Another Terrible Gale Sweeps storm of many years struck this region, storm of many years struck this region, and continued unabated for six hours, and continued unabated for six hours, OVER A HUNDRED DEAD. Savannah and Charleston Suffer Very Severely.

DESTRUCTION AT OTHER POINTS.

Traffic Suspended and Telegraphic Communication Badly Interfered with. Vessels Wreened Along the Coast-Many Buildings Demolished, Trees Uprooted and Crops Destroyed.

SAVANNAH, Aug. 30 .- Almost on the anniversary of the great hurricane of 1881 Savannah was swept Sunday night by one of the severest storms it has ever known. The storm, which had been predicted by the weather burean for several days, began early in the afternoon, and increased from then until it reached the climax between 11 and 12 o'clock Monday night, having blown for eight hours in a terrific hurricane.

It began raining early in the morning, but only in gusts. After the first fall it ceased entirely for several hours and did not begin again until after noon. Then the work of destruction began, and lasted until the storm had spent its force at midnight. All the wharves along the river front, and the Ocean Steamship company and Savannah, Florida and Western railroad wharves were under water and the tide was still rising rapidly. A view of the city at daylight reveals a scene of wreck and ruin that surpassed that of the great hurricane of 1881.

The ruin at Quarantine is immeasurable. Nothing is standing where one of the finest stations on the South Atlantic was twenty-four hours ago except the doctor's house, and how this weathered the fearful gale is miraculous. The wharves are gone, the new fumigation plant, which has cost the city so much money, is in the bottom of the sea, and nine vessels, which were waiting for release to come to the city, are high and dry in the marsh and 20 doubt will be totally wrecked. The Cosnine was the only vessel which managed to keep afloat.

The tug Paulsen to sught up roout sixty passengers from Tybee. Mr. Revers, one of them, stated that four negroes engaged in clearing the railroad track were drowned. A sailor and the cabin boy on the schooner Harsl, which is on her side on North Beach, are drowned. It is reported that eight of the crow of the terrapin sloop which went ashore on South Beach were drowned.

The list of fatalities is growing, and it is impossible to tell to what extent it will grow. Several bodies of drowned persons have beer, picked up, and search is now being viade for others who are missing. Every hour seems to bring some new story of a death as & result of the storm.

The drowning of Mr. A. G. Ulmer, as sistant cashier of the Central Railroad bank, was a very sad occurrence. Mr. Ulmer owns a farm on Hutchinson Island, opposite the city, and had gone over to pay off his hands and attend to other duties. There were bruises on his face, and it is supposed that he struck against an outshed when he jumped from his barn as it was about to blow down. Miller, his dairyman, has not been found, and it is supposed that he was also drowned.

Reports from all are to the same effect. Market | copie experi-enced considerable trouble in reaching Easton on account of falling trees obstructing the roads. POTTSVILLE, Aug 30.-The most terriffle

blowing at a rate of sixty miles an hour. Rain fell in sheets during the entire time, and streams are much swollen. Considerable damage has been done throughout the entire Schuylkill region. Fruit trees were uprooted in the farming districts and the corn crop has suffered badly. Much damage was done to breakers and colliery buildings, and in the Shenandoah region several collieries are reported as drowned

CARLISLE, Aug. 30.-A terrific storm passed over the Cumberland valley, doing considerable damage to property and growing crops. Telegraph wires were blown down and communication was cut off for several hours. The Philadelphia and Reading railroad bridge at Brandtsville, this county. was struck by lightning

and totally burned. READING, Aug. 30. — The hurricane which struck Reading on its way north did considerable damage. The violence of the wind was so great that limbs were blown off trees, trees and grape arbors were blown over and telephone, trolley and other wires broken. In the country districts corn fields were leveled, hay stacks upturned and scattered, fences blown over, and great alarm was caused in many farm houses when the wind came in all its fury.

LANCASTER, Aug. 30 .- The storm did great damage throughout the country, many trees were blown down and much fruit ruined. Corn was mostly ruined by the storm of a week ago. Country people driving to this city were compelled to carry axes with them to cut their way through fallen trees.

