## Saved My Life

\$5 Worth of Hood's Sarsaparilla

Severe Case of Nicotine Poisoning.

C. I. Hood & Co., Lowell, Mass.: "Gentlemen: - I write these lines to certify that Hood's Sarsaparilla has cured me of a most painful disease from which I have suffered the past four years. It appeared in the form of eruptions on my neck and face, spreading over my body, so painful that I could not sleep at night, and could not work in the day time, and when I did lay down and get into a little doze, if I would move just a little, it would start that terrible sensation, and

**Blood Would Start** 

from the cruptions on my legs and body. I had to wear bandages all the time. My eyes were badly swellen, my back in terrible condition. One physician said it was weed poison, another sezema, and the last told me it was

Nicotine Poisoning, and that I would have to go to a physician who made a speciality of my disease. (I omitted to say that I am a cigar maker by trade.) But Hood's Sarsaparilla had been recommended, and I thought I would try it, and I am heartly thankful that I did. I can truly say that Hood's Sarsaparilla has effected

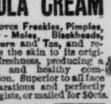

A Perfect Cure.

Successful Test of Tailor Dowe's Great Invention.

WITHSTOOD A STORM OF BULLETS.

The Inventor, Clad in His Mysterious Garment, Resisted Bullets, Fired by the New German Army Rifle, That Had Pierced a Block of Solid Oak.

BERLIN, April 11.-Experts in military affairs, not only in this city, but throughout Europe, are discussing the recent ex-periments made with the bullet proof coat invented by Herr Dowe, the Manheim tailor. There seems to be no longer any doubt that Dowe's invention is a most valuable one. The Russian ambassador fired two shots at the tailor while he was encased in his bullet proof coat, and Dowe eustained absolutely no injury.

The experiments before Count Von Schouvoloff were not confined to simply firing two shots at Dowe. They began with a thorough test of the new rifle in use in the German army. From a box of cartridges one was selected at random, the rifle was loaded and was then fired at a block of solid oak, which was pierced by the small, steel like bullet. This showed that the rifle and cartridges were of the regulation pattern and well calculated to test the value of the most efficient steel cuirasses ever manufactured, much less a "bullet proof" coat. In fact it was stated before the experiments commenced that no armor was ever manufactured which could withstand a shot from the rifle now in use in the army of Ger-

After the shot at the block of oak Dowe dressed himself in his bullet proof coat and offered himself as a target. While the rifle was being aimed at the tailor the spectators were strung to an extreme state of nervousness, and instinctively closed their eyes in anticipation of seeing Dowe killed on the spot. But after the report of the rifle rang out and the tailor was seen standing, apparently unhurt, there was a feeling of immense relief among every one present. Dowe immediately no ticed the state of excitement produced by the experiment, for he smiled, much to the relief of the onlookers, and said: "I feel nothing." A second shot was then fired directly at the tailor's heart, but it over hand, to the roof of the Davidson had the same effect as the first. The tailor was absolutely unhurt, and both bullets were found imbedded in the bullet proof coat which covered his breast and body.

Then commenced a second series of experiments which were even more interesting than the first. A horse was covered with a bullet proof coat, for it is proposed that the cavalry of the future is to be protected by this wonderful material. In this case a number of shots were fired in quick succession at the animal, while it was quietly eating oats from a manger.

As in the case of the bullet proof coat worn by Herr Dowe himself all the bullets fired at the coat covering the horse were found to be imbedded in the material, but the animal itself was unhurt.

A naval officer who was present at the experiments asked Herr Dowe if his bullet proof armor could be applied to war ships, They were really in no danger and had and he was assured by the inventor that a ship protected by his bullet proof material could stand a pounding from all the war ships in the world without sustaining any considerable damage.

of several foreign governments have been making strong efforts to obtain Herr Dowe's secret, but it is said that all these DEMOCRAT is increasing with each efforts have falled, and patriotic Germans express the desire that the German government should secure Herr Dowe's secret, -shrewd advertisers should note that the bullet proof coats may be used by the German army alone. It is said that \$,000,000 marks have been offered to Herr Dowe by the German government for his invention.

Killed in a Building Collapse.

