down with her nearly all on board. Some of the officers and crew managed to get out of the suction caused by the sinking vessel and were rescued. Among those lost in Vice Admiral Tryon.

The first reports of the disaster stated that about 300 men had been drowned, but later dispatches show that the loss of life was far greater, not less than 363 of the officers and crew of the Victoria having gone down with their ship.

**MR. FARR'S FRIEND TEXT BOOK BILL.**

Many Letters of Inquiry as to Its Exact Provisions.

HARRISBURG, June 27.—The fact that Representative John R. Farr, of the Lackawanna district, made himself popular throughout the state during his two terms as a member of the lower house of the state legislature, is evidenced by the large number of letters of inquiry received here, asking for the exact provisions of his free text book bill which passed both houses of legislature during the last session. The measure which provides for free books and other school supplies is classed as one of the most important and beneficial that has become a law in this state in many years.

As a considerable portion of Mr. Farr's life has been devoted to educational work, it seems that he has hit upon the right idea for a general benefit to the people of his native state. Mr. Farr is editor and proprietor of the Scranton Courier-Progress, is a staunch republican in politics, and in 1892 was re-elected to a seat in the house by a majority of 677 without his name appearing upon any ticket. He was elected by the use of "pasters." His free text book bill was the first bill of the kind passed in the Pennsylvania legislature.

Dozens of applicants responded, and to each a typewritten letter was sent, requesting the deposit of a sum of money, ranging from \$5 to \$100, to be forfeited in case of insincerity.

James Lubkin, of Gaston, W. Va., who had invested \$100 in the swindle, appeared here and instituted a search for Miss Markay, but without success. At the post office he learned that Miss Markay's letters were put in J. Jefferson Galland's box, and the name was soon exposed. Lubkin entered suit against Galland for the amount of his loss, and interesting developments are expected. Mr. Galland has borne an excellent reputation hitherto.

**\$500 Found.**

The Review of Reviews says in the June number: "A woman in California last year made over \$2,700 on fruit raising. Another lady bought land for \$75 per acre and her land is now worth \$2,000 per acre. E. M. Nivens says that his big yield him \$1,000 per acre. J. S. Dore says his tree net him \$711 per acre."

The California Land and Water exchange, of Dayton Ohio, have the name of 90 persons who have after one year's purchase received sums as high as \$500 profit.

They give you 5 acres of land free if you will help pay for water and irrigating it. On these 5 acres they give you a written guarantee to plant, cultivate, pay the taxes, and each year pay you \$200 profit as your half raised on the land.

They have as their purchasers doctors, judges, widows, orphans and clergymen.

They give you free return ticket to go to California on the harvest of any crop. They will plant the land this year and pay you a profit next year. They give references from banks, newspapers and officers in Dayton. Last year the same manager paid \$6,000 to persons who bought the year before. This land with irrigation, will grow oranges, figs, lemons, olives, in fact, any fruit that is grown in any portion of the world. They only sell 5 acres and hold the other 5 acres themselves—they do not make any charge for the land. Your first payment is \$2. If you send \$2 they will send you the necessary papers and then you can pay \$1 per month for a short time—depending how much is wanted.

Ex-President Harrison speaks very highly of California; ex-Secretary J. Lusk and ex-Postmaster General Wainwright, during their visit to California speak very highly in its favor. If you remit \$2, the first payment, you will get into the 1893 planting and 1894 profit list, as they will pay a profit in December of next year. Do not let the opportunity go by, for it is surely a great opening for a person who wants a lastingly income without any risk. You do not have to go on the land. You do not have to pay for the land. It is near railroad level in the eastern portion of San Diego Co., California land bought to-day will, with irrigation, be worth \$500 in three years to come.

The CENTRE DEMOCRAT and the PHILAD. Weekly Times, both one year for \$1.45.
