The latter part of last week Holliday was missed. A watch was set on Holli-day's premises, and Mrs. Holliday said be had gone to Bloomsburg to work as a mason, but an investigation proved her statement false. Mrs. Holliday made some inquiries as to what would remove blood stains, and her actions becoming mysterious she was arrested. A searching party was then made up to look for Holli-

In the barn at Holliday's place they found under a lot of hay the boos of two women. One was a fleshy woman about 40 years old, and the other that of a young girl about 19 years. In the body of the elder woman there were eight bullet wounds. Death had evidently taken place in both cases about four days ago. While the names of the dead women are unknown it is thought they were summer

boarders from New York city. Coroner Roesch, of Wurtsborough, has summoned a jury, and local physicians are making a post mortem examination. The inquest is being held this afternoon. The search for Holliday continues.

TIN PLATE PRODUCTION. Special Agent Ayer's "Suppressed" Report Given Out for Publication.

Washington, Sept. 6.—Special Agent Ayer's much talked of "suppressed report" on tin plate has been given out by the treasury department. It shows that during the period from July, 1891, to March 81, 1892, the aggregate production of tin plate in this country from sheets rolled in the United States was 84,632,050 pounds. The aggregate amount of imported black plates which have been con-

The increase of the March quarter over the December quarter of tin plate produced in this country is 3,300,000 pounds, and of imported black plate 6,780,000 pounds. Ten firms use their own black plates exclusively, thirteen firms use both American and foreign plates, and nine use

A Reary That the Explorer Was Eaten by His Murderers.
LOSDON, Sept. 5.—Rev. Mr. Swann, a missionary, who has just returned from

Ujiji. on the east shore of Lake Tanganyika, says that it is impossible to doubt honestly that Emin Pasha is dead. "The most circumstantial reports reached me from four independent sources," said Mr. Swann, "and all agreed as to the details. The Arabs everywhere in Africa are re-joicing over his death."

According to the reports received by Mr. Swann, Emin had arrived at the residence of Seyd Bin' Abed, in the country of the

Manyemas, in the eastern part of the Congo state. A party of Arabs approached and asked him, "Where are you going?"

"To the coast," was Emin's reply. The leader of the Arabs, who was armed with a scimetar, then stepped up to Emin and said: "You are Emin Pasha, who killed the Arabs at Victoria Nyanza."

Without waiting for an answer he struck off Emin's head with the soinetar. Emin's body was thrown to the Manyemas, who ate it. Subsequently the Manyemas mur-dered Emin's Nubian followers and ate