BROOKLYN, April 11.-The house No. 140 McKibben street, which is a three story frame structure, was being raised last night to put in a foundation, when it tottered and collapsed. After about two hours work the following persons were taken out: Michael Winmann, aged 54 years; his wife Mary, aged 50; Charles Winnman, their son, 22 years old (will probably die); Stella Clinton, 28; Jacob Roney; Henry Grassman, 29, one of the workmen. Minnie and Mary Brooks, aged 8 and 19, were slightly injured. The dead bodies of Mrs. Catharine Clinton, mother of Stella, and John Kelly were taken out at midnight. The house caught fire after it tumbled down, but the flames were quickly put out.

Coin Shavers Captured.

BALTIMORE, April 11 .-- A man and a woman are under arrest here on a charge of mutilating gold coin by lightening them. have been in search of for some months. They are members of a gang which has been operating extensively in the west. Their specialty was sweating \$20 gold pieces, and so successful have they been that it is estimated that from \$50,000 to Proprietor \$75,000 in gold coin has been artistically shaved, remilled and passed again into circulation.

Down an Embankment.

BOURBON, Ind., April 11.-A wreck oc-curred on the Lake Eric and Western railroad near Tyner City. As a passenger train was pulling out of the station it struck a broken rail, derailing the mail, baggage and smoking cars, and rolling them down a ten foot embankment. John Shaw, brakeman, was instantly killed. Two passengers, whose names could not be learned and who could not speak, were fatally injured. John Baldwin, of Tyner City, was thrown against a barb wire fence and may die.

Nominated by the President. WASHINGTON, April 10 .- In a list of nominations sent to the senate by the president were the following: Edward H. Strobel, of New York, to be envoy extraordinary and minister plenipotentiary of the United States to Ecuador; William W. Rockhill, of Maryland, to be third assistatn secretary of the state, vice Edward H. Strobel, nominated to be minister to Ecuador; Allen T. Frederick, postmaster at Allentown, Pa.; Robert C. Haverton, postmaster at West Point, Va.

# REMARKABLE COAT. INTO A FIERY FURNACE.

Terrible Experiences at a Theater Fire in Milwaukee.

NINE FIRE FIGHTERS MEET DEATH

The Men Were at Work on the Roof of the Building When It Gave Way, Precipitating Them Into the Blazing Auditorium Beneath.

MILWAUKEE, April 10 .- Early in the morning flames were seen breaking from the rear of the Davidson theater and hotel a structure valued at \$300,000. An alarm was promptly responded to, but not until the roof was a sheet of flame. Immediately on the arrival of the fireman, ladders were run up and the men rushed up on the roof, six stories from the ground In doing so Ollie Reis, one of the men, slipped and fell to the ground, being killed by the fall.

Twenty firemen were upon the roof of the building when it fell, and in a moment every man was pitched into the audito rium of the theater, some falling into the parquet and others into the balconies.

When the roof of the theater fell the members of the insurance patrol were covering up the seats in the parquet. A light was suddenly seen through the roof above. and the men in the auditorium ran back just as the crash came. Several of the men in the theater were caught by the falling timbers. There was trouble in getting water on the fire, which, after the fall of the roof, rapidly made its way throughout the building.

The water was finally got into the auditorium, and several of the firemen who had fallen nearest the front door of the lobby were dragged from the burning debris and carried out more or less injured. The men were removed to the saloons across the street, and their wounds dressed.

While the firemen were at work amid the ruins of the floor of the parquet the gallery began to burn, and while directing their attention to this blaze another part of the roof fell.

Deeds of heroism were numerous, as usual under such circumstances. Michael Dunn, captain of one of the fire tugs, slid down a rope, made it fast to several of the men who were not pinioned down by the debris and then climbed the rope, hand hotel, which escaped destruction. The fire took a new start among the debris, and amid the groans and shouts of the imprisoned firemen the work of rescue began and was kept up until 8 o'clock last night, when the eighth body was taken out and the work abandoned until today,

John Crowley remained in the ruins alive for bours. There was fire all around him, and the spot where he was in down was kept flooded. Finally Crowley was released from the ruins and taken to the hospital. He is badly hurt and will probably die.

The guests of the Davidson hotel, which occupies a part of the building, fled panic stricken from their rooms when the alarm of fire was rung in the hotel corridors. ample time to get out. No one was in-

The firemen killed by the fire were: Archie Campbell, captain of the fire boat Foley, fell from the upper part of the A large firm of army contractors offered | theater; Lieutenant Oilie Reis, fell from Dowe an enormous sum for his invention, hadder in rear of theater, died on the way but the tailor refused. Representatives to hospital: Fred Koschmider, aged about 25; August Janssen, assistant chief of the department; Thomas Morgan, single; George Janssen; Frank McGurk, acting captain, married; James Freeman and Frank Winn. Eight other firemen were seriously injured, and it is feared that Lieutenant Curran, of No. 2, will die.

