

INDIGNANT CHINAMEN.

Trying to Force the Government Into the Siamese Dispute.

THE BRITISH INTERESTS IN SIAM

Sir Edward Grey, Parliamentary Secretary of the Foreign Office, declares that the French blockade will be an act of belligerence—M. Pavie Leaves Bangkok

TIENTSIN, July 26.—The Chinese government has received the news of France's territorial demands upon Siam with amazement and indignation. That France should lay claim to country up to the twenty-third parallel is regarded as an intrusion upon the rights of China, for in Peking the contention is that both banks of the Mekong to a point well south of the twenty-third parallel are Chinese possessions. The Mandarin party, which is bitterly anti-French, is trying to force the government to interfere.

PARIS, July 26.—A cabinet council was held yesterday at Marly-Le-Roi, where President Carnot is temporarily sojourning. M. Carnot presided over the deliberations, which were entirely devoted to the Siamese question. After the council rose it was stated that the government had taken such measures to safeguard the interests and dignity of France as were considered from Siam's reply to the French ultimatum to have been rendered necessary.

It is stated, semi-officially that the blockade will not be confined to the estuary of the Menam, but that the rivers east and west also will be blockaded. Rear Admiral Humann will occupy an island eighteen miles from the Menam. It is reported also that there is no intention to bombard Bangkok, although the batteries on both sides of the river at Paknam and on the island in midstream will be destroyed. The Royal Palace, where 15,000 soldiers are believed to be massed, will be attacked and occupied.

The Delatae, after noting that the region south of the twenty-third parallel, to which France hopes to extend her territory in Siam, includes the provinces ceded by Great Britain to Siam after the Burmese war, makes these comments: "This, we believe, is what the marquis of Dufferin was charged to represent to M. Develle, and what China has also directed attention to. It is useless, therefore, to shut our eyes to the fact that, beyond certain points, we no longer have to deal with Siam, but perhaps with England, and certainly with China as well."

The Chinese charge d'affaires called on M. Develle, minister of foreign affairs, and explained the Chinese government's views of the Franco-Siamese dispute.

A dispatch from Bangkok states that M. Pavie, French minister resident, started down the river yesterday afternoon on the warship Inconstante, accompanied by the warships Lutin and Comete. All was quiet in the city.

LONDON, July 26.—In the house of commons Mr. John Leng, Advanced Liberal, asked if the government was aware that British subjects possessed rights over forty square miles of land in the Siamese provinces of Chantaborn, Krat and Batambang for working ruby and sapphire mines, and whether, in the event of France annexing these provinces, care would be taken to guard British interests.

Sir Edward Grey, parliamentary secretary of the foreign office, stated in reply that the government was aware of the mining rights held in Siam by British subjects, but he pointed out that the province in which these rights are held lie to the west of the Mekong river, and were not therefore included in the territorial demands made by France.

Hon. George N. Curzon, Conservative, asked whether France had notified Great Britain that she had established a blockade of the Siamese coast; whether the establishment of such a blockade would be regarded as an act of belligerence between France and Siam; whether the blockade had been or would be recognized by Great Britain and what the government proposed to do in regard to the matter.

Sir Edward Grey replied that Great Britain had received from France verbal notice of the intention of the French government to blockade the Siamese coast. The blockade would certainly be an act of belligerence. The British government, Sir Edward added, proposed to continue its present protection of the lives of British subjects in Bangkok and of the property of British subjects.

Sir Charles Dilke asked: "Will there be a declaration of war, or merely an implied belligerence? Will not the blockade be established under the pretense of its being what is called a 'pacific blockade?'"

Sir Edward replied: "I can't add anything to what I have said. Great Britain has a sufficient force off Bangkok to protect British subjects and property."

Riches Takes Wings.
LOUISVILLE, Ky., July 24.—Charles W. Depauw and the New Albany Rail Mill company, of New Albany, made an assignment for the benefit of their creditors. The cause leading to the failure was the assignment of the Premier Steel works in Indianapolis several months ago. Mr. Depauw's individual assignment is a sweeping one, and the man who was worth \$1,000,000 three months ago is now practically penniless.