LONG BRANCH, Aug. 30.-The storm has cut off all railroad compranization between the New Jersey coast resorts and Philadelphia. The railroad tracks of the Amboy division of the Pennsylvania railroad are under four feet of water between Bay Head and Berkley. Trouble is also reported on the same division below Chadwick. At Asbury Park and Ocean Grove considerable damage was sustained by the terrific storm. About ten feet of the Bond wave power pier has been washed away, and the loose pilings are being used by the breakers as a battering ram against the other piers. The big summer pavilion of "Founder" James A. Bradley, at the foot of Asbury avenue has been damaged to some extent, and fears are entertained that the next high tide, which will be an unusually heavy one, will cause considerable damage. The new fishing pier at Ocean Grove is reported wrecked

ATLANTIC CITY, Aug. 30 .- The storm passed over this city without doing the great amount of damage predicted for it. The maximum velocity of the wind reached fifty-five miles an hour, though by the time it reached that speed it was com ing from the southwest. About \$2,000 worth of the roof of Jackson's pavilion was blown off, while around town there are a number of fallen trees and wires; no other serious damage reported.

CAPE MAY, Aug. 30 .- The southern cyclone reached this part of the coast on schedule time. A full tide and a heavy sea came in with the gale, which blew fifty miles velocity at its highest. There has been no damage to the ocean front, nor is there news of any marine disaster of consequence. Orchards and fields of growing corn have suffered a second hurricane stripping experience. There are but few more peaches, pears and apples to be blown off.

BURLINGTON, N. J., Aug. 30 .- The ter-The other fatalities so far reported are as follows: Tony Holmes, colored, crushed in a house on Hutchinson's Island. Four

fishing senou. ed, and boat No. 9, completer with only the captain and two of his crew left, the other five having been swept over-

....

board during the storm. SOUTHAMPION, L. L., Aug. 29 - Another body was washed ashore at this place yesterday. It is believed to be one of the crew of either of the ill fated vessels which were recently wrecked in the recent storm. Arvid Johnson's body was found Sunday night. He was one of the men lost in the wreck.

BALTIMOBE, Aug. 39 .- Not since the big flood of 1865 has such a deluge of water invaded Baltimore as that of Monday night. Roofs and chimneys were torn off, shutters and window panes were smashed and trees uprooted. Telegraph and telephone wires were soon wrecked, and the electric lights went out, leaving the greater part of the city in darkness. On the bay mountainous seas were piled up and rolled high in the basin. The waves spread over the wharves and flooded the streets and adjacent buildings.

Incoming vessels are all late in arriving ANNAPOLIS, Md., Aug. 30.-The storm that set in here has hardly left a whole tree in Annapolis. Streets are blockaded and yards are literally filled with large limbs, and in some instances whole trees. The damage around the wharves is also great. Small boats were blown ashore, and the bottoms and sides blown in. All of the oyster houses are damaged, each to the extent of several hundred dollars. The lower streets of the town are flooded and people are going in and out of their houses in boats.

MILFORD, Del., Aug. 30 .- The storm has about ruined the remainder of the peach crop in this section to the extent of 150,000 baskets. The corn crop is also greatly damaged.

KERNERSVILLE, N. C., Aug. 30 .- A terrific cyclone struck here at 5 o'clock in the morning. A hundred houses were completely wrecked and a woman killed. Many were injured. The Baptist brick church was razed to the ground. Factories, stores and residences were unroofed, and some were blown entirely away. High

winds and heavy rain are still raging. RALEIGH, N. C., Aug. 30.-The storm did great damage to crops all through North Carolina. Tobacco, corn and cotton were severely injured in this state.

THE OUTLOOK IN SIAM.

Another Threatened Blockade of Bangkok.

LONDON, Aug. 30 .- A Bangkok despatch to The Times eags that the French troops at Chantibun are making entrenchments and throwing up earthworks. A despatch from Singapore says that a French protectorate over Siam is imminent. The Pall Mall Gazette urges that all chambers of commerce in Great Britain hold a convention at once, and agree upon a protest to the government against permitting France thus to execute a policy ruinous to British trade in the east.

