

MISRULE IN NEW YORK

Mayor Strong's Pertinent Message to the Board of Aldermen.

INCREASED BONDED INDEBTEDNESS

The Mayor Declares It "the Result of a System of Financial Jugglery Practiced by the Previous Administration"

New York, April 3.—Mayor Strongest message to the board of aldermen yesterday showing the financial condition of the city. He said there was a big excess in the budget over previous years, and alleged that this was due to a system of financial jugglery practiced by previous administrations.

Following a statement of the city debt and a list of public improvements for which bonds must be issued the mayor says:

"The question of affairs as herein presented, and the consequent increase of bonded indebtedness that must be shown against the city at the close of this year is attributable to the result of a system of financial jugglery, practiced by the previous administration in an apparent endeavor to mislead the public into the innocent belief that, knowing the liberal and perhaps wasteful expenditures on special accounts during the year, particularly by the park department under the \$1,000,000 act, ostensibly to give work to the unemployed, that the debt of the city had not been increased to the proportions that the statements herewith submitted indicate, and with such delusion seek to produce a political as well as a hoped for beneficial moral effect, and leave to the future the realization and burden of the actual condition of the financial affairs of the city."

"An examination of the statements, as submitted by the comptroller, justifies the belief that every technical subterfuge was availed of to defer authorizing the issue of bonds or to defer issuing them after they were authorized in 1894, leaving their issue and the responsibility of the same, and the consequent increase of the bonded indebtedness, to fall upon the administration of 1895."

The mayor also speaks sharply of mandatory legislation which increases the city debt, and goes over the history of assessments of corporations which kept up assessed values, but many of which were set aside by the courts.

Under date of March 14 the comptroller transmitted to the mayor a statement showing approximately the liability of the city for public works and improvements, which on Jan. 1, 1895, still remained to be paid out of the proceeds of bonds then unissued. The total amount for which the city was liable on that date was \$19,579,000.

The mayor makes no recommendations whatever, but simply says that he sends the message for the information of the board and the public.

GIANT POWDER EXPLODES

The Fate of Two Men Imprisoned in a Mine as Yet Unknown.

PHOENIX, Ariz., April 3.—One hundred pounds of giant powder exploded in the Ohio mine of the United States Mescal Mining and Milling company late yesterday afternoon. The mine is located nine miles from Prescott, and the particulars are very meager, as the courier left immediately after the explosion to secure medical aid for the five men who were working in the drift where the powder was stored. Three men had been rescued seriously injured, James Newlin, the foreman of the mine, being the most seriously hurt. The explosion caused a cave of 100 or more tons of rock, and whether the other two men were killed and buried beneath the debris in the drift behind the cavern of rock could not be determined when the messenger left. The miners set at work immediately to remove the rock from the drift to reach the imprisoned or buried men.

His Spotted Reputation Diminished

FOXBORO, Mass., April 3.—Hon. Elias J. Hale, judge of probate for Piscataquis county, who committed suicide by shooting himself on Thursday last, is now thought to have been a defaulter to the amount of \$75,000. Judge Hale had been town trustee for thirty years. Since his death holders of notes in sums all the way from \$1,000 to \$10,000 have been presenting claims, and it appears that he had hired these sums at different times in the town's name, but the town books contain no records of such transactions. Judge Hale was universally respected and bore a spotless reputation. He was not required to give bond as town trustee until last year.

Reported Drowned from His Yacht

BROOKLYN, April 3.—A report reached here last evening that Millionaire William Ziegler, well known in this city and throughout the country, has been drowned from his yacht Robinson Crusoe while on a cruise off Florida. Mr. Ziegler, in company with William H. Flagler of Standard Oil fame, left for Florida on March 16 last.

Great Britain as a Labor Arbitrator

LEWISBURG, April 3.—The government has agreed, through the board of trade, to ascertain the subjects in dispute between the boot and shoe manufacturers and their workmen, with a view to arbitrating the same. The Times, in an editorial, says that this is the first really businesslike suggestion of the kind.

Mexico-Guatemala War Averted

CITY OF MEXICO, April 3.—The Guatemalan boundary question is settled. President Diaz has formally signed with the Guatemalan ministry the official document which prevented the threatened rupture between the two countries, and congratulations are heard on all sides for the stand taken by the president. Foreign Minister Mariscal and Mexicans generally at a time full of danger and menace to the nation's safety and dignity.

A Mother's Terrible Crime

COLUMBUS, O., April 2.—Mrs. W. H. B. Williams, wife of a real estate dealer at Grove City, O., murdered her 13-year-old daughter Maude and her 7-year-old son Harry at a hotel here. Maude was poisoned and Harry had his throat cut. Mrs. Williams, who was arrested, says she killed the children to free them from the cruelty of their father, from whom she had separated.