Terrific Powder Explosion.
HUNTINGDON, Ind., July 25.—Schaeffer & Schaeffer's powder house exploded at 3 o'clock yesterday afternoon. Homer Housholder and Hugh Harvey were spotted with a rifle, when a bullet entered a window. Both men were blown clear across the little river and their bodies torn to pieces. Houses were wrecked all around and several persons were injured.

Americans Depositing in Canada.
HAMILTON, Ont., July 25.—City bank managers report that a large amount of money has been received from American cities during the past few days to be deposited in banks here. A deposit of \$45,000 was received yesterday from a woman living in Buffalo, she having withdrawn that amount from a bank in that city.

Master Workman Powderly May Resign.
NEW YORK, July 25.—The Sun today says: "It is declared on good authority that T. V. Powderly is going to resign as general master workman when the general convention of the knights is held in October. It is believed that T. B. McGuire will be Powderly's successor."

COLONEL AINSWORTH INDICTED

Contractor Dant, Superintendent Covert and Engineer Sasse Also Held.

WASHINGTON, July 25.—The grand jury found a true bill against Colonel Frederick C. Ainsworth, chief of the record and pension division of the war department; George W. Dant, the contractor employed to make the excavation for the electric light plant; William E. Covert, superin-

COLONEL F. C. AINSWORTH

tendent, and Francis Sasse, engineer of the building, holding them responsible for the old Ford's theater disaster of June 9 last, in which twenty-three persons lost their lives and a large number of others were injured.

The indictment describes in detail the excavations that were in progress for the purpose of putting in an electric light plant at the time of the accident, and avers that Ainsworth, Dant, Covert and Sasse undertook the performance of this work, and by reason of their most culpable negligence the pier sank and broke, precipitating parts of the second and third floors, with their occupants, to the ground.

The grand jury then formally find that in the manner described in the indictment the accused did wilfully kill and slay the person whose death is under investigation.

PENSIONS SUSPENDED

Probably Seventy-five Thousand Will be Dropped from the List.

WASHINGTON, July 25.—The total number of pensioners under the act of June 27, 1890, who have been notified since the coming of the present administration that the payment of their pensions has been suspended is approximately 5,250. The whole number of pensions granted under this act is ascertained to be 370,000. Of this number 70,000 were to widows, minors and dependent relatives, leaving 300,000 to be investigated. Up to this time about 25 per cent. of the number being paid to the pensioners themselves are being suspended, pending the receipt of satisfactory proof of inability to perform manual labor.

If the same ratio is maintained throughout the entire list about 75,000 will have been suspended. It is stated that the office that in none of these cases is fraud or an error of the pension office in misconstruing the law.

BEHRING SEA CONTROVERSY.

Report That the Arbitrators Have Decided in Favor of Uncle Sam.

WASHINGTON, June 25.—A rumor reached Washington last night that the arbitrators in the Behring sea controversy between the United States and Great Britain, who have been in session at Paris since March listening to arguments in the case, had decided in favor of the United States. No confirmation or denial of the report could be had, as Second Assistant Secretary Adee, who is in charge of the state department, in the absence of Secretary Gresham, is at his country place in Maryland.

It is learned that some of the officials of the department did not leave the building until 7 o'clock last evening, which may or may not be of significance in this connection. But little credence is given to the rumor.

The Erie in Receivers' Hands.

NEW YORK, July 25.—The World says: The Erie Railroad company today went into the hands of receivers. Judge Lacombe, of the United States circuit court, named John King and J. G. McCullough, They gave \$500,000 bonds, with D. O. Mills and J. Lower Welsh, of Philadelphia, as sureties. Within the last few weeks the floating debt of the Erie became impossible of renewal, and in order not to sacrifice the best interests of the company it was decided to place the road in receivers' hands and preserve the system intact.

Nine Killed by Exploding Dynamite.

