

SILVERITES AT WORK.

Congressmen Working Up a Plan to Unite the Silver Forces

AGAINST THE SINGLE STANDARD.

They May Issue an Address to Democrats Warning Them Against the Election of Gold Men as Delegates to the Next National Convention of the Party.

WASHINGTON, Feb. 27.—Routine matters on the floor of the house are overshadowed in interest by the initiation of a brisk movement to secure a majority of the Democratic membership in favor of a financial policy having the free coinage of silver for its keynote. For some time there has been a discussion carried on by the free silver leaders of the party over the practicability of a plan to unite their forces and to crystallize their ideas into some sort of a platform or declaration. The net result of these deliberations has been the draft of a declaration addressed "To the Democrats of the United States," and outlining a financial policy for the Democratic party. This paper has been circulated on the Democratic side of the house, and is being vigorously discussed, with the object of obtaining the consensus of opinion of silver Democrats upon its expressions.

The chief instigators of the movement are Messrs. Bland of Missouri, Bryan of Nebraska, Sibley of Pennsylvania and Coffeen of Wyoming. Their paper is at present but a tentative expression, they say, and not yet in form for publication, since none of its details has been definitely agreed upon. In substance it states the financial policy of the party to be for the free coinage of gold and silver on terms of equality, at the ratio of 16 to 1, for the issue of all paper money by the government without the intervention of banks, and opposition to any issue of interest bearing bonds without the authority of a special act of congress.

Attention is called to a movement said to be under way through the efforts of the opponents of free silver in the party to secure the election of gold men as delegates to party conventions, and particularly to the next national convention for the nomination of a single gold standard man for the presidency. Democrats are urged to oppose the movement and to see to it that none but free silver men are elected to positions of influence in the party and to represent them in all conventions.

Secretary Morton was careful about expressing his opinion touching the French decree, but it could be seen that he regarded it as a mere political manifestation, and felt that it would not be continued in force for any considerable length of time, and that the next change in the French cabinet would probably be followed by the revocation of the decree. Notwithstanding this, the belief is growing and deepening here that these decrees are but forerunners of other and more severe restrictions upon American trade, the next blow, perhaps, being likely to fall upon wheat. It is understood here that these are not adopted as retaliatory measures, but are manifestations of the growth of the protective sentiment in continental Europe, and grow out of the necessity the governments are under of conceding something to the great agricultural classes.

Buried by a Snowslide.
GLENWOOD SPRING, Colo., Feb. 27.—After being blockaded by snowslides for thirty-six hours, the first train from Denver over the Denver and Rio Grande road arrived here last evening. Slide after slide came rolling down the mountains, and fifty were counted between Snowmass and this place. Near Spruce Creek a large slide struck four of the section men, two of whom were hurled into the Grande river and were rescued. The other two, T. J. Flynn, foreman of the gang, and Henry Flannigan, were buried in the snow. Flynn was shoveled out alive, after being buried an hour and twenty minutes, while Flannigan was found dead.

Libelers Andrews Released.
PHILADELPHIA, Feb. 28.—William T. Andrews, who has been languishing for two weeks or more in the county jail by reason of his inability to raise the \$1,000 fine imposed by Judge Thayer after his plea of guilty for libelling Filbert, Porter & Co. in writing letters regarding the carrying out of their contract for the construction of Queen Lane reservoir, was released upon the payment of \$500. Judge Thayer, after hearing an appeal from W. W. Whitbank, Andrews' lawyer, and after listening to the piteous tale of Andrews' mother, reduced the fine.

Bandit Garza Shows Up Again.
PORT LIMON, Feb. 27.—Catarina Garza, the famous bandit, who so long operated in the United States, annoying the Mexican authorities on the Rio Grande frontier, has returned here from Colombia, where he went to take part in the revolution. General Acosta, the opposition candidate for the presidency of Colombia, discovered him in some double dealing, and forced him to leave the country. Garza says he is on his way to Guatemala, and that he has offered the country a regiment of Texans to fight against Mexico.

The "Lone Mariner" Will Cross Again.
BALTIMORE, Feb. 27.—Captain Andrews, the "lone mariner" who has four times crossed the Atlantic in little cockleshell boats, ranging from nineteen to fourteen feet in length, has arrived in Baltimore from Norfolk. The object of his visit is to inspect the plans of the aluminum boats recently built here for the Wellman Arctic expedition, and to arrange for a voyage in an aluminum boat from Baltimore to England alone and return, as an advertisement of the Baltimore exposition of 1897.

A Romance of High Life.
WASHINGTON, Feb. 27.—The Times says: The engagement has been announced of Miss Virginia Lowery, of this city, to the Duke of Aros, of Spain, now minister to Mexico. The duke, then untitled, was engaged to Miss Lowery twenty years ago, but the match was broken off by her father, Mr. Archibald Lowery. Both remained single, however, and the duke, having succeeded to the title, recently returned to the United States and successfully renewed his suit.

Accidentally Killed His Sister.
EDENTON, N. C., Feb. 27.—At Knott's Island the 17-year-old daughter of Knolly Waterford was accidentally shot by her younger brother, a lad about 10 years of age. The boy was carelessly handling his father's gun, when it was discharged, the contents entering the girl's breast, killing her instantly.

Accidentally Poisoned Himself.
LEADVILLE, Colo., Feb. 27.—Karl F. Dembino, a prominent assayer and mining man, died from accidental poisoning. While taking lunch in his office he filled a beaker with water, thinking it was clean. It contained four or five drops of cyanide of potassium, and died in an hour.

