FAMISHED DEER.

The deep snow and intense cold we had since the holidays set hard upon all wild animals and many, no doubt, perished from starvation. E. M. Huyett, of this place, informs us that one day last week he met two teams on the pike through the 7 Mountains on the way to Milroy, and each one had a live deer on board. The animals were almost helpless from starvation and easily captured and perhaps would have died. They will doubtless be cared for by the parties who took them and be set at liberty again after gaining strength suffi- ting on the outside of a quantity of juice cient to take care of themselves in the they started out for a lark, at about 3 mountains.
