TWENTY-FOUR KILLED.

Fearful Railroad Wreck Near Lincoln, Neb.

PLUNGED FORTY FEET TO DEATH.

Cars Take Fire and Add to the Horror of the Scene—Undoubted Evidence That the Terrible Catastrophe Was the Work of Train Wreckers.

LINCOLN, Neb., Aug. 11.—A wreck, involving the loss of twenty-four lives, occurred on the Chicago, Rock Island and Pacific railroad where it crosses on a high trestle the tracks of the Union Pacific and Burlington and Missouri River railroads Thursday night. All the indications point to train wreckers as the cause. Train No. 8 is an accommodation called "Forth Worth Accommodation." It was about ten minutes late, and was making it up when it struck the trestle that crosses Salt Creek, about four miles from the city. When it struck the trestle the engine immediately sprang, and the engine, drawing the two cars after, went bumping along over the cross ties for about fifty feet, and then, with a crash, fell forty feet to the bed of the creek below.

The engine burst, and glowing coal spreading ignited the wooden supports and coaches behind it, and in a few moments the bridge, dry as tinder from its long exposure to the sun, was one mass of flames. The coal falling upon the coaches, lying in the ditches set them afire, and five minutes after the first warning the entire mass of cars, with their load of human freight below, was a mass of flames.

The flames mounted high in the heavens, coloring the entire southern sky a brilliant red, and from below shrieks of agony and pain were heard to issue. Willing hands were there to help, but little could be done. The engine had fallen first, then the combination car of smoker and express coach fell, partially upon that, and the rear coach, falling behind it, telescoped that car, thus pinning those unfortunates who were in the smoker, so that it was impossible to save them or for them to escape.

It was nearly dark last evening before the frightful mass of debris occupying the ravine where the wrecking, was cracked had cooled sufficiently to enable the big crowd gathered at the place to inspect the charred mass in detail. Occasionally a charred skull or a partially burned human bone was raked from the bed of the furnace, but nothing that would lead to identification was found.

The list of killed and injured as furnished by the coroner swells the fatalities to twenty-four, while several received injuries of a more or less serious nature. The marks of a crowbar on the cross ties were to be seen. The wooden ties were deeply dented where the crowbar had been inserted, and the rails lifted clear off the ties, and the spikes which had been pulled out were lying around loose on the bridge.

The police have arrested a colored man named George Davis, who is suspected to be connected with the wrecking. The police say they have evidence sufficient to convict. His motive is not known.

The Professional Football League.

NEW YORK, Aug. 13.—At the Fifth Avenue hotel last evening the National Football league was organized, under the name of the American League of Professional Football Players. The league was organized by the election of A. A. Irwin, of Philadelphia, as president, and George St. Louis, of New York, as secretary. E. B. Talbot of New York, C. H. Byrnes of Brooklyn and President Irwin were elected as a board of directors. The season will open on Oct. 1 and continue until July 1, 1895, inclusive. Each team will play five games in the different cities in the league. During the season the professional football club of Sunderland, England, will visit this country.

Anarchists Surprised at Work.

ROME, Aug. 13.—The police raided an anarchist haunts yesterday and secured seven persons who were engaged in the manufacture of infernal machines similar to those recently exploded at the parliament buildings. The Italia asserts that the prisoners were connected with a plot to blow up the residence of Prime Minister Crispi, in order to avenge the sentences imposed on the murderer of President Carnot and on Paolo Lega, who attempted to murder Signor Crispi. The prisoners include Giganti, the man who was chosen to carry out the plot.

The Salvation Army's New Home.

NEW YORK, Aug. 13.—With appropriate ceremonies and the firing of many "volleys," the Salvation Army last evening laid the corner stone of the Mrs. General Booth memorial building, which is to be erected in Fourteenth street, near Sixth avenue. Commander Ballington Booth, son of General Booth and chief of the army in the United States, laid the main corner stone with a silver trowel presented by the officers of the Salvation Army.

Coxey to the Rescue.

BALTIMORE, Aug. 13.—Jeffries' command of seventeen men were arrested yesterday at Galtersburg by Baltimore and Ohio detectives, and sent to the house of correction. This makes a total of 127 Commonwealths at the "cut." General Coxey was at the house of correction last evening, examining the commitments. He employed counsel to secure the release of his soldiers.

Alabama Strikers Weaken.

BIRMINGHAM, Ala., Aug. 13.—The Tennessee Coal and Iron Railroad company announces that their miners, who have been on strike for four months, have agreed to go back to work on the company's terms, which means 87 1/2 cents per ton for mining coal. This gives 9,000 men employment in this district in addition to those already at work.

