BRIGHTER OUTLOOK.

Prospects for an Agreement on the Tariff Much Improved.

AMICABLE ADJUSTMENT PROBABLE

One of the House Conferees Expresses the Belief That a Full Agreement Will be Perfected This Week-The House Conforces Jobliant.

WASHINGTON, Aug. 1.—The prospects of an agreement on the tariff are much improved. For the first time in many days the house Democratic conferees came from the meeting with the statement that previous irreconcilable differences were in process of amicable adjustment. With much satisfaction the house members stated to their associates that the senators had shown a disposition for the first time to meet the house half way. As to when a full agreement would be perfected there was some difference of opinion. One house conferee said it would probably be this week. Another thought it would be

Chairman Wilson would not even admit that the understanding had gone far enough to warrant the prediction of a speedy report. He said, however, that the conferees had at least done business and made progress, which was more than could have been said of past meetings. The senate conferees come from the meeting without showing the hopefulness of the house members. They said the conference was as far from an agreement as it had been. While there was this conflict among those thoroughly informed of the inside workings of the conference, the general belief prevailed that the hopefulness of the house conferees had some substantial foundation.

One of the conferees said that while no final agreement had been made on iron, coal and sugar, yet sufficient had been developed in conference to show that an agreement could be reached on these three most important items which would be acceptable to the senate and house conferees and to the house of representatives. Whether it would be acceptable to the full senate this conferee expressed some doubt. In this connection it developed that Senator Caffery, of Louisiana, who has been most active on the sugar ques-tion, had a long and, it is said, satisfac-tory conference on Monday with Speaker Crisp and Chairman Wilson.

While the house conferees were so pleased at the bright outlook, their senatorial colleagues contented themselves with saying that while they were hopeful of reaching an understanding nothing had transpired in conference to base this hope upon. They declare that on the essential items of disagreement the con-

ferees are as far apart as they ever were.

An increased hopefulness that a bill will be agreed upon is noticeable, however, upon the part of Democratic senators who are not members of the conference. One of the leading conservative senators said as he was leaving the senate chamber last night that the tariff bill would be finally agreed upon by next Monday, and he added that the bili would be virtually the senate bill.

The day developed the possibility of a report of partial agreement, and while this report at first appeared as a vague rumor, its probability was afterwards confirmed by senators not members of the conference committee. The fact that the conferees had the schedules other

confirmation of the report.

Fatal Accident to a Royalist. VIENNA, July 30 .- Archduke William III, son of the late Archduke Charles, and a second cousin of Emperor Francis Joseph, met with an accident yesterday that resulted in his death. He was riding at Weikersdorf, near Baden, when his horse shied, being frightened by a passing electric car. The archduke was thrown out of the saddle, and in falling his head struck a stone. One of his feet became entangled in a stirrup, and, the horse running, he was dragged some distance before the animal was stopped. The archduke, who was unconscious when picked up, died shortly afterward.

A Farmer's Ghastly Find.

LIMA, O., Aug. 1 .- A horrible find has just been made by a farmer about four miles south of the city along the Ohio Southern road. The dry grass was ignited by sparks from a passing train, and the flames continued to a large pile of underbrush, where they were checked after a hard fight. Concealed beneath the rubbish was a wash boiler, and while lifting it the bottom fell out, revealing the remains of two infants. The flesh in places was burned from the bones, and to judge from their size the babes were twins.

Terrible Destitution in Turkey. CONSTANTINOPLE, Aug. 1 .- Fearing epidemics if the people are any longer allowed to remain huddled in the gardens where they sought refuge at the time of the earthquakes, the government is com-pelling the terrified people to return to their homes. The feeling of panic con-tinues, and slight earthquake shocks are experienced daily. The city of Constan tinople, the Prince's islands and half of

EXPLOSION OF RUDDITE

Three Men Killed and Two Others Receive Fatal Injuries.

