

# NO NEED FOR SOLDIERS

## Striking Virginia Miners Quiet and Orderly.

### UNANIMITY AMONG THE STRIKERS

Only Twenty Tons of Coal Mined Tuesday at Pocahontas, and None on the West Virginia Side—Operators Send for Men from Other Sections.

POCAHONTAS, Va., May 8.—The best of order has been preserved in this city. The miners held a mass meeting just across the state line in West Virginia yesterday. Soldiers would not permit travel on the thoroughfares, but the meetings were reached. The miners are now thoroughly organized and will hold mass meetings this afternoon at Simmons and Maybury, in West Virginia.

No effort to destroy railroad property has been made, and the officers of Tazewell county, Va., with special deputies, are on the ground to prevent any possible disturbance. Lawless, the mine organizer, is still here with his men, and is working industriously. The railroad company has special detectives to ascertain the local leaders, and feeling ran high because of some abuses of the police, but better counsel prevailed and peace was preserved.

The fields are a unit for the strike, but the coal companies here say they intend to run the mines if new men have to be brought in. The southwest Virginia improvement company and the Eckman mines have telegraphed for 600 miners to come to this place, and the houses are now being put up by the coal company to house them.

The Southwest Virginia Coal company issued circulars last night that it would pay all men tomorrow, but no men who occupy company houses would be paid till the houses were vacated. As most of the houses are the company's, nearly all the miners will be dispossessed. What this feature will lead to will be hard to forecast. The output yesterday was only twenty cars of coal and fifteen cars of coke.

CHARLESTON, W. Va., May 8.—"All's quiet on Elkhorn," is the report at the state house. State and federal officers are sanguine over the prospect for a speedy settlement of the miners' strike. The joining in the strike by the Browning men is regarded as particularly significant, inasmuch as it leaves the whole region idle, and must necessarily force action one way or the other on the part of Norfolk and Western road or the coal men. United States Deputy Marshal Harman has just arrived in Charleston from the scene, and says that the situation is not in the least threatening, and there is no indication that leads to the supposition of trouble.

The men who laid down their tools on Monday did so voluntarily and without coercion. The presence of the Virginia militia has not had the effect desired. The impression became general among the miners that the military was present to force them to work, or at least to prevent their joining the strike. The men rebelled, stopped work, and refused to resume until the strike was settled.

Some talk of importing non-union labor from Pennsylvania has been indulged in, but the miners say this is only a bluff. Such a move would precipitate trouble. As the matter stands now the men are orderly in their demeanor, and Deputy Marshal Harman says that among all the 8,000 or 10,000 idle men he has not seen a single drunk.

BELLAIRE, O., May 8.—The situation among the coal miners in this part of Ohio looks encouraging. Many operators are willing to pay the sixty cent rate. It is predicted here that as soon as any West Virginia coal is shipped west over the Baltimore and Ohio road it will be stopped. The miners opposite here in West Virginia are organized, and will work in conjunction with the men here.

Reported Revolution in Ecuador.  
NEW YORK, May 8.—The Herald's special from Panama has the following: The Herald's correspondent in Guayaquil, Ecuador, sends word that the revolution there is spreading on all sides, and that Senor Saenz, minister of war, is reported to be killed. The principal newspapers of that city have been suppressed and their editors and proprietors banished. Several regiments of soldiers have gone over to the revolutionists. It is estimated that the revolutionists have 1,000 men in Esmeraldas by this time, and General Barona is in Babahoyo with 500 men. The United States steamer Ranger had been ordered to Esmeraldas, a port in northern Ecuador.

Japan's Additional Indemnity.  
LONDON, May 7.—Official dispatches from Paris, Berlin and St. Petersburg announce that the Japanese ministers have informed the different governments that, deferring to the friendly advice of France, Russia and Germany, Japan has renounced its claim to the permanent possession of the Liao Tung peninsula, including Port Arthur. In consideration of Japan's abandonment of the Liao Tung peninsula she will receive an additional indemnity of \$50,000,000.

Fell Heading to Death.  
LANCASTER, Pa., May 8.—Emanuel J. Erisman, a retired merchant, and one of Lancaster's prominent citizens, fell down a flight of twenty steps leading to the sidewalk last evening and died some time afterwards. He landed head first, and fractured his skull. Mr. Erisman was one of the best known Odd Fellows in the state, and at the time of his death was grand patriarch of the grand encampment. He was 65 years old, and almost totally blind.

Severe Earthquake in Argentina.  
BUENOS AYRES, May 8.—There was a severe earthquake yesterday in Mendoza, capital of the province of that name. The inhabitants were terror stricken and fled from the town. Mendoza is situated about fifty-five miles southeast from the volcano of Aconcagua. The place was destroyed by an earthquake in 1860.