BANGKOK, Aug. 30 .- The French government threatens, through its special envoy, M. de Vilers, to send back the French gunboats to the Menam before Bangkok in case its new demands be not granted immediately. The foreign residents of the city are indignant in view of France's persistence in ignoring the provisional agreement reached when Siam accepted the ultimatum.

Sixteen Killed in a Wreck.

LONG ISLAND CITY, Aug. 28 .- An accident that cost the lives of sixteen persons occurred shortly after midnight yesterday morning in the little village of Berlin, near Calvary cemetery, in the town of Newton. The Long Island railroad train that left Manhattan Beach at 11:15 o'clock was overtaken by the train that left Rock. away Beach fifteen minutes earlier. In the frightful collision that ensued the two rear cars of the five that made up the attan Beach train were demo and the middle car was overturned. Hardly one of the score of passengers aboard these three cars escaped unhurt.

PUBLIC SALE.

By virtue of an order of the Orphans' Court there will be exposed to public sale on SATURDAY, SEPT. 20rd, 1803,

SHERIFF'S SALE.— My virtue of a writ of Fieri Facias issued out of the Court of Common Fleas of Centre county and to use directed will be exposed at public sale at the court house, in the borough of Bellefonte, on Saturday, Sept. 2nd, 1393, at 1 o'clock p. m. the following real estate: — All that certain lot of ground situate in Miles twp, bounded and described as follows: bounded on the south by public road, on the west by Screnes Harvy, on the north by Beuten Simula and on the west by John Winters, containing two story dwelling house and other outbuild ings.

SATURDAY, SEPT. 20rd, 18:3. on the premises at the residence of the late John Lannen, in Union WP, should T miles north of Unionville. All that certain measuage tenement and tract of land bounded and described as follows to wit: Beginning at stone in the public road, thence north 3% deg. east 108 perches to stone; thence south 8% deg. east 108 perches to chestnat, thence south 3% deg. west 3% perches to chestnut, thence south 10 deg. cast 6% per-ches to stone, thence south 6% deg west 10 perches. The perches, thence of perches, thence north 7% west 10 perches, thence north 42% deg, west 20 perches, thence eff deg. west 10 perches to stone in road the place of beginning containing 57 acres neat measure. A 6-year-old colored boy, drowned on Hutchinson's Island John Williams, Mary Butler and Sarah Green, drowned on a rice plantation south of the city. Two unknown sailors were drowned at Tybee island. Forty to fifty other persons are reported missing, and it is supposed, as nothing has been heard of them, that their bodies will be found later.

AUGUSTA, Ga., Aug. 30 .- A special from Port Poyal, S. C., brings information that fully 100 lives have been lost at Port Royal, Beaufort and neighboring points by drowning during the scorm. Of the 100 persons killed and drowned only six were at the foot of Seventh avenue, and although within twenty feet of the boardwhite, the others being negroes. Twenty were drowned on Paris Island. No news has been received from Helena, four miles from Beaufort. It is believed fully twentyfive lives were lost between Port Royal and Seabrook, all negroes.

CHARLESTON, S. C., Aug. 30 .- While the record of terror and ruin wrought by the great disaster of 1885 remains unbroken, Charleston has egain stood in the track of a cyclone which has shaken the old city to her foundation stones. The damage to property cannot be told and the loss of life is unknown. The citizens awoke Monday morning and gazed upon innumerable evidences of the hurricane which swept over the city Sunday afternoon and night. Uprooted trees, fallen roofs, broken fences and in the less substantial parts of the town wrecked sheds and shantles were found everywhere. The cyclone, with all the terrors which the word has for the people of this section, swept up the coast and across Charleston. Early Saturday morning the dreaded signal was run up and the city held its breath, hoping that the storm might pass us by.

