

THE RACKET.

No. 9, CRIDER EX., BELLEFONTE, PA.

Mary had a new "Skip-Skip," Its string was bright red twine, And everywhere that Mary went, All thought that "Skip-Skip" fine.

She took "Skip-Skip" to school one day, 'Twas not against the rule, The teacher loved to see a toy So graceful, at her school.

What makes them love the "Skip-Skip" so? The eager children cry: Why don't you see its all the go, You'd better run and buy— A nickel gets one at the Racket.

JUST IN—25 boxes of Amber Oleine, best and cheapest soap for the laundry. If you try it once you'll use no other.

HAVE U SEEN the new Black Silk Gloria? Nothing nicer for waists and dresses. It has the merit of economy, too.

G. R. SPIGLEMYER, SHEM SPIGLEMYER, JR.

LOCAL DEPARTMENT.

Owing to the scarcity of coal, steam heat is only turned on during the mornings and evenings. Mrs. W. Orbison, of Bellefonte, will sail for Europe about June 1st. She will visit a friend in Venice.

John H. Schrom, of our town, recently received an appointment as a cadet on the school ship Saratoga.

The citizens of Madisonburg now boast of having a brass band. One was organized at that place recently and it is progressing nicely.

The Elmira Journal, in its last issue contained a number of interesting biographies of prominent citizens of Bellefonte. Of course it was done for revenue only.

On Friday evening the opera house will be crowded completely to see the rendition of "Paul Jones" by local talent. It is a fine production and has some of the very choicest music running through it.

Mr. John P. Harris is having some extensive improvements made to his residence on Linn street. A large porch is being built and the addition of a tower gives the building an imposing appearance.

The Bellefonte Y. M. C. A. are arranging for having a day at Hunter's Park on the 4th of July. An interesting programme consisting of athletic sports will be prepared.

The vault in the Register office is now supplied with the new metallic furniture. The next will be to rearrange the documents and put them in proper order. A new tile flooring will also be put in.

Prof. Wilse Reitmeyer, of Lewisburg, has been spending the last week or more with the Zion band, giving them some of his best music, and a general brushing up. Wilse is a good instructor, which can be seen by the progress this band is making.

It is the intention of a number of property owners along north Allegheny street to put a sod strip about six feet wide, from the curb in front of their residences. The entire block from Hale's corner to Hastings will be improved in this manner.

Geo. B. Crawford is moving his cigar store and billiard tables to Allegheny this week where he has rented a desirable room, and will engage in the same business. He has rented only for a short time and if it pays will remain there permanently.

Dr. George F. Harris and Mrs. Harris departed last week for New York. The doctor will go to Canada where he hopes to enjoy a week or two salmon fishing, the guest of his brother-in-law, Wm. H. Sage, of Ithaca, N. Y., who owns a Lodge on the Restigouche river.

At the rendition of Paul Jones, on Friday evening the spectacular effects will be of higher order than usual. Many say it will surpass the efforts of professionals. Don't miss it; that part alone is worth the price of admission. Then it is being done entirely for charity's sake.

Many people visited the great lake on the Gentzel farms, in Spring twp., on last Sunday. The water began to fall slowly the beginning of this week. A blind fish was found that had been washed out in the mud, and Mr. Gentzel declares he saw a crane about the lake last week that was nearly ten feet high.

COMMENCEMENT EXERCISES.

OF THE BELLEFONTE HIGH SCHOOL.

To be held in Garman's Opera House on Wednesday, June 6th—Full Programme for Afternoon and Evening.

The graduating exercises of class '94, of the Bellefonte High School, will be held in Garman's opera house on Wednesday afternoon and evening of June 6th, 1894. This will be the eleventh annual commencement and it promises to be an important event. The members of the graduating class are: Allen Frederic Blair, Gertrude B. Dolan, David Paul Fortney, John M. Keichline, Jr., Mary Louise Kellerman, Maurice J. Kelley, William H. Runkle, S. Elizabeth Smith, Rufus Tracy Strohm and Isabel Taylor.