Favoring the Philadelphia Investigation.  
HARRISBURG, May 8.—Senator Penrose's movement for an investigation of the municipal affairs of Philadelphia took a step in advance yesterday afternoon, when the senate judiciary general committee unanimously agreed to favorably report the resolution as committed.

Blinded by Exploding Acids.  
BETHLEHEM, Pa., May 7.—While at work in the laboratory at Lehigh University Harry Thatcher had his eyes destroyed and was probably fatally burned by an explosion of sulphuric and acetic acids in a test tube. The unfortunate young man is not yet of age, and resides here.

Makers of Low Prices and Terrors to all Competitors.

"Imitation is the Sincerest Flattery."

The very fact that our competitors are endeavoring to imitate our style of doing business, assures us we are on the right road. Think of it. Business houses that have been doing business here for ten, twenty and thirty years, have awakened to the fact that they are on the wrong road, and are trying to follow our lead.

Scarcely one month in trade, and the old merchants that have been here a lifetime tacitly acknowledge our supremacy by quietly trying to imitate our method of doing business. The only way to do business now a days is the

### DR. MORITZ SALM,

WILL BE AT THE BROCKERHOFF HOUSE, BELLEFONTE, PA.

on Saturdays of the following dates: Dec. 1 and 29, 1894. Jan. 26; Feb. 23; March 23; April 20; May 18; June 15; July 13; Aug. 10; Sept. 7; Oct. 5; Nov. 2 and 30; Dec. 28, 1895.

TYRONK, EMPIRE HOUSE—Fridays, March 23; April 19; May 18; June 14; July 12; Aug. 9; Sept. 6; Oct. 4; Nov. 1 and 28; Dec. 27.

ALL EYE & EAR OPERATIONS SUCCESSFULLY PERFORMED.

Cured by Dr. Salm after having tried 5 doctors and a wagon load of patent medicines.

For more than 8 years I was troubled with dyspepsia and intestinal indigestion. I suffer all unfeeling agonies; only able to keep my food down, and towards the last I could not keep on my feet any more. During all this time I must have taken a wagon load of different patent medicines, but they did me no good. I was in this state but grew worse and worse. None of them made a correct diagnosis until I went to Dr. Salm at Tyrone. He told me at once what ailed me, and he was correct, for to-day I feel like a new woman.  
Sandy Ridge, Pa. Mrs. CARRIE PECHT.

Once more hale and hearty.  
For more than 5 years I have had a bad eye trouble, etc., miserable case of dyspepsia, felt generally very bad, became very thin and pale, and never had any appetite. But now, after only a few months treatment with Dr. Salm, I have gained very much in flesh, my dyspepsia is cured and my eyes are as well as any eyes, and I consider myself, thanks to the good doctor, for once more hale and hearty.  
Snow Shoe, Pa. Miss MINNIE KELLEY.  
Attested by her mother, Sarah Kelley.

Inward Trouble Cured by Dr. Salm.  
Our daughter Agnes has been ailing with some inward trouble for over 3 years. It made her very miserable and fit for nothing. She tried to be cured by the best doctors obtainable here, but without success. That Dr. Salm made a correct diagnosis at his first visit, the splendid results of the treatment have proven; for she is once more able to lead a helping hand. We can recommend the Doctor highly.  
Bellefonte, Pa. I. N. FADEN.

Cured of Deafness and Cataract by Dr. Salm.  
Our son Stanley has been very hard of hearing for some years, all on account of a bad case of cataract. We brought him to Dr. Salm for treatment, and now after only four months he is almost entirely well and I am certain that, bus, Ohio.

He is visiting this county EVERY FOUR WEEKS, thus saving his patients the trouble and expense of visiting the city, as he is the only physician and surgeon in the county who carries his own machines, models, diagrams, etc., to illustrate and make plain to all afflicted the cause and nature of their disease. This will give his numerous patients and others who are in need of medical treatment an opportunity to consult this distinguished physician, whose duties at the Institute will permit only of monthly visits to your community.

Small tumors, cancers, warts, moles, etc., removed without acids, knife, pain or scar. New method. Electrolysis, epilepsy or its scientifically treated and positively cured by a never-failing method. Address all communications to Box 700, Columbus, Ohio.

CONSULTATION FREE. This advertisement appears twice before each visit.

# CLEVELAND'S WARNING.

## The President's Pertinent Letter to Mississippi's Governor.

### THE EVILS OF FREE COINAGE.

The Chief Magistrate Predicts That a Free Silver Platform Would Result in the Defeat, if Not the Disintegration, of the Democratic Party.

