# FREE COAL AND SUGAR.

# The House So Decided When Pressed for a Vote.

THE WILSON BILL NOW IN DANGER.

Demscrats Who Are Opposed to the Bill in Its Present Shape May Unite with Republicans in Having It Recommitted to the Ways and Means Committee.

WASHINGTON, Jan. 24 .- The house yesterday determined the abolition of the luty upon refined sugar, which was passed upon just before the house adjour ned Monday night as an amendment to an amendment offered by Mr. Robertson, one of the Louisiana sugar men. A way out of the confusion which existed upon the effect of the amendment adopted was found after a two hours' discussion of the parliamentary situation by submitting the question to the house as to whether the Warner amendment placing refined sugar on the free list should be considered as a substitute for the Robertson amendment. This was decided affirmatively, and then by an overwhelm-ing vote, in which the Republicans joined with the radical Democrats against the sugar men and several members of the ways and means committee, the substitute was adopted.

With regard to the sugar schedule, therefore, the committee of the whole has abolished the bounty and placed all sugar, both raw and refined, upon the free list. When it came to consider the coal schedule, however, the committee fared much better, and all four of the amendments designed to place a duty of from forty to seventy-five cents per ton upon coal were beaten.

The debate upon the coal schedule developed a great deal of feeling among the southern members, especially those from Virginia, West Virginia, Tennessee and Alabama, whose states are interested either in coal or iron ore. The general impression is that the defeat of the sugar men and of those who are interested in retaining a duty upon coal will result in strengthening the movement developed on the Democratic side to recommit the bill. If the iron men are defeated today, and especially if the income tax should be placed upon the bill as a rider later in the week, another strong faction on the Democratic side will be added to this movement

The Republicans will all vote for the motion to recommit, and, with the Democrats who do not care to vote against the bill outright, but who are not satisfied with it in its present form, they may be able to muster a majority to send it back to the committee. This is now admitted on all hands to be the chief danger to the bill. If it could be brought to a direct vote there is no question about its passing.

The Hawaiian controversy again came before the senate. Early in the day Senator Turpie, of Indiana, reported from the committee on foreign relations a resolution declaring against the annexation of Hawaii, but favoring the complete autonomy of the provisional government, and reciting that foreign interference would be considered as unfriendly to the United States government. Later in the day Senator Cullom, of Illinois, made a speech in favor of the Frye resolution of non-interference by America in Hawaiian affairs. The bill to repeal the federal election laws was taken up. Senator Wilson, of Iowa, made an argument against it, and Senator Chandler caused some amusement by offering to postpone consideration of the bill until December next.

He holds that the proposed issue of bonds is of extremely doubtful legality, in view of the original intention, and points out that if they are legal the only limit to such issue is the conscience of the administration, which may, therefore, issue bonds indefinitely to provide for revenue deficiencies.

# PRINCE AND EMPEROR.

Rausch Creek have been closed, owing to | Reconciliation Between Bismarck and Germany's Monarch.

IT CAUSES GREATEST REJOICING.

It Was Brought About by the Emperer Himself, Who Sent a Special Messenger to the Great Statesman, Who Will Visit Berlin Next Week.

BERLIN, Jan. 24 .- Emperor William has apparently become reconciled to Prince Bismarck, and the latter will probably visit the emperor in Berlin shortly after the latter's birthday celebration on Saturday next. The news of the reconciliation has caused the utmost satisfaction throughout Germany and has increased the emperor's popularity. The news has also strengthened the government, as it is stated that Prince Bismarck is in ac-cord with Chancellor Von Caprivi and with Baron Marschall Von Bieberstein, the imperial secretary of state for foreign affairs

Little by little the facts in the case are leaking out, and it would seem that the reconciliation was brought about entirely by the emperor himself, and that he acomplished it in a most graceful manner. He sent his aide-de camp, Colonel Count Von Moltke, with an autograph letter to the ex-chancellor, congratulating him on his recovery from his recent attack of influenza, and begging him to accept a bottle of very old wine from the imperial cellars, which Colonel Von Moltke was also charged to convey to the distinguished German statesman. The mission was entirely successful, and Bismarck stated that he would call on the emperor next week.

There is no doubt that a very great number of people in Germany objected to the practical exile from Berlin and from participation in the affairs of the empire of the great German statesman who laid the foundations of German unity, and who built upon them the empire of Gerwho relied upon Prince Bismarck's support against the Russo-German treaty, are downcast, and apparently convinced that there is no longer much strength in their opposition to this measure.

The effect of the news of the reconciliation between the emperor and the exchancellor was most marked. There was a general rise in stocks and bonds on the bourse and a much stronger and more healthy feeling prevailed on all sides. The newspapers hail the announcement of the reconciliation as the happiest event which has happened in Germany for a long while, and the people everywhere give evidence of joyful excitement and thanksgiving.

The excitement and satisfaction is not confined to political circles. All ranks and all ages, as well as all conditions of people, rejoice to hear that there is no longer any angry feeling between the ruler of the German empire and the great servant of the country who has done so much for German unity.

One of the results of the reconciliation between the emperor and Prince Bismarck is that preparations to celebrate the emperor's birthday on Saturday have been multiplied, and that this event will now probably be made the signal for a general outburst of patriotic enthusiasm throughout Germany.

## No Separate Schools in Canada.

MONTREAL, Jan. 24 .- The news that at the cabinet meeting the Dominion gov-ernment refused to veto the bill doing away with the separate schools in the northwest has caused a great sensation here. The decision of course goes dead against the interests of the French Canadians, who for years have fought for the maintenance of their own schools, in which French is taught, and it will do much to keep up the race prejudice.