The class this year contains a larger number of young men than ladies. In former years it was the opposite. The reason for it is that many young men obtain good positions to engage in business or learn a trade, and for that reason often drop their school work when they should continue.

THE PROGRAMME.

On Tuesday the members of the class obtained handsome invitations and programmes from this office for the commencement exercises and the same have been issued. The programme for the day is as follows:

AFTERNOON—2:30.

Music, invocation, music. Salutatory and Oration—"Monuments," Allen F. Blair. Essay—"Mind moves Matter," Isabel Taylor. Oration—"Life and its Rewards," Maurice J. Kelley. Music. Oration—"Habit," John M. Keichline, Jr. Essay—"What will the people say," Elizabeth Smith. Oration—"The Labor Question," William H. Runkle. Music. Essay—"Wealth and its Effects," Mary Louise Kellerman. Oration—"March of the Nineteenth Century," David Paul Fortney. Essay—"Our Debt to the Past," Gertrude B. Dolan. Music. Oration—"The Tides of Men" and Vaudeville, Rufus Tracy Strohm. Music.

EVENING—8 P. M.

Music by Meyer's orchestra. Commencement address, Col. J. L. Spangler; music; presentation of certificates, David F. Fortney, Esq., President of School Board; music; benediction.

The other schools hold their closing exercises in the respective school buildings on Tuesday morning, June 5, at 9:30.

Thursday, June 7, will be exhibit day in the schools and the work of the pupils, in all their studies, will be placed on exhibition in the brick building. This exhibit is to the public, the most interesting part of the school entertainment. In it they see the work of the schools as it is actually done. The patrons of the school should take advantage of the opportunity to make an examination of the work of the schools.

A Spouting Well.

On the old Woods property, one mile west of Spring Mills an interesting phenomenon was caused by the late rains, in the shape of a veritable geyser. Here there is an old style well about six feet in diameter and 54 feet in depth. As the earth's internal reservoirs became full and surcharged with water from the late tremendous rains this well became a spouting geyser from the pressure of the source that feeds the well and from Saturday night to Monday 21 a stream 6 feet in diameter was thrown up to a height of four feet, and into Sinking creek, 8 or 10 rods distant, went this tremendous volume of water. The flow indicated two sources of supply, there was clear and muddy water, side by side. A few rods away were two geysers each with a flow of some 8 inches and to the height of a few feet.—Reporter.

Sufficient Ammunition.

Should Governor Pattison call out the National Guard to preserve the peace in the coke regions in Western Pennsylvania, which does not seem probable, no transfer of ammunition from the state arsenal would be necessary as each company in the guard has a reserve of 1,000 rounds and has been furnished with the same number for rifle practice. Colonel O'Neill, superintendent of the arsenal, has the other paraphernalia necessary in case of a call for troops in such a shape as to be able to deliver it to the railroad within ten hours.

His Opinion of Coxe and Galvin.

A prominent coke man is authority for a new joke on "Col." Galvin vs. a news boy. While going to Derry from Latrobe Galvin was requested to buy the paper from the boy who, although he did not know Galvin, sang out "all about Coxe and Galvin." The "Col." asked the news boy what he thought of Coxe and Galvin, to which the vendor of journals replied: "I think they are both fools." Galvin bought the paper.

Shot an Eagle.

Last week an eagle was shot near the nail works by Wm. Gordon that measured almost 7 feet from tip to tip. It was a brown bird. These birds are seldom seen in this section.

See Shaeffer's advertisement in another column—it will pay you to cut the coupon out.

FLOOD NOTES.

The board walks along water street have been replaced by the borough authorities.

The streets of our town never were cleaner than at present. All the dirt and accumulations have been washed away and carried down stream.

Most of the lumber carried away for P. B. Crider & Son is scattered through this place and Milesburg. Large heaps are lodged in the meadow below the nail works.

The switch leading across to Morris' lime kilns is being replaced. An engine and machinery for driving piles in the stream is at work now. Most of the timbers of the old bridge were saved as it was washed out on the bank.