The loss on the building, scenery and equipments of the Liliputian company aggregates \$300,000, on which there is an insurance of \$88,000, of which \$10,000 is carried by Rosenfeld Bros., owners of the Liliputians. Their loss will be \$75,000.

More Fighting in Brazil.

BERLIN, April 11.-Reliable dispatches received here from Rio de Janeiro announce that some serious fighting is taking place at Rio Grande do Sul, and that an important naval battle may shortly be expected. Five of the insurgent war ships are bombarding Rio Grande do Sul and the forts are replying with but little effect. The Brazilian government has dispatched ten war ships to the south with instructions to seek out and engage the rebel fleet at the earliest opportunity Porto Allegre is also said to be seriously threatened by the insurgent forces landed by Admiral da Gama.

Coxey's "Unknown" a Detective.

PITTSBURG, April 11. - The Dispatch publishes a circumstantial a pose of the Coxey "Unknown" story. It is stated on good authority that he is a Swede by the name of Jansen, a resident of Chicago. and a detective. According to the story the "Unknown" receives a salary of \$50 a week, which is forwarded to him at convenient points along the route. Six Pinkerton are said to be in the army constantly. under the command of Jensen, and re ports are regularly sent to Pinkerton headquarters.

Admiral Benham's Retirement Washington, April 11.—Somewhere between Curacoa, Venezuela, and New York Admiral A. E. K. Benham yesterday retired from active service in the United States pavy, by force of the law which prescribes that an officer shall retire when he reaches the age of 62 years. He had seen forty-five years of service, and leaves behind a fine record for brave and faithful

French Missionaries Maltreated. SHANGHAI, April 11.-The French missions at Hsiangu, in the province of Shon Si, have been burned by a riotous mob. The priests in charge of the missions were severely maltreated by the mob, and, in addition, have been thrown into prison. The French government, through its minister to China, has demanded redress for the charge.

Death of Senator Cattell.

JAMESTOWN, N. Y., April 10.-Alexander G. Cattell, of New Jersey, who served that state for five years in the United States senate, and was at one time fiscal agent of the government in Europe, died in this city. He had been here for several months in the care of a doctor. He was in his 79th year.

Surveyor Barr Confirmed. WASHINGTON, April 11 .- The senate in executive secretar confirmed the manife tion of A. o. do rto. e. a veryor a knee toms as one port of a most go

TERRIBLE POWDER EXPLOSION Twelve Killed by the Destruction of

Fireworks Factory. PETERSBURG, Va., April 9.-Twelve per sons were killed and several badly injured by an explosion which occurred in the power house of the fireworks factory of C. N. Romaine & Bro., in Blankford. The explosion was distinctly heard in the city, where windows of stores and dwellings were rattled by it. The building was set on fire by the explosion, and the flames spread to adjoining buildings, in which powder and fireworks were stored. As each house took fire an explosion followed, and the flames shot across the street to the large trunk factory of Romaine & Bro.,

which was burned to the ground, as was also the old whisky distillery. The dead: John B. Bland, member of the city council; James Bryant, employe in fireworks factory; John F. Harris, tailor; Quincey Livesay, employe in fireworks factory; William Parker, employe in fire-works factory; James W. Perkins, bricklayer; Charles N. Romaine, member of the city council; James Rowland, farmer of Prince George county; Robert Rowland, carpenter; James T. Tosh, candidate for revenue commissioner; Edward Traylor, employe in fireworks factory; Thomas Woodfolk, colored, fireman in the factory.

A colored boy named Samuel Drew was sitting in the front door of his parents' home, near the factory, and was struck by a flying brick or piece of timber and terribly injured, but may recover.

The shock from the explosions was felt for a distance of fully a mile, and in the neighborhood of where they occurred ceilings fell and windows were shattered.

Quiet in the Coke Region.

UNIONTOWN, Pa., April 10.-The situation in the coke region is unchanged. While the foreign element is still threatening violence, there are no immediate indications of danger. The English speaking miners held a meeting yesterday, and as a result all went to work excepting those who were prevented by rioters. The strike is being kept up solely and wholly by the foreign element employed at the plants not paying the Frick scale. It is stated on good authority that a move will be made in the convention this afternoon to declare the strike off so far as the H. C. Frick Coke company is concerned, and at all the plants paying the Frick scale.