VENEZUELA DEFIANT.

She Grants to Americans Territory Claimed by England.

ANOTHER DIPLOMATIC SNARL

Should Great Britain Attempt to Prevent the Operation of the Concession Uncle Sam May be Obligated to Twist the British Lion's Tail.

FARIBAULT, Minn., April 3.—Donald Grant, a wealthy contractor of this city; W. H. Fisher, late manager of the Duluth and Winnipeg railroad, and J. A. Bowman, a Grand Rapids (Minn.) banker, have just returned from Venezuela, where they obtained a concession of land at the mouth of the Orinoco running 125 miles south and from fifteen to fifty miles east and west. It is rich in minerals, mahogany, rosewood and dye woods. They also have the right to mine asphalt on a small island near Trinidad. The syndicate will invest a good deal of capital in working the concession, and Mr. Fisher is to be the manager.

WASHINGTON, April 3.—There is a great deal in the news from Faribault of the grant of a concession by Venezuela at the mouth of the Orinoco than indicated in the dispatch. This concession may become more or less famous in the history of the diplomacy of the United States and Great Britain. The concession is well calculated to bring to an acute stage the most troublesome diplomatic question before the state department, and one which, as stated heretofore, has caused the administration more real concern than the Alliance affair, the late Guatemalan-Mexican dispute and other international episodes.

The concession is in the heart of the territory long in dispute between Venezuela and Great Britain, and Ambassador Bayard and for some time has vainly striven, in accordance with a resolution recently adopted by congress, to persuade Great Britain to submit the whole dispute to arbitration, Great Britain being willing to arbitrate only beyond what is known as the Schomburgk line. There have been intimations that the administration, in the event of a physical conflict over the disputed lands, might deem it necessary in the enforcement of the Monroe doctrine to follow up the moral aid that is tendered Venezuela with more substantial and positive assistance. The fact that citizens of the United States, by this concession, are thrust, so to speak, between Great Britain and the United States, considerably increases the measure of this country's responsibility.

Senor Andrade, the Venezuelan minister at Washington, when seen concerning the Faribault paragraph, said that he had no official confirmation of the grant of the concession, but added that he does not doubt its correctness, as it is in line with reports that such concessions would be made. The land included in the concession, he said, is the vital point of conflict between Great Britain and Venezuela. The Orinoco is the great commercial artery of South America, running far inland, through Venezuela, Brazil and other countries. Whoever controls the mouth of the river, Minister Andrade said, will control this great commerce. Great Britain has taken possession of Punta Barina, at the mouth, which is to the Orinoco what the Island of Gibraltar is to the Mediterranean. She has also equipped a naval station on Trinidad Island, just off the mouth. Her claims embrace both banks of the stream at the mouth. It is part of this important strategic territory that Venezuela now grants the United States citizens. The concessions near Trinidad Island is believed to be the Island of Palos. It is very near to the British naval station, and particularly rich in asphalt.

The present concession is the most emphatic declaration of ownership Venezuela has made since 1854. In that year a concession was made to Messrs. Fitzgerald and Turnbull, citizens of the United States, of part of this Orinoco territory. It was about to be operated by a United States company known as the Manoa company, when Great Britain entered such an emphatic protest that Venezuela cancelled the concession. Since then the conflict between Great Britain and Venezuela has been waged through diplomatic channels. Now Venezuela reasserts her rights, and turns them over to United States citizens. The interesting question thus arises whether Great Britain will endeavor to prevent the United States syndicate from operating its concession.

An Armistice Granted in China

TOKYO, March 30.—The emperor of Japan has declared an unconditional armistice. On the opening of the negotiations yesterday the Chinese plenipotentiary proposed the armistice, which the Japanese government was willing to accept on certain conditions. Whilst the negotiation was going on the untoward happened on the person of the Chinese plenipotentiary. His majesty, the emperor, in view of this unhappy occurrence, commanded the Japanese plenipotentiaries to consent to temporary armistice without conditions. Koyama Rokunosuki, the young Japanese who attempted to assassinate Li Hung Chang, has been sentenced to penal servitude for life.

Desperate Fight with Moonshiners

LITTLE ROCK, April 2.—Deputy United States Marshal Johnson and a gang of six men fought a gang of moonshiners in the mountains of Hempstead county early in the morning. After the smoke had cleared away the posse found the bodies of two of the outlaws, captured a third alive, and took possession of an illicit plant capable of making twenty gallons of whisky a day. One of the posse, who received serious wounds. Four moonshiners escaped.

Mexico-Guatemala War Averted

CITY OF MEXICO, April 3.—The Guatemalan boundary question is settled. President Diaz has formally signed with the Guatemalan ministry the official document which prevented the threatened rupture between the two countries, and congratulations are heard on all sides for the stand taken by the president.