Cheap Rates to Europe.

NEW YORK, Aug. 13.—Notwithstanding all reports to the contrary, steamer tickets for Southampton, Queenstown or Liverpool can be purchased for 110. The American line is making the rate, and is doing a rushing business. British lines are still holding to the 115 rate and allege that they have all the business they can handle.

Cholera's Spread in Germany.

BERLIN, Aug. 13.—The march of cholera is proceeding slowly but surely into eastern Germany. Many suspicious cases which have appeared in the vicinity of Johannesburg, East Prussia, and which were ascribed to the eating of unsound fish, have proved to be Asiatic cholera.

THE WAR IN THE ORIENT.

Great Britain, France and Russia Will Prevent an Attack on Peking.

LONDON, Aug. 12.—The correspondent of the Times at Shanghai telegraphs that 12,000 Japanese troops from Fusa and 8,000 from Yreunens are marching toward Seoul, the capital of Korea.

LONDON, Aug. 14.—The correspondent of the Daily News at Vienna states that Great Britain, France and Russia have agreed jointly to interfere in case the Japanese attempt to attack Peking.

SHANGHAI, Aug. 13.—The Japanese squadron that attacked Wei-Hai-Wei Friday, particulars of which were cabled the Associated Press, consisted of six vessels. It is not definitely known how many of the fleet were men-of-war. The warships drew up in line of battle off the port and opened fire early Friday morning. There were no Chinese warships in the vicinity, and the engagement was entirely between the Japanese men-of-war and the forts. The whereabouts of the Chinese fleet was unknown. The forts, however, were able without much difficulty to repulse the attack. About fifty shots were exchanged, but no material damage was done on either side. The soldiers manning the guns of the fortifications showed a marked lack of ammunition, and the marksman-ship. Most of their shots were ill directed, the shells either falling short of the vessel aimed at or going wide of their marks.

When the fleet withdrew it proceeded to Port Arthur, which place it attacked Friday evening. Little, if any, damage is reported to have been done at this latter place. The operation was regarded as having not been attempted to capture either Wei-Hai-Wei or Port Arthur, but simply rays on the part of the Japanese commander to ascertain the exact position and strength of the Chinese guns at the two places.

YOKOHAMA, Aug. 15.—News has been received of a battle which took place on the 11th inst. between Japanese and Chinese fleets. The Chinese were driven off.

A Lynching in Kentucky.

FRANKFORT, Ky., Aug. 15.—Mrs. Martin Nolan, a white lady, was raped by a negro yesterday. Many citizens armed themselves and joined in the hunt for the miscreant. Marshal Boston was arrested and taken to Mrs. Nolan, who positively identified him. He was then brought to the city under heavy guard, but the doors were battered down by a mob and the prisoner taken out and hanged on the high beam of the iron bridge which spans the Kentucky river, dividing North from South Frankfort. After the lynching his body was riddled with a hundred bullets. Just before he was swung up he confessed to his awful crime. Boston had served a ten years sentence for the same crime.

Plunger Partridge's Flight.

CHICAGO, Aug. 15.—Ed Partridge, the board of trade plunger who was forcibly ejected from the floor of the exchange on Monday for raising a disturbance, was taken by his son to the Washingtonian Home—an institution for the reformation of inebriates. He was violent when locked in a room with barred windows, it requiring four men to get him inside. He managed to free his hands from the leather handcuffs put on him and made a great outcry, declaring that an effort was being made to kill him. When the guards went to his room he came near killing one of them with a chair. Last night he was released on an order from Judge Dunne, but he must have a hearing.

Alleged Anarchists Acquitted.

PARIS, Aug. 13.—The trial of the thirty anarchists before the assize court ended in the acquittal of all but three of the accused. The verdicts were that the charge against the prisoners of belonging to an organized association was not proven. Artiz, Cheriotte and Bertani were found guilty of robbery and of having been in illegal possession of weapons. All the others were declared not guilty of the charges against them and were discharged from custody. Artiz was sentenced to three months' imprisonment at hard labor, Cheriotte to eight years, and Bertani to six months.

Charged Against Strikers.

CHARLESTON, W. Va., Aug. 15.—Dr. Davis, who was killed from ambush near Montgomery last week, is now believed to have been shot by the men who took part in the recent riots of the striking coal miners. His life had been threatened, he was to have gone to court on Monday, it is believed he was killed to prevent his doing so.

ADDED TO SENATORS

The Tariff Bill Again Passed by the National House

WITH BUT A FEW AMENDMENTS.