PARIS, July 25.—Four explosions shattered the Ablon dynamite factory in Bonheur, near Havre. The ruins caught fire. All hands were at work when the explosions occurred. Nine men were known to have been killed, twenty more were wounded severely, and others were hurt seriously. Several bodies are believed to be under the burning ruins.

The Jury Acted Hastily.

CHICAGO, July 25.—It is quite possible that Daniel H. Burnham and Fire Marshal Murphy will soon be released from the finding of the coroner's jury, who sat on the victims of the cold storage fire. State's Attorney Kern is convinced that the coroner's jury acted hastily, and he will advise the grand jury that the cases against them be thrown out.

Four Young Ladies Drowned.

BALTIMORE, July 25.—Maggie Taylor, Lulu Johnson, Marian Smith and Nellie Patrick, all young women, were drowned near Patrick's Landing, on the Whomco river, by the capsizing of a small boat. Two young men, who completed the sailing party, saved themselves, one by clinging to the upturned boat, the other by swimming ashore.

Howard Mutchler Succeeds His Father.

EASTON, Pa., July 25.—In the special election in the Eighth Congressional district yesterday to fill the vacancy caused by the death of Hon. William Mutchler, his son, Howard Mutchler, Democrat, was elected over General Frank Reeder, Republican, by about 2,800 majority. The vote was less than one-half that of last year in the district, when it was 4,342 Democratic.

Denver's Idle Workmen.

DENVER, July 25.—Up to date 3,700 men have registered as out of employment, and the list is steadily increasing. Means are being taken to furnish employment and provide food for the hungry and destitute. It is estimated that 15,000 persons, men, women and children, are in need of immediate aid.

Terrific Powder Explosion in China.

SAN FRANCISCO, July 25.—Advices from Hong Kong give details of a terrific explosion at the government powder magazine at Canton on June 24, which killed many persons, injuring over 300 peop and wrecking 4,000 houses.

DOWN AN EMBANKMENT

People Bound for the Fair in a Railroad Smashup.

TWENTY SENT TO THE HOSPITAL

Many Passengers Asleep When the Crash Came—Three Killed on a Kentucky Road—Railroad Tragedies in Pennsylvania, Rhode Island and Missouri.

CUYAHOGA FALLS, O., July 25.—The second section of the Baltimore and Ohio express, west bound, was wrecked one mile east of Munroe Falls. Spreading of rails caused the wreck at that point, where there is a short curve in the track. Five of the coaches, loaded with passengers, most of whom were on their way to Chicago, were thrown down a ten foot embankment. Nobody was killed outright, but thirty were injured, five of them, it is thought, seriously. All of the maimed were taken to Akron by special train and sent to the City hospital. The latest reports are to the effect that all the wounded will recover. There are three or four cases where unfavorable symptoms may be manifested, but the majority will be all right within a few days. There are twenty-one victims now in the hospital.

When the cars left the track many of the passengers were asleep. The last coach was the one most seriously wrecked. It jumped the rails where the curve was the sharpest, and plunged along the ties about fifty yards before tumbling down the embankment. Seats and timbers were piled promiscuously on the imprisoned passengers. Fortunately for them there was no fire to ignite the wrecked coaches, or there would have been a repetition of the horrible Ravenna disaster of July 3, 1891.

Fatal Crash Into Freight Cars.

PROVIDENCE, R. I., July 25.—The first section of the mail train from Boston to New York was wrecked opposite Dodgeville station by coming into collision with several freight cars left standing on the track. Charles J. Miller, a mail clerk, of Walton Falls, N. Y., was instantly killed. Edward C. Murphy, another mail clerk, of Putnam, Conn., received a compound fracture of the skull and cannot live. Captain Robert A. Gray, of Cambridgeport, another mail clerk, received a compound fracture of the left forearm. Charles Buckingham, of Milford, Mass., who was in the mail car, was cut on the forehead, but not badly hurt. A number of passengers were slightly injured.