EUSTIS WILL PROTEST

Against the Decree Excluding Our Cattle from France.

THE REASON ASSIGNED A PRETENSE

The Charge That American Cattle Are Unhealthy Has No Foundation in Fact, and Our Ambassador Will Call for Proof of the Facts Alleged.

WASHINGTON, Feb. 26.—Mr. Eustis, our ambassador to France, will be instructed to enter a prompt and vigorous protest against the French decree, just made, excluding American cattle from France. As the decree is ostensibly based on the existence of pleuro-pneumonia and Texas fever in cattle coming from the United States the ambassador will call for proof of the fact. That will mean long and tedious expert examinations by veterinarians, and much correspondence, which is not expected to be of any more avail than that into which Mr. Runyon, our ambassador to Germany, was plunged by the issue of a similar decree by the German government, for it is fully realized here that the allegation that American cattle are unhealthy is the most preposterous in both cases, and that the real reason is fear of American competition.

In the case of France the press cable dispatches have shown that the ministry has been urged to the issue of the decree by delegation after delegation representing the numerous and well organized agricultural societies of the republic, solely for their protection against the American cattle grower. In order to grant the demand and yet at the same time to avoid the charge that France was violating the most favored nation clause in its treaty with the United States, which would properly be if the latter were singled out from other nations for an attack of this kind, it was necessary that recourse should be had to the device, which had availed Germany so well, of charging unhealthfulness upon American cattle. This charge is always hard to rebut, owing to the ease with which expert testimony may be had on either side of the case.

The American trade in cattle with France has grown to considerable proportions, the shipments during the six months ended Dec. 31 last being 13,441 head, and during the month of January last 801 head.

Secretary Morton was careful about expressing his opinion touching the French decree, but it could be seen that he regarded it as a mere political manifestation, and felt that it would not be continued in force for any considerable length of time, and that the next change in the French cabinet would probably be followed by the revocation of the decree. Notwithstanding this, the belief is growing and deepening here that these decrees are but forerunners of other and more severe restrictions upon American trade, the next blow, perhaps, being likely to fall upon wheat. It is understood here that these are not adopted as retaliatory measures, but are manifestations of the growth of the protective sentiment in continental Europe, and grow out of the necessity the governments are under of conceding something to the great agricultural classes.

Toucing the allegation of the existence of disease among American cattle Secretary Morton says that he does not believe in one case of pleuro-pneumonia in the United States during the past three years, and that even if there had been cattle suffering from Texas fever among the carefully inspected herds shipped to Europe, the disease, being non-contagious, could do no harm there.

An Exploding Cylinder Kills Two.
PHILADELPHIA, Feb. 27.—There was a fatal explosion yesterday afternoon at Smith, Kilme, French & Co.'s laboratory, 303 and 307 Cherry street. Frank Robinson, aged 21 years, of Camden, was instantly killed, and Frank Duffy, aged about 23, was fatally injured. The cylinder which exploded was charged with carbonic acid gas. The cylinder was about the size of a flour barrel, and was put in about three months ago. The cylinder exploded, it is thought, owing to the pressure of gas. Everything in the room was blown to pieces, and the west wall was blown out.

Presidential Appointments.
WASHINGTON, Feb. 26.—In a list of appointments sent to the senate by the president yesterday were the following: Edmund A. Bigler, of Pennsylvania, to be collector of internal revenue for the Twenty-third district of Pennsylvania (Pittsburgh); John W. Showalter, of Illinois, to be United States circuit judge for the Seventh judicial circuit (act approved Feb. 8, 1896); Olin Wellborn, of California, to be United States district judge for the Southern district of California; John S. Thompson, to be postmaster at Reading, Pa.

Mysterious Explosion in Brooklyn.
BROOKLYN, Feb. 27.—A terrific explosion which resulted in the death of one person and the injury of a number of others, wrecked several houses and shattered all the windows within a radius of several blocks, occurred last night in a two story frame structure on Johnson avenue. John Fuhr, 6 years old, who had his skull fractured, died in St. Catherine's hospital. Peter Weisz, 4 years old, will probably die. Several others were injured. The cause of the explosion is a mystery.

Mrs. Drayton's Legal Fight.
TRENTON, Feb. 27.—Mrs. Charlotte Augusta Drayton, against whom James Coleman Drayton recently brought suit for divorce on the ground of adultery, retorted yesterday by filing a counter petition in the court of chancery, asking for a decree of divorce from her husband, on the ground of desertion. The petition was filed by R. G. Lindabury, Mrs. Drayton's counsel.

A Ghastly Exhibit.
TANGIER, Morocco, Feb. 27.—Advices received here from Fez state that the two cart loads of salted heads of the leading Rahnama rebels, which were taken to Sultan Abdul Aziz by a detachment of the Moorish cavalry, have been suspended from the main gate of that city, amid great rejoicing upon the part of the populace.

Hot Springs' Fatal Fire.
HOT SPRINGS, Ark., Feb. 23.—Six persons are known to have perished in a fire which started in this city at 4 o'clock in the morning. Four large blocks of buildings were soon laid in ruins. The fire originated in a bakery, over which were furnished rooms.

Chronic Nervousness

Could Not Sleep, Nervous Headaches.

Gentlemen—I have been taking your Restorative Nerve for the past three months and I cannot say enough in its praise. It has

Saved My Life, for I had almost given up hope of ever being well again. I was a chronic sufferer from nervousness and could not sleep. I was also troubled with nervous headache, and had tried doctors in vain, until I used your Nerve. MRS. M. WOOD, Ringwood, Ill.

Dr. Miles' Nerve Cures.