There was not fifty yards space in the streets that did not contain debris, such as roofs of houses, signs, awnings, telegraph poles, etc., which were scattered in all at midnight, when the storm struck them, directions. The roof of the St. Charles hotel was blown off and the streets were flooded with water almost to its doors. There was a schooner lying high in the streets, having been driven from its anchorage. There was no communication with Savannah, all telegraph lines having been prostrated. While he saw no one killed or injured it was currently reported that eight people had been killed in the city

At Sullivan's Island a man by the name of A. Bryan and his wife were drowned, and Mrs. E. Holland was killed by a falling house. Fifteen houses were swept away and every one on the Island was more or less damaged. Sullivan's Island is in the Atlantic ocean, seven miles east of Charleston, and is the site of Fort Moultrie

THE DAMAGE ELSEWHERE.

Many Streets Inundated and People Visit Their Homes in Boats.

EASTON, Aug. 30.-A wind and rain storm of unusual severity swept over this section, terrifying people and doing con-siderable damage. Trees were blown down, numerous buildings unroofed, and down, numerous buildings unroofed, and fruit trees, that suffered so severely from the wind storm a few days ago, were stripped this time of nearly all their fruit. The Malinda Wood, a small sixty foot

unknown negroes drowned on Brampton's week ago laid the corn stalks in one direcplantation, four miles from the city. Louis tion, and the storm coming from another Garnet, colored, ran into a live trolly wire. quarter cut the stalks off at the base, thus rendering the crop useless. The damage runs up in the thousands.

ASBURY PARK, N. J., Aug. 26 .- The Mary F. Kelly, a two masted fishing schooner from New York, was wrecked here yesterday and four men were drowned. Those who perished were the captain, Christopher Bratton, of Brook lyn; First Mate Charles Brown, of Green point, L. L; the steward, known as "Walter," and a Norwegian fisherman, Harry Broden. The crew was composed of eleven men, and seven were saved. The boat ran walk, the waves were so high that it was impossible for the men to be reached. Ropes were thrown from the boardwalk to the vessel by the hotel guests and in that way four men were rescued. The others saved were washed ashore by the waves

SOUTHAMPTON, L. I., Aug. 25.-Yesterday two vessels, a coal barge and a towing vessel, were wrecked off the coast at this point. Six men from the towing steamer reached shore-three alive and three beyoud resuscitation. The fifteen other men of the crews are believed to be drowned, thus making a total loss of life of eighteen persons.

CONEY ISLAND, L. I., Aug. 30 .- The tornado which swept over this island was the severest that has been experienced here in many years. Along the beach everything has been completely wiped away, and the roofs of many hig buildings have been carried blocks away.

NEW YORK, Aug. 25.-The fishing schooners Empire State, with a crew of ten men, and Ella M. Johnson, with a crew of eight men, went down Wednesday night off Manasquan on the Jersey coast, and all on board were lost. These two vessels were in company with the Chocorua and after beating around all night in some of the worst weather ever known off the coast, with the loss of the captain and her first mate, the Chocorua tied up late yesterday afternoon, the only survivor of the three. She is in charge of Sailor Dick Kelly

The storm struck the three vessels about midnight, and at 1 o'clock the Johnson disappeared. About half an hour later Captain Perry and First Mate Joseph Francis, of the Chocorua, were swept overboard by a gigantic wave. The lights of the Empire State disappeared immediately afterwards, and at daybreak her masts were seen projecting out of the water about three feet.

Stephen Cooper, of the pilot boat Thomas D. Harrison, reported that twenty miles off the Highlands he picked up Henry A. Suga, a Portuguese, clinging to the mast-head of a sunken wreck. He proved to be the only survivor of the schooner Narragansett, Captain Chase, bound from Phila-delphia for Wareham, Mass., coal laden, which foundered during the hurricane. The crew of five men were all lost, and the survivor was for seven hours on the mast

Battle in Kilima-Njaro,

BERLIN, Aug. 30 .- A telegram from Dares-Salaam says that on August 12 Lieuter ant Axt stormed the fortified camp of Sultan Meli at Kilma-Njaro. Four of his men were killed and twenty-four were Lieutenant wounded in the attack. Axt was mortally wounded shortly before the end of the fight at Kilma-Njaro.

Secretary Smith's Journey.