A West Penn Accident.

PITTSBURGH, July 25.—A West Penn railroad passenger train, consisting of an engine and three coaches, crashed into the rear of a freight train near Pine Creek, three miles outside of the city. Fireman Stump jumped from the engine and was badly bruised. Engineer Alfred Bissell remained on the engine and was badly cut and bruised, but will recover. Samuel Murphy, a contractor, was badly hurt. Baggage Master Fleming had several ribs broken. Richard Armstrong, a passenger, was thrown through a window and badly cut with the glass.

Three Burned to a Crisp.

MOBANSFIELD, Ky., July 25.—A terrible wreck occurred on the Ohio Valley railroad, two miles from this city. Freight train No. 92, consisting of engine and six freight cars, loaded with through freight, were derailed and afterward burned. Three lives were lost—Robert Vandorn, engineer; Frank Threlkeld, fireman, and Marion Davis, head brakeman. Their bodies were burned to a crisp.

Went Through a Trestle.

ST. LOUIS, July 25.—A north bound freight train on the St. Louis Chicago and St. Paul railroad crashed through a trestle near Reble station, piling eighteen cars in a heap. Conductor W. E. Burrell, of Springfield, Ill., was instantly killed. Brakeman Charles Johnson and W. A. Clements, of Alton, and Walter Manning, of Springfield, were probably fatally injured.

Death of a Noted Explorer.

LONDON, July 25.—Dr. John Rae, the Arctic explorer, died at his residence in this city after a prolonged illness. Dr. Rae came into prominence in 1846, when he was entrusted by the Hudson's Bay company with the task of completing the delineations of the northern shores of the American continent. During the spring of 1847 Dr. Rae explored on foot the shores of a great gulf having 700 miles of coast line. He thus connected the work of Parry at the mouth of Fury and Hecla strait with the work of Ross on the coast of Boothia, proving that Boothia was part of the American continent.

Bloodshed in Kansas.

WEIR CITY, Kan., July 21.—A number of striking miners, led by a hundred women, attacked the Strip pit miners in one of the mines near here yesterday afternoon. A fierce fight ensued, in which clubs, rocks and firearms were used. About 100 shots were fired and a number on both sides were injured. No one was killed. The working miners were driven off. More bloodshed is feared.

Kansas' Strike Situation Critical.

TOPEKA, July 25.—The strike situation in the Cherokee district is regarded as so serious by the governor and his advisers that eleven companies of militia have been ordered to hold themselves in readiness to move on three hours' notice. Lieutenant Governor Daniels states that he regards the situation as very critical, and that it might break out into violence and bloodshed at any time.

Howard Mutchler Succeeds His Father.

EASTON, Pa., July 25.—In the special election in the Eighth Congressional district yesterday to fill the vacancy caused by the death of Hon. William Mutchler, his son, Howard Mutchler, Democrat, was elected over General Frank Reeder, Republican, by about 2,800 majority. The vote was less than one-half that of last year in the district, when it was 4,342 Democratic.

Denver's Idle Workmen.

DENVER, July 25.—Up to date 3,700 men have registered as out of employment, and the list is steadily increasing. Means are being taken to furnish employment and provide food for the hungry and destitute. It is estimated that 15,000 persons, men, women and children, are in need of immediate aid.

Terrific Powder Explosion in China.

SAN FRANCISCO, July 25.—Advices from Hong Kong give details of a terrific explosion at the government powder magazine at Canton on June 24, which killed many persons, injuring over 300 peop and wrecking 4,000 houses.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

—Unclaimed letters: H. A. Black, R. L. Cole, L. S. Franklin, Antonio Grizzo, Daisey L. Kennedy, Mrs. Bertha Kline, Sadie Oswald, Wm. M. Shewell, 2, Joseph Smith 2, Wm. Siely, Wm. Sechler, Life Tate, Mrs. Alice Thomas, Lucy Watkins. When called for please say advertised.

Raising Oats Does Not Pay.