The streams are slowly sinking to their normal condition. The earth is pretty well saturated and many springs have made their appearance at places never heretofore known.

The roads are badly damaged. Hills are stony and rough while along many low places mud and small stones have been washed in. The turnpike to Centre Hall, through the mountains, was badly used up. Two bridges and the abutments were washed away as well as the road bed at a number of places. It was only until the latter part of the week that it was passable for vehicles.

Several turnpike bridges between Millheim and Coburn were taken away and it was difficult for people to get to the Coburn railroad station. Several dams broke along Elk creek and that caused much of the damage. While there was very high water at Millheim and Coburn the damage done is no comparison to the flood of 1889.

The Central Railroad of Penna. suffered more damage from the flood than any other road in the county. Fishing creek was on a rampage and eat away several long stretches of the roadbed on this side of Mill Hill.

Taken all together the greatest damage done was to the corn fields where the loose earth was carried away by the surface waters, almost every corn field was badly damaged. In some instances all the soil was carried away leaving only a stone patch.

RECENT DEATHS.

HIRAM WOODS.

Mr. Hiram Woods, of Boggs township, died on Saturday last, the funeral occurring on Monday. Deceased was a member of Central Messiah church.

Mrs. Jonathan Riggelman, of Martha Furnace, died on Wednesday, May 23d. The deceased was 53 years, 5 months and 10 days old. She leaves a husband, two sons and two daughters to mourn her departure. Seventeen years ago she had a severe attack of inflammatory rheumatism from which she never fully recovered. She had not been able to walk since 1877.

ISAAC GINGHER.

Mr. Isaac Gingher died at his home in Milesburg on Saturday last, the cause of his death being heart trouble. Deceased was aged about 75 years and leaves a wife, seven sons and three daughters all of whom are married. The funeral occurred Tuesday morning.

On Tuesday morning Mr. John Moore died at his residence at Lemont Pa., from the effect of a paralytic stroke that affected him on Saturday. His age was 63 years 11 months and 24 days. A wife and seven children all grown survive him. The interment occurs on Thursday afternoon at the Branch cemetery.

Mrs. J. D. McKee of Bellefonte is a daughter of the deceased.

MRS. JAMES S. BRISBIN.

Mrs. James S. Brisbin, widow of the late General Brisbin, died at Minneapolis, Minn., Saturday 19th, and was buried Tuesday. Her death is peculiarly sad as it leaves the General's young children, by his first wife, alone and homeless.

JAMES MCCLINTICK.

On Saturday, 19th, an old and respected resident of Potter twp., Mr. James McClintick, died at his home near Centre Hill, after an illness of several months. He was a native of Potter township and always resided in it, being attached to his home and occupation he seldom went abroad. Interment was made in the cemetery at Spruce town.

THOMAS JACKSON.

At five o'clock Friday morning Mr. Thomas Jackson died at his residence on Allegheny street, after a lingering illness of several weeks duration. Mr. Jackson was a tailor and expert cutter by trade and was well known in Bellefonte. He was aged about 67 years. There is left to mourn his death a wife and three children. Interment occurred on Sunday. Mr. Jackson was an intelligent and well informed man. He came here years ago from Philadelphia.

Fire at Tyrone.

An early morning fire occurred on Tenth street, at Tyrone, Monday morning. The building was owned by Samuel Berlin and occupied by G. W. Port, furniture dealer, and Mrs. Miller, as a restaurant. The latter was burned entirely out and the furniture store very much damaged.

DEMOCRATIC PRIMARIES.

TO BE HELD ON SATURDAY JUNE 9TH.

List of Election Officers Appointed—County Convention, June 12th—Democrats take notice and turn out.

The regular Democratic Primary Elections in Centre county will be held on Saturday, June 9th, between the hours of 3 and 7 p. m. The chairman of each election district, with two assistants selected by him, will hold the primaries. It will be the duty of these district chairmen to arrange for places of holding the primaries which, in most cases, will be held at places where regular elections are held. When this can not be done due notice should be given to the democrats of a district where the primaries will be held.