The Separate Bills Placing Coal, Barbed Wire, Iron Ore and Sugar on the Free List Carried by Good Majorities—Only Eleven Votes Against Free Sugar.

WASHINGTON, Aug. 14.—The long struggle over the tariff bill came to a close at 6 o'clock last evening when the house, by a vote of 182 to 105, decided to discharge the house conferees from further consideration of the bill, recede from its opposition to the 634 senate amendments, and agree to the same. It was a complete victory for the senate. The result grew directly out of the sensational course of events at the senate end of the Capitol, precipitated by Senator Hill on Friday.

Up to that time the house conferees had stood firm against the senate amendments, especially on coal, iron ore and sugar, and the temper and voice of the house was for war—war to the end. But the indications that the Democrats of the senate might be unable to longer hold a majority of the votes in line for even the senate bill, and that the bill was in desperate jeopardy forced the house Democrats to immediate action. The Democratic conferees of the house at that moment that they were beaten and that another vote could not be risked in the senate; that it must be either the senate bill or no bill.

The whole question was precipitated at the caucus held just before the house convened yesterday, at which, after a thorough review of the situation and speeches in favor of receding by Speaker Crisp, Chairman Wilson and others it was decided to take the senate bill and immediately afterwards pass separate bills placing coal, iron ore, sugar and barbed wire on the free list. The program arranged in the caucus was carried out to the letter in the house under an iron clad special order.

The scenes in the chamber throughout the day and evening were exciting, and at times sensational. The galleries were packed and the members applauded the respective leaders to the echo. The principal speeches for and against the main proposition were made by Chairman Wilson and Speaker Crisp on the one hand, and ex-Speaker Reed and Mr. Burrows on the other. Bourke Cockran, of New York, and Mr. Tarsney, of Missouri, both Democratic members of the ways and means committee, delivered scathing and sensational speeches denouncing the surrender of the house as cowardly and indefensible. The speaker replied to Mr. Cockran, whose effort was a brilliant one, with such a temper that the latter took it as a personal affront, although the speaker disclaimed such intention.

The most startling feature of the day, perhaps, was Mr. Cockran's eloquent appeal to Chairman Wilson to name the Democrats in the senate who threatened the defeat of all tariff legislation if the attempt to adjust the differences between the two houses was persisted in, but Mr. Wilson made no response.

When the vote came to be taken, at 6 o'clock, thirteen Democrats voted with the Republicans against the resolution, then put through one after another what the Republicans derided as the poggan bills, placing coal, iron ore, barbed wire and sugar on the free list. The votes on these bills were as follows: For free coal, 180 to 104; free iron ore, 163 to 102; free barbed wire, 187 to 84; free sugar, 274 to 11. WASHINGTON, Aug. 15.—The tariff bill is expected to reach the president some time tomorrow, after which he will have until a week from next Tuesday if he desires in which to consider it before returning it to the senate. It can be stated with almost absolute certainty that the bill will become a law, either by the president's signature or by his retaining it ten days without action, the presumption being largely in favor of the latter alternative. The president has repeatedly assured his friends that he could not sign the bill, but many of his closest personal and political friends have urged him to sign the bill without delay. Several reasons were urged, among them the fact that the opening of fall trade was close at hand and that a delay of ten days might result in serious loss of customs revenue.

What little interest there was in the proceedings of congress yesterday centered in the senate, the house not being in session. The only event of note was the reception of the four special bills passed by the house Monday night, putting coal, iron ore, sugar and barbed wire on the free list. These were laid before the senate and read once, their second reading being objected to. Mr. Hill offered an amendment to each of these bills, providing for the repeal of the income tax.

The Chinese Treaty Ratified.

WASHINGTON, Aug. 14.—When the Chinese treaty, which has been pending in the senate since March 19, was considered in executive session last Friday, it was agreed that a vote on its ratification should be taken yesterday without further debate. The senate accordingly went into executive session to consider the treaty, which was promptly ratified, the secret session lasting only fifteen minutes. The vote by which the treaty was ratified was 47 to 20, the northwestern senators generally voting against the treaty. Senators Lodge and Hear (Mass.) also voted against ratification.

Murdered by His Wife.

HAZLETON, Pa., Aug. 15.—Monday night George Koslick, of Trexkov, arrived home under the influence of drink and began upbraiding his wife, using language which reflected upon her fidelity. They were in a summer house adjoining their dwelling at the time, and the woman, who was highly indignant, walked deliberately into the house, secured a butcher knife and plunged it three times into her husband's body. Koslick died last evening. The woman escaped.
