

Muscular Rheumatism

Sciatica and the Piles Adds to the Sufferer's Misery
Four Bottles of Hood's Sarsaparilla Effects a Wonderful Cure.

Mr. James E. Bond, Philadelphia, Pa.
"Gentlemen: As a result of the memorable blizzard of March, 1888, I contracted muscular rheumatism; at that time I was engaged on a job of steamfitting in Plainfield, N. J., and it was necessary for me to wade through the snow to the building, a new residence, in which we were working. For eighteen months afterwards I was laid up with muscular rheumatism and sciatica. I then joined my son-in-law in Denver, Col., where I was engaged in steamfitting and engineering, and where I commenced to take Hood's Sarsaparilla for my rheumatism. It cured me not only of the rheumatism and sciatica, but also of outward piles, from which for thirty-three years I had suffered.

Hood's Sarsaparilla Cures
only trace of rheumatism which I feel now is a little stiffness when the weather changes, and as I will be 76 years old in August that is but incidental to my age. This is a simple statement of facts. JAMES E. BOND, 22 West Morris Street, Philadelphia, Pa.

Hood's Pills cure liver ills, constipation, biliousness, jaundice, sick headache, indigestion.

Going to Buy a Watch?

If so, buy one that cannot be stolen. The only thief-proof watches are those with

Non-pull-out
BOWS.
Here's the idea: The bow has a groove on each end. A collar runs down inside the pendulum (stem) and fits into the groove, firmly locking the bow to the pendant, so that it cannot be pulled or twisted off.

To be sure of getting a Non-pull-out, see that the case is stamped with this trade mark. It cannot be had with any other kind.

MINERS RESUMING.

The Men in Central Pennsylvania, However, Are Still Out.

EMPLOYEES REFUSE TO COMPROMISE

Some of the Strikers in Other Sections Still Remain Out, but All Will Soon be at Work—Riotous Miners Near Punxsutawney—Ohio Miners Weakening.

PUNXSUTAWNEY, Pa., June 20.—Quietness reigns around Horatio, and the new miners mined twenty carloads yesterday. The guards are doing duty as usual, but there is nothing for them to do but stand at their posts. The Italians and Hungarians at Walston's mines, however, are in a fighting mood. Since firing upon a work train on the Buffalo, Rochester and Pittsburgh road on Monday they have come to town and purchased a lot of firearms. Last night about 200 patrolled the railroad running into Walston on the lookout for trains.

Yesterday two men, an Italian and a Hungarian, were seen in Walston by their fellow countrymen, and it was but a minute until a mob was after them, using clubs and stones, and some of them using revolvers. The men were beaten, and one of them explained matters so that he was allowed to go home, but the other was taken by the mob and secreted in one of the houses. It is supposed that these two men are blamed for being spies.

The English speaking men are in great fear of an outbreak any moment, and some are leaving Walston. The postmaster came to this place yesterday in search of a house. He says Walston is not a safe place to be in; that the foreigners have thrown up embankments, dug trenches and are preparing in every way to strengthen their defenses, and to prepare for battle should the company attempt to start the mines with new men.

ALTOONA, Pa., June 20.—Richard Hughes, coal operator, who was one of the first to accept the compromise rate, received the following telegram from District President Bradley, dated Dubois, Pa.: "Please notify operators that I had to rescind the order for resumption of work. Convention at Altoona, June 25, will decide definitely." The miners did not go to work, being kept out by President Bradley's orders. When asked what the result of this new move would be, Mr. Hughes said: "They can go their own way now. We will have nothing further to do with them. There will be no convention for us. We will get men wherever we can and pay no attention to the union whatever."

PHILADELPHIA, Pa., June 19.—There has been no time since the suspension of mining in the Beach Creek and Clearfield coal regions when the miners and operators were as far apart or when the outlook for settlement was less promising than it is at present. Representatives of the miners from the Hontela region were holding a conference yesterday afternoon, when a dispatch was read to them notifying them of the result of the operators' conference in Philadelphia, at which the operators decided not to pay the compromise rate of forty cents a ton for mining. The miners adopted resolutions declaring that the strike will be continued until the men or the operators are defeated.

MOUNT PLEASANT, Pa., June 20.—The Sewickley district was the scene of considerable excitement yesterday, caused by the Frick company making preparations to start its Mammoth plant. No sooner were men put to work to lay a water line in the yards than the striking Slavs swooped down and drove the foremen and workers like chaff before the wind. The tables, however, were turned when Sheriff Mann appeared on the scene at the head of forty more guards. The foreigners broke and fled in every direction, hotly pursued by the deputies, who caught six of the mob's leaders. The only man injured was a Slav, who was shot in the leg.

COLUMBUS, O., June 20.—Yesterday's sessions of the miners' convention were devoted wholly to talk. After District President Adams and Secretary Pearce had explained the objects of the convention National President McBride made an explanation. He said Adams was an unsafe leader, and the miners of Ohio would realize it fully in three months. Adams followed with a very heated and personal reply. It was openly charged in the convention that the national officers had sold out to the operators. The convention adjourned without action, but the delegates are in favor of returning to work, and they will doubtless so decide at today's session.

HUNTINGDON, Pa., June 19.—An agreement was reached yesterday between the operators and miners of the Huntingdon and Broad Top districts, the operators having decided to pay their men forty cents per net ton, the compromise rate. This agreement includes all the mines in the Broad Top region, except that of the Crescent Coal company, on Sandy Run, the managers of which refused to enter into any agreement, insisting upon forty cents per gross ton, as formerly paid. The men resumed work this morning. The miners of the Altoona district also resumed.