The county convention meets in the court house, at Bellefonte, on Tuesday June 12th, at 12 o'clock.

It is desired that there be a full turn out at delegate elections so that there may be a full expression from the party in the formation of the ticket.

Badly Scared.

On Monday Sheriff Condo received a letter from Blair Bros., Tyrone, who have several large coal operations in the vicinity of Retort, this county, stating that violence had been used towards their employees by strikers and that they would call upon the sheriff for protection of their property. This caused some comment about town. Later a report was sent out that one hundred men would be deputized to go to Retort. Nearly every fellow in town who had been looking for work, and avoiding a job, disappeared from the streets. The professional loafers became alarmed at the prospect of being taken to the coal regions to fight strikers and be brought home peppered full of holes like a sieve. Cunningham's cigar store was deserted the entire day. The favorite haunts about the court house offices were abandoned. Nobody wanted to join Condo's army.

Valuable Property.

The attention of our readers is called to an advertisement to be found in another column for the sale of property of John M. Wagner, deceased, late of Milesburg boro. It includes the well known Wagner steam flouring mill at that place, which is well equipped throughout with Stevens Improved Rolls and all the latest improved machinery for manufacturing the highest grades of flour and feed. This is a valuable and desirable plant.

Several large tracts of farm land and other property will be sold at the same time. Persons having capital should not miss this opportunity to make a good investment. For further particulars call on John M. Keichline, Esq., Bellefonte, Pa., who is administrator of the estate.

Out of Fuel.

The Bellefonte water works is having a hard time securing fuel to fire the boilers. Their supply of soft coal was exhausted last week and since then they have been burning a little bit of everything. Coke can be had but there is no flame about it and burns steady. An arrangement has been made for using a spray of oil. The water committee have purchased a car load of oak wood which will help them along for some time. This manner of firing is quite difficult and has proven a great annoyance, but it is the best that can be done.

Paved Streets.

Phillipsburg borough authorities will receive bids for paving Front street with vitrified brick. The contract will be awarded June 8th, 1894. They will have the street, for a distance of 1,800 feet improved in this manner. Specifications of the work can be had by addressing J. A. Hatch, Phillipsburg.

Change of Time.

On and after Monday May 28th, 1894, there will be important changes in the time of trains on the Bellefonte Central R. R. The train now leaving Bellefonte at 4:40 p. m. will leave at 5:15 p. m., train connecting with 5:12 train from Lock Haven, returning will leave State College at 6 p. m. arriving at Bellefonte 6:50 p. m.

Deputy Appointed.

Harry J. McAteer, of Alexandria, Huntingdon county, has been appointed first deputy surveyor of the Port of Philadelphia by Surveyor P. Gray Meek. He will succeed Jas. J. Franklin, republican. The salary attached is \$2500.

MARRIAGE LICENSES.

MARRIED—Thursday evening 24th at the home of the Misses Weaver, on Howard street, this place, Mr. Thomas Morgan, of Atlantic City, N. J., and Miss Nell Highlands, of Buffalo Run, this county. Rev. Dr. William Laurin officiated. They will reside at Atlantic city.

Robbery at Zion.

On Sunday night at about midnight burglars gained an entrance to Noll's general store, at Zion, Pa. Chisels and other tools that were taken from Shaffer's blacksmith shop were used to pry open the front doors. When Mr. Noll went to his place of business Monday he found the door open and articles lying about the room indicating that burglars had paid him a visit. As far as he can ascertain about \$25 worth of goods were taken, consisting of shoes, dry good and groceries. Over five dollars in cash was taken from the money drawer. The post office department was not in any way tampered with. A slip of paper on which several combinations were written was found lying by the safe, which they evidently were trying to open in a respectable way.

Andrew Dunkle and Irvin Wise, who were stung up that night by the bedside of Mr. David Sharer, who lives across the street, heard a noise and went out. They saw the store door standing open and a light inside. Supposing that it was Mr. Noll who had just come home from a late trip, paid no more attention to the matter. This likely alarmed the intruders and was the reason so little was taken.