CHICAGO, Aug. I.—By an explosion at the Hawthorne stone works of Doelse & Shepard three workmen were killed, two fatally injured and several others wounded. The explosion was terrific, completely wrecking the boiler house, engine rooms and machinery of the plant and breaking windows for a quarter of a mile around. The accident occurred during a test of new stone crushing machinery.

The explosion is supposed to have been caused by a spark alighting in the dynamite magazine. The magazine was 1,500 feet away from the station of the belt line railroad, but the force was so great as to badly wreck the station, seriously injuring the railroad agent, H. M. Hall. A train standing on the track was badly smashed, the engineer being injured and one car completely demolished.

The dead are: Frank Corbin, stone cutter; Scott Clark, laborer; Richard Clark, son of Scott Clark. Charles H. Rudd, a well known electrician, was frightfully mangled, and will die, and an unknown man was fatally burt. James Henry, a laborer, was blown fifty feet, but not se riously hurt. All of the dead and wounded were employes of the Western Electric

For two years past Mr. Rudd has been experimenting with an explosive of his own invention, which he calls ruddite, in a shanty which stood on the edge of Doelse & Shepard's stone quarry. The explo-sive is very powerful and effective in quarrying, but Mr. Rudd thought he could improve it by slightly changing the proportions between the various ingredients. The shanty was full of cartridges made from old locomotive flues, about ten feet long and three inches in diameter.

FIVE DARING ROBBERS

One Fatally Wounded After a Citizen Had Been Murdered.

GUTHRIE, O. T., Aug. 1 .- An attempted bank robbery was made yesterday. As a result one citizen, J. M. Mitchell, is dead and Outlaw Ernest Lucas is dying. Lucas said his comrades were members of the notorious Cook gang.

Early in the morning five armed men rode into Chandler and dismounted back of the Lincoln County bank, and three rushed inside, while two stood guard at the doors with Winchesters. Two men covered the president, Harvey Lee, and his brother, the cashier, and demanded that they turn over the cash, while the third rushed into the private office, where Teller Hoyt was seriously sick, and compelled him to walk to the safe and attempt to open it. The men on guard called out that it was time to go, and the three men grabbed between \$200 and \$300 lying on the counter and ran out to the horses.

In the meantime the guard at the door had shot and killed J. M. Mitchell, a barber, who attempted to give the alarm. The bandits had scarcely passed out of the city when a posse started in pursuit. A battle was fought for nearly fifteen minutes, when one of the robbers was shot through the hip and the others scattered and disappeared in the hills of the Creek country. The wounded robber gave his name as Ernest Lucas, aged 21.

Alarming Spread of the Cholera.

WASHINGTON, Aug. 1.-The marine hospital bureau received a report on the Fairfax Irwin. He writes: "The disease has progressed materially since my last report, especially in St. Petersburg, where than those relating to sugar, coal and it has assumed alarming proportions. A Missing Cask of Gold.

NEW YORK, Aug. 1.-Last evening Lazard Freres received a cable dispatch from Lazard Freres & Cie, of Paris, confirming the report announcing that a cask containing \$50,000 in gold was missing from the consignment of forty casks shipped on the French line steamer La Touraine. The forty casks were taken from the steamer at Havre and placed on the train for Paris, but when the consignment reached Lazard Freres & Cie one cask was missing. The shipment was fully insured, and that the loss, therefore, will fall on the insurance company.

Three Brothers Asphyxiated.

HARTFORD, Conn., July 30.—Raymond, aged 9; Leroy, 7, and Freddie, 4, the children of James W. Canion, a locomotive engineer on the New York, New Haven and Hartford railroad, who had been missing since Thursday afternoon when they want to bathe in the Connecticut river, were found dead yesterday in the closet of a freight caboose standing on a side track near the round house, not 300 feet from their home. It is supposed they closed the door and could not open it, and soon suffocated in the stifling hot air of the narrow enclosure.