LOANOCONING, Md., June 19.—Two hundred miners returned to work in the Elk Garden region yesterday at forty cents per ton, and 244 are at work in the Consolidation Coal company's mines at Frostburg. Michael Dooley, the miner who went to work every day last week, with his son, attempted to do so yesterday without protection. He was set upon by a number of women, who took away his dinner pail, smashed it and drove him home.

BRAZIL, Ind., June 19.—The miners of this city met yesterday to decide whether they would return to work in a body or stand the decision of the state convention. As other points of the county was not represented it was decided to hold a mass meeting tomorrow, when a final settlement will be reached.

GIBBONTS, Pa., June 19.—The fourth pit miners have in all cases refused to return to work, and but one mine is known to be running, the Popcorn, owned by the Cleveland Coal company. In the third pool there was a general resumption.

MR WIMAN'S DISGRACE

The Jury Promptly Finds Him Guilty of Forgery.

New York, June 16.—Erastus Wiman, who for years has been prominently before the public both in the United States and Canada as a promoter of mammoth enterprises, a lecturer and a writer, was last evening found guilty by a jury of his peers of the crime of forgery. Despite the eloquent efforts of his counsel, ex-Sec-

tary of the Navy Tracy, the evidence of his guilt was, in the opinion of the jury, too convincing to admit of an acquittal, though they lightened their verdict by a recommendation to mercy. The jury were out less than two hours.

Mr. Boardman asked for a stay of sentence. Judge Ingraham readily granted the request and named Wednesday next at 10 o'clock as the time for sentence unless Wiman's counsel shall secure further stay.

CRASHED INTO AN ICEBERG

The Schooner Rose Went Down and Twelve Lives Were Lost.

ST. JOHN'S, N. F., June 20.—The schooner Rose, bound from Labrador for Conception Bay, collided with an iceberg on Monday and went down almost immediately, carrying twelve persons with her. The disaster occurred off Partridge point. At the time of the collision there was a thick fog, and it was impossible for the lookout to see a ship's length ahead.

The Rose had a crew of fifty-five persons, who were bound to Conception Bay to carry on the cod fishing industry. The forty-three survivors jumped aboard the berg as soon as the collision took place, and remained there for several hours, suffering terribly.

They had almost abandoned hope another fishing craft, which was bound in the same direction, hove in sight, and after considerable trouble they were taken safely aboard and landed. The government has dispatched a steamer to take them to their destination. The survivors of the ill fated craft are entirely destitute, and an appeal in their behalf for charity has been made.

Nearly all the drowned were relatives of each other, and in two instances whole families were lost, while the others that found a watery grave were the bread winners, upon whom large families depended for their support.

Waikaiti May Escape the Noose.
TRENTON, June 20.—Governor Werts yesterday afternoon relieved for a month Joseph Waikaiti, the convict who was to have been hanged on Friday next for the murder of State Prison Keeper Lippinott. The governor is not satisfied with the verdict of the jury in this case because the bullets which came from the revolvers of the dead man and the prisoner were not produced at the trial. This will aid counsel for the prisoner in an effort to have the Pennsylvania authorities exonerate the keeper's body. If this should fail Waikaiti's sentence will be commuted to imprisonment for life.

The Black Death in China.
SAN FRANCISCO, June 19.—The steamer Belgic arrived yesterday from Hong Kong and Yokohama. Hong Kong advices under date of May 24 state that during the week ending May 24 there were 500 new cases of the plague and 400 deaths, the mortality showing very clearly the deadly nature of the disease. So far no Europeans have been attacked. The fact that the plague had broken out in Hong Kong was deliberately concealed by the authorities in order to prevent a scare.

Farmer Killed in Iowa.
FORT DODGE, Ia., June 20.—A cyclone passed over this city last evening and partially destroyed the stations of Moorland and Callender, on the Rock Island railroad, eight miles west of here. A farmer named Goddard, living between these towns, was instantly killed. Several are reported injured, and physicians from this city have gone to the scene. Thousands of dollars worth of property is reported destroyed. Details are hard to obtain, as the wires are down.

No Duty on Raw Wool.
WASHINGTON, June 16.—Although the senate made no actual progress on the woolen schedule yesterday a series of amendments looking to the restoration of a duty on raw wool were voted upon, but all of them suffered defeat by majorities ranging from two to eight. Today the woolen schedule was passed with little friction. It is believed the full tariff bill will pass the senate this week.

Miss Pollard Still in Washington.
WASHINGTON, June 20.—Dispatches from the west that Miss Madeline Pollard is traveling on the great lakes are incorrect. Miss Pollard has been living here in retirement since the close of her breach of promise suit, and has not left the city. When she goes upon the street it is invariably in the company of Mrs. Ellis, the sister of the Episcopalian order who was her constant attendant during the trial.

Man Into an Iceberg.
GLASGOW, June 18.—The Anchor line steamer Eklonia, from New York June 4, reported as having been damaged in collision with an iceberg, has arrived here. She has a large hole in her bow. The accident occurred on the afternoon of June 6 during a heavy fog. The steamer struck the berg with great force, and it was at first thought the vessel would founder.

Decided Against Father Corbett.
NEBRASKA CITY, Neb., June 20.—The temporary injunction in the Bonacum-Corbett case was yesterday made permanent. The court finds upon the evidence that the defendant wrongfully usurps the rights of parish priest in the mission of Palmyra.
