MONSTROUS THRONG.

Remarkable Gathering on Chicago Day at the Big Fair.

FULLY SEVEN HUNDRED THOUSAND

Passed Through the Gates and the Carringeways-The Record of the Paris Exposition Eclipsed by Hundreds of Thous ands-Such a Crowd Never Seen Before.

CHICAGO, Oct. 10 .- Seven hundred thousand people-doubtless the greatest crowd that ever congregated-visited the World's fair yesterday, breaking the greatest one day record at Paris by an overwhelming majority, completely smothering the "big figures of any other expe held, and establishing a mark which, it is safe to predict, the present generation will never see attained.

When the morning sun, looking through a light mist, peeped over the white peristyle at 5 o'clock many people were near ing the different entrances to the grounds, and by the time the gates opened (6:30) fully 1,000 people beseiged each passage, eager for admission. From that hour until late in the afternoon there was a constant jam at every gate. The department of admission had an extra force on duty. and every turnstile was kept registering at its highest speed. Yet these facilities

were inadequate, and at 1 o'clock Superintendent Tucker ordered every wagon gate opened, and stationed a corps of meu at each to take tickets, relieving the pressure from without to a marked degree.

About 4 o'clock, when it was seen that the crowds had diminished sufficiently to permit of their successful handling by the regular entrances, the wagon gates were closed after 500,000 people had been admitted. To this vast army 181,000 were added in the next three hours. The glorious October weather and the grandness of Chizago day at the fair kept the crowds coming all afternoon and evening. A conservative estimate places the attendance for the day and night at 700,000. The official figures will not be given out before this afternoon, as the great mass of tickets has nearly swamped the department of admissions.

Previous to this ever memorable day the palm for large attendance rested with Independence day. July 4, when the attendance was 283,273. Other days notable for great crowds are: Illinois day, 243,051; Transportation day, 231,522; Pollsh day (last Saturday), 222,176; Knights of Honor day, 215,643; Pennsylvania day, 203,460; Railroad day, 202,376. The total number of paid admissions since the opening of the fairi s 16,492,070. The greatest day at Paris was 397,150, and at Philadelphia

During the afternoon there was a reunion of states, in which thousands of boys and girls took part, but the crowning glory of Anniversary Day was the prosession of floats which entered the grounds at dark. The first one represented Chiingo receiving all the nations of the earth. Then came the genius of music, followed by Chicago and its typical motto "I will, guided by Liberty. The most magnificent font in the entire procession was illustra-live of Columbus at the court of Isabelia. The characters of the float were assumed by the members of the Columbian club of Chicago. The last float in the procession was "Electra, the peaks of electricity," Irawn by eight horses. It was represented by enormous dragons, changing tolor from green to red, and lighted by