Political Amenities in South Carolina-CHARLESTON, Aug. 1 .- After the campaign meeting at Union yesterday, where an atempt was made to howl down Senator Butler, the senator met Governor Tillman on the train, and a wordy war was indulged in, during which the lie and requests railroads, labor organizations and citizens having a patriotic inthat he would meet the governor in a duel. PHILLIPS' VISITATION.

Relief for the People Burned Out by Forest Fire.

FIFTEEN LIVES PROBABLY LOST.

List of the Dead So Far Recovered Who Were Sacrifleed While Trying to Escape the Flames-Wisconsin Will Care for Her Stricken Citizens.

PHILLIPS, Wis., July 30.-The terrible scene at Phillips beggars all description Not since the terrible forest fires destroyed Peshtigo has anything occurred which will compare with the scene of ruin here. A committee of citizens from Ashland arrived with a special train of provisions Saturday night at 9 o'clock. It was the first material relief to arrive and it reached here just in time to keep the people from actual suffering for want of food. The provisions were given out in small quantities, so as to make them last as long as possible and keep something available un til other provisions arrived. Men and women walk the streets, all begrimed, wringing their hands and bemoaning their

One church, a town hall and a few small buildings are all that are left standing. They were immediately converted into shelter for the destitute, but only a few of the women and children could crowd into them. A vast multitude had to go without shelter and food Saturday night, but tents were brought in from neighboring towns, and improvised huts were utlized last night. Governor Peck and his staff arrived from Madison yesterday. Governor Peck brought a large quantity of sheeting with him, which is being con-verted into tents. A dozen cars of provisions have arrived from various cities, and the organization for relief has been

Relief trains fairly poured into Phillips yesterday and there are supplies of food here now sufficient to last the fire sufferers a month. The relief committee asks especially for clothing and money, and these will be amply provided by the peo ple of the state without outside help. Men are at work building a large mess tent, where the homeless people will be fed, and putting up temporary structures

where they can sleep.

The sale of liquor has been stopped, owing to the arrival of parties of tramps and rough characters, who threatened trouble. A box car has been turned into a jail, special deputies sworn in and all lawlessness will be suppressed.

Great crowds of residents who were chased out of their city by flames on Friday are returning to look over the ruins. Already lumber is being shipped in, and building operations have already begun.
Two more bodies have been recovered

from the river where the terrible holo caust occurred. The boat house on which the desperate men, women and children took refuge was shoved from the shore. Before it had gone far the suction of the flames drew it right up into a regular furnace of fire. The boats were either overturned or the people jumped. It is now estimated that fifteen lives were lost at this place. It is supposed that the bodies of several children are buried under the ruins of the wagon and foot bridge, which European cholera epidemic from its it is claimed gave way while they were special officer stationed at Berlin, Surgeon trying to escape from the flames to the trying to escape from the flames to the peninsula which runs out into the lake.

On the whole the outlook is rather alarming, far more so indeed than at this Mrs. James Locke and two children.

> Terrible Crime of Colored Boys. TERRELL, Tex., Aug. 1 .- On the W. C. McCord Ifarm, six miles southeast of this city, a most sensational and peculiar crime has been committed. Peter Gibson and Murrow Jackson, both colored, live on the farm. Two of Gibson's children, 9 and 11 years old, and Jackson's 6year-old son were playing together near a tank. With an awl the two larger boys gouged one of the little boy's eyes out, afterwards throwing him into the tank to prevent him from going home and telling on them. They then dragged him up the bank again and held him under the water until he was drowned. The boys confessed.

Walter Wellman Safe,

LONDON, July 28 .- Carl Siewers, the Norwegian Arctic enthusiast, last night received a telegram from the captain of the Erling, a Norwegian sealer, which arrived yesterday at the Island of Tromsoe, Finmark, Norway. The captain of the sealer said in his dispatch that near Amsterdam Island, in lat. 65 and long. 0, the Erling spoke the Ragnvald Jarl, the steamer which was conveying the Wellman, or American arctic expedition to the edge of the pack ice. All are well on board the Ragnvald Jarl and full of hope.
