

DEFIANT HAWAIIANS.

Anti-Royalists Adopt Vigorous Resolutions.

BRITISH INFLUENCE AT WORK.

It is asserted in Honolulu that the President has made an arrangement with Great Britain for Liliuokalani's restoration—a monarchy would be short-lived.

VANCOUVER, B. C., Dec. 13.—The Australian steamer Arawa, which brings Honolulu news up to Dec. 4, arrived at Victoria yesterday. Immediately upon entering the straits she was boarded by a reporter, who was informed that Queen Liliuokalani had not been restored, and there had been no trouble in Honolulu. On four days preceding the sailing of the Arawa the troops of the provisional government were busy fortifying and barricading the government house, or the castle, as formerly called. Work was being done with sandbags principally. As the Arawa sailed from the harbor troops could be seen from the deck of the steamer busily engaged in heaping up the breastworks.

Since the arrival of the steamer Warimoo on the 24th ult., developments have followed each other with startling rapidity. When the Warimoo arrived with Cleveland's ultimatum the royalists were jubilant and the annexationists at once began to carry out previous plans for forcing resistance in case the steamer China, which arrived three days later, brought instructions to Minister Willis for restoration of the monarchy with the aid of the United States troops from warships Adams and Philadelphia. Within twenty-four hours after the news was brought by the Warimoo 1,600 determined annexationists had assembled on short notice, and a mass meeting was at once held.

The meeting was short but wildly enthusiastic, and those who heard the ringing cheers which welcomed speeches of President F. M. Hatch, of the Annexation club, and the presentation of the resolutions knew that monarchy, even though restored by superior forces of the United States, would be short-lived.

In the course of his speech Mr. Hatch said:

"We are confronted by the declaration of Secretary Gresham that royalty must be restored and our government destroyed. His representative has given us the opportunity to be heard before final action will be taken upon this issue. Certainly any action taken by the congress of the United States of America cannot be resisted by anybody in this community. I challenge the right of the chief executive of that great nation, of his own motion, to undo the act of any of his predecessors. Congress may do it, but Grover Cleveland had no more right, legally or morally, to undo an act of Benjamin Harrison than he had to undo any act of Abraham Lincoln.

"Let us hold the president to the true issue, and then if the legally constituted power of the United States, the power which has the right under the constitution to declare war, overpowers us we will go down, our colors flying and with no misrepresentation possible. Let it be known to the world that, if the event takes place, it will be because the United States has exercised its power but not its right."

The resolutions adopted at the mass meeting were as follows:

Resolved, That we have read with surprise and regret the resolution of the secretary of the United States to the president to restore the monarchy lately existing in Hawaii.

Resolved, That we condemn the assumption of the secretary that right of the provisional government to exist was terminated by his refusal to resubmit to the senate the treaty of union pending between the two countries, and also his assumption that the provisional government was the very thing submitted the arbitration of the president or of any other power.

ANGRY RAILROADERS.

Lehigh Valley Men Again Becoming Discouraged.

THE SITUATION IS CRITICAL.

The Discharge of Old Engineers Who Had Been Re-employed May Precipitate Another Strike, Which Will be Stubbornly Contested.

WILKESBARRE, Pa., Dec. 13.—The employees of the Wyoming division of the Lehigh Valley railroad have been notified of a reduction in wages. In future pay engineers will be paid at the rate of \$3 per day, a reduction of from twenty-five to fifty cents per day. Firemen will receive \$1.90 per day for the first six months, \$2 for the second six months and \$2.10 after one year.

The local Brotherhood of Engineers held a secret meeting here last evening to take action in the cases of the engineers who were discharged on Monday. As a result of the conference Chairman Rice, of the grievance committee, left for Bethlehem to interview President Wilbur.

Chairman Rice is anxiously awaited by the employees in this city now, for there are deep murmurs of disaffection regarding the action of the company in discharging all engineers over 45 years who were engaged in the strike. These men were called back for duty last week, and after three days' service were notified of their discharge according to the new rule of age limitation. Perhaps no grievance preceding the strike has caused such a strong feeling as this. Four engineers on the Wyoming division who were discharged average 50 years old and are well preserved. They have served the company for twenty to thirty years, and were among the best engineers on the road.

Already the indications are that this action of the company may cause serious trouble, and conservative business men hereabout affirm that unless this rule is modified the company will have another strike on its hands, and that other roads are likely to be involved. The situation is critical. The men here seem to be in a temper to resent these things, and should the chiefs give any encouragement, it is believed that a second strike would be precipitated, and it would be a tighter tie up than before.

The men say that one of the cardinal features of the settlement of the strike was the agreement of the company that the old employees should not suffer from prejudice on account of the strike, yet the wages of the former strikers on the Wyoming division are being reduced, while the wages of those who did not go out remain as before, and engineers over 45 years old who did not go out are retained in the service of the company.

ROCHESTER, N. Y., Dec. 13.—Those of the Lehigh strikers who have gone back are willing to join in another tie up, and agitators are adding fuel to the flames. It would not surprise anybody here to learn that a new strike had been inaugurated.

Protecting Our Senate Against Bombs.

WASHINGTON, Dec. 11.—The officials of the United States senate are taking every precaution consistent with the dignity of that body to prevent an attack from the galleries similar to that made in the French chamber of deputies. No person is permitted to enter the galleries when the senate is in session carrying any sort of an extra package, and suspicious looking characters are closely scrutinized when about the senate chamber or in the corridors. The order against miscellaneous bundles was proclaimed immediately after the attack upon Russell Sage a year or two ago.

Miss Kast Wants to Practice Law.

CARLEISLE, Pa., Dec. 13.—The entire Carleisle bar is up in arms against Ida G. Kast, of Mechanicsburg, who wants to be a lawyer. She is the first female applicant for permission to practice law that the Carleisle bar has ever had to deal with. A month ago the young woman applied to the board of examiners for permission to undergo her preliminary examination. The members of the board decided that the rules of the court would not admit of their granting her request, and Miss Kast appealed to the court. Judge Sadler reserved his decision.

For Smuggling Chinamen.

PORTLAND, Ore., Dec. 13.—The trial of twenty persons charged with conspiracy to smuggle Chinese laborers into this country began yesterday in the United States district court. The case promises to be one of the most interesting ever tried in an Oregon court, both on account of the prominence of some of the defendants and also on account of the large number of persons implicated.

Cremated in Her Home.

PONTOONAC, N. Y., Dec. 13.—Mrs. Georgiana Jackson, of Farmingville, four miles from here, was burned to death in her residence. She had lived alone on her large farm. She was seen lying on her bed, but the house was in flames and no assistance could be given her. It is supposed that she was murdered, and a speculative peddler named Edwards is under arrest.

His Eyesight Destroyed.

LANCASTER, Pa., Dec. 12.—Frank George, a laborer, and the father of eight children, met with a terrible accident at Line Rock, this county. The man had arranged a blast which failed to explode. He returned to relight the fuse, and while stepping over to do so, the blast went off. The sight of both eyes was destroyed and he was badly injured about the face and head.

To Suppress the Quacks.