Twenty three farmers in Chester county have answered the question, "Does It Pay To Raise Oats?" Out of the twenty three, seventeen farmers say it does not pay, although most of them grow some for feed or as an expediency. Nearly all of them agree that potatoes are a more profitable crop in this state than oats or any other kind of grain.

\$500 Found.

The Review of Reviews says in the June number, "A woman in California last year made over \$2,700 on fruit raising. Another lady bought land for \$75 per acre and her land is now worth \$2,000 per acre. E. M. Nivens says that his big yield him \$1,000 per acre. J. S. Dore says his tree net him \$711 per acre.

The California Land and Water exchange, of Dayton Ohio, have the name of 90 persons who have after one year's purchase received sums as high as \$500 profit.

They give you 5 acres of land free if you will help pay for water and irrigating it. On these 5 acres they give a written guarantee to plant, cultivate, pay the taxes, and each year pay you \$200 profit as your half raised on the land.

They have as their purchasers doctors, judges, widows, orphans and clerymen.

They give you free return ticket to go to California on the harvest of any crop. They will plant the land this year and pay you a profit next year. They give references from banks, newspapers and officers in Dayton. Last year the same manager paid \$6,000 to persons who bought the year before. This land with irrigation, will grow oranges, figs, lemons, olives, in fact, any fruit that is grown in any portion of the world. They only sell 5 acres and hold the other 5 acres themselves—they do not make any charge for the land. Your first payment is \$2. If you send \$2 they will send you the necessary papers and then you can pay \$1 per month for a short time—depending how much is wanted.

Ex-President Harrison speaks very highly of California; ex-Secretary J. Rusk and ex-Postmaster General Wamanager, during their visit to California speak very highly in its favor. If you remit \$2, the first payment, you will get into the 1893 planting and 1894 profit list, as they will pay a profit in December of next year. Do not let the opportunity go by, for it is surely a great opening for a person who wants a lasting income without any risk. You do not have to go on the land, they take care of it for 20 years. It is near railroad level, in the eastern portion of San Diego Co. California land bought to-day will, with irrigation, be worth \$500 in three years to come.

Consumption Surely Cured.

To THE EDITOR:—Please inform your readers that I have a positive remedy for the above-named disease. By its timely use thousands of hopeless cases have been permanently cured. I shall be glad to send two bottles of my remedy FREE to any of your readers who have consumption if they will send me their Express and P. O. order. Respectfully,
T. A. STODOLM, M. D.

FERTILITY OF THE SOIL ENRICHES THE FARMER!

The Liebig High Grade Acid Phosphate is the trade name adopted for the best prepared Acidulated Dissolved Bone Carbonate on Rock now in use by the farmers of Pennsylvania. We sold over two hundred tons of this High Grade Fertilizer during the past year. It was used on the State College farm, the farms of adjoining townships, as well as many other farms throughout Centre county, which has given the highest satisfaction to all who used it.

Champion \$25 Phosphate.
McCalmont & Co's. Champion \$25 Ammoniated Bone Super Phosphate has been used by many farmers of Centre county during the past three years. This is a complete fertilizer. Dissolved in water it contains Phosphoric Acid, Our Champion phosphate contains Nitrogen, Phosphoric Acid and Potash. This fertilizer not only produces wheat but it will stimulate the growth of grass to follow. We can assure our customers that it is the highest grade \$25.00 fertilizer goods that have ever been sold in Centre county.

Nitrates and Phosphates.
We deal in and keep a supply of Ammoniated Dissolved Bone, Buffalo Honest phosphate, Ground Bone, Murate of Potash, Nitrate of soda, land plaster and agricultural salt in quantities to meet the wants of buyers.

Fair Dealing Invites Patronage.
Our greatest ambition has been to furnish honest fertilizers of the highest quality at the least possible cost to the farmer; and we trust our methods of dealing in the past, will be a sufficient guarantee in the future, for asking the farmers to continue their large and liberal patronage with us.

McCALMONT & CO., Bellefonte, Pa.