JACKSON, Miss., May 4.—Governor Stone gives to the Associated Press a letter addressed to him by President Cleveland under date of April 26. The following is the full text of the letter:

"MY DEAR SIR:—Your letter of the 21st inst. is at hand. I do not feel inclined to find fault with your criticism, but think the matters you refer to should be judged in the light of the circumstances existing at the time the things were done. I never had an idea of building up or fostering a personal following, but so far as politics should properly influence me in making appointments I have tried to be Democratic and not proscriptive.

"I am glad you are frank enough to admit your participation in bringing about a condition in office holding which may not be all that could now be desired. Whether these appointed to places shall in speech and action behave decently towards the administration under which they hold office must remain, to a large extent, a matter of taste and good breeding. There are, however, some officials who devote themselves so industriously to vilification and abuse of those under whom they hold office as to indicate that their fidelity cannot be trusted for the performance of their duties in a manner creditable to the administration, and who apparently assume that they may spend the time they owe the public service in doing political mischief. In the interest of good government such office holders must not be surprised if they are summarily dealt with.

"When I received your letter I had just finished reading a letter of yours in which you explain to the citizens of Mississippi your views on the currency question. It seems to me you have in that letter contributed in the best possible style and in a most valuable way to the fund of argument in favor of sound money. I have never ceased to wonder why the people of the south, furnishing so largely as they do products which are exported for gold, should be willing to submit to the disadvantages and loss of silver monometallism and to content themselves with a depreciated and fluctuating currency, while permitting others to reap a profit from the transmutation of prices of their production from silver to gold. I hope this letter of yours will be given the widest possible circulation, especially among our southern fellow citizens, and that they will be permitted to see the pitfall which is directly before them who madly rush towards the phantom light of free, unlimited and independent silver coinage.

"If we who profess fealty to the Democratic party are sincere in our devotion to its principles, and if we are right in believing that the ascendancy of those principles is a guarantee of personal liberty, universal care for the rights of all, non-sectional, American brotherhood and mainly trust in American citizenship in every part of our land, we should study the effects upon our party, and consequently upon our country, of a commitment of the national Democracy to the silver alternative.

"If there are Democrats who suppose that our party can stand on a platform embodying such doctrine, either through its affirmative strength or through the perplexity of our opponents on the same proposition, or if there are Democrats who are willing to turn their backs upon their party associations in the hope that free and unlimited and independent coinage of silver can win a victory without the aid of either party organization, they should deceive themselves no longer, nor longer refuse to look in the face the results that will follow the defeat, if not the disintegration of the Democratic party, upon the issue which tempts them from their allegiance.

"If we should be forced away from our traditional doctrine of sound and safe money our old antagonist will take the field on the platform which we abandon, and neither the votes of reckless Democrats nor reckless Republicans will avail to stay their easy march to power. This is as plain as anything can possibly be. It, therefore, becomes the duty of every Democrat, whoever he may be, to consider what such a victory would mean, and in the light of a proper conception of its result he should deliberately shape his course. Yours very truly,

"GROVER CLEVELAND."

Countess Castellane's Ambition.  
PARIS, May 8.—The Countess Boniface de Castellane and his wife, formerly Miss Anna Gould, of New York, have bought a large site at the corner of the Avenue du Bois de Boulogne and the Avenue de Malakoff, paying therefor 700 francs per meter. The Countess de Castellane will carry out the dream of her life, that is to exactly reproduce the Grand Trianon at Versailles, with immense gardens, for a Paris residence. The Grand Trianon is a handsome villa, one story in height, in the form of a horseshoe, and is situated about three-quarters of a mile to the northwest of the terrace of the Palace of Versailles. It was erected by Louis XIV for Mme. De Maintenon.

Stricken Statesmen Recovering.  
WASHINGTON, May 8.—Secretary Grosham is reported to be constantly gaining ground, and it is now said that all danger in his case has passed. It is hoped that he will be able to leave the city for some health resort in about ten days. The report from Representative Hitt's house is that the patient is much better, and hopes are now entertained that he may recover. General Cogwell is reported to be resting comfortably.

Secretary Van Cleef Resigns.  
TRENTON, May 8.—Secretary John T. Van Cleef, of the state board of assessors, sent in his resignation yesterday. The board accepted the resignation and will elect his successor at their next meeting. This is in consequence of the exposure of his map transactions made recently by the senate investigating committee. Colonel Van Cleef also resigned his position as aide on the staff of Governor Weston.

To Cultivate Scranton's Vacant Lots.  
SCRANTON, Pa., May 8.—The Scranton Board of associated charities last night decided to put in operation the plan of Mayor Pingree, of Detroit, of the "cultivation of vacant lots by the unemployed." An appeal was made today for land and funds to start the work.
