

# INCOME TAX DECISION.

## The Supreme Court Declares the Law Unconstitutional

### BY A VOPE OF FIVE TO FOUR.

Justices Harlan, Brown, Jackson and White Present Dissenting Opinions in Which the Danger of Overriding Congress is Pointed Out.

WASHINGTON, May 21.—The income tax law, which has received so large a share of the public attention since the beginning of the first regular session of the Fifty-third congress, is a thing of the past. After being twice heard in the United States supreme court, it was finally decided by that court to be invalid and unconstitutional. There were four dissenting opinions delivered in these cases, one each by Justices Harlan, White, Brown and Jackson, showing that the court had stood five to four against the law.

Inasmuch as one of these dissenting opinions was handed down by Justice Jackson, and as he was absent at the first hearing, when the court divided evenly on the question of sustaining the law on all points except those as to the tax on incomes from rents and bonds, it follows that one of the members of the court who at first pronounced for the law, except on those two points, changed his attitude after the second argument. There is very little question that Justice Shiras is the member who revised his views of the law. He, however, made no announcement either yesterday or when the first opinion was delivered as to his position.

While the opinion of the chief justice was largely a review of the general aspects of the questions involved, he based the opinion of the court on the argument that the provisions of the law regarding the tax upon rents and bonds were so essential a factor of it as to render all other parts of it dependent upon them, and that in accordance with the well known rule of law bearing on this question, the law as a whole must be declared invalid.

The opinion of the chief justice, while receiving the respectful and careful consideration of his auditors, was not the subject of such general remark as were the opinions of Justices Harlan and White, which were couched in language so vigorous, and even so emphatic in their arraignment of the majority, as to cause very general comment. Both justices indicated their belief that the ruling opinion was revolutionary, and intimated that serious consequences might ensue. Justice Harlan suggested the necessity for amending the constitution in view of the opinion.

It is not believed in Washington that the president will feel it necessary to call an extra session of congress.

### Fatal Powder Explosion in a Mine.

WHEELING, W. Va., May 22.—The first report of a disastrous explosion at the Monongah mine, near Fairmont, yesterday, were wildly exaggerated. The facts are as follows: A Pole carelessly ignited a can of powder in mine No. 4 of the Monongah Coal and Coke company, and a terrific explosion followed. The accident occurred in the main air course leading to mine No. 2, about 500 feet from the mouth of mine No. 4, and the smoke was thus driven through the different parts of the mine, suffocating four miners. Quite a number of others were seriously but not fatally affected by the smoke.

### Terrible Explosion of Nitro-Glycerine.

SAN FRANCISCO, May 22.—A terrific report and concussion, which was distinctly felt all through the cities and towns around the bay for a distance of forty miles yesterday, was at first believed to have been caused by an earthquake, but proved to be an explosion in the nitro-glycerine houses of the California Powder works at Pinola, across the bay. The crew at the glycerine house, four in number, and the foreman at the mixing house, were all killed, as well as nine Chinese working in the latter department.

### Oscar Wilde's Companion Convicted.

LONDON, May 22.—The trial of Alfred O. Taylor was concluded yesterday. The judge, in summing up the evidence, directed the jury to acquit Taylor as regarded his complicity with the young man Wood, leaving them to decide upon the three charges in which Taylor is alleged to be directly guilty. The prisoner was found guilty on several counts in the indictment. Taylor's sentence was delayed until a verdict should be reached in the trial of Wilde, which began today.

### Insists of Control of Seminaries.

PITTSBURG, May 21.—Yesterday afternoon, by a vote of 42 to 98, the Presbyterian General Assembly decided to continue the movement which is intended to give the assembly absolute control over its theological seminaries. Their great success promises to embolden the conservatives for drastic measures against the students of Union seminary. The vote was a declaration of war to the knife, and the end only will be surrender or secession.

### Senator Marti Killed in Battle.

HAVANA, May 22.—An engagement between the rebels was fought yesterday in eastern Cuba, in which Jose Marti, who was proclaimed president by the revolutionary party, was killed and his dead body positively identified. Of the rebels seventy were killed and many of their wounded were left in the camp when they took flight. The insurgent prisoners say that Gomez and Estrada are either killed or wounded.

### Child Drowned in a Cesspool.

CHESTER, Pa., May 22.—Agnes Mary, the 17 months-old daughter of Frederick McKone, of Clifton avenue, Sharon Hill, was drowned in a cesspool at the home of her parents. Mr. and Mrs. McKone had gone to church, leaving their children at home. When they returned little Agnes' body was found in the well under an out-house in the yard.

### The Corwin Seizes a British Schooner.

SEATTLE, Wash., May 22.—The steamer Topoka, just arrived from Sitka, brings news that the revenue cutter Corwin seized the British sailing schooner Shelby for violating the sealing laws, and brought her in to Sitka. She was turned over to the British cruiser Pheasant, who sent her to Victoria. This is the first seizure this season.

### Two Children Burned to Death.

NANTICOKE, Pa., May 22.—While John Watkins was at work and his wife out of the house their two small children, playing with matches, set the house afire. So quickly did the flames spread that the children were burned to death and the house destroyed.

## Temple Dedicated to Odd Fellowship in Philadelphia.

### COST A MILLION DOLLARS.

### Peaceful Armies Invade the City of Brotherly Love.

### VISITORS FROM ALL SECTIONS,

### Including a Hundred Thousand Members of the Order, Assemble to Do Honor to the Noble Fraternity—The City Profusely Decorated with National Emblems and the Colors That Symbolize Odd Fellowship—The Parade Abandoned on Account of Rain.

PHILADELPHIA, May 21.—The greatest event in the history of Odd Fellowship in this or any other country, the dedication of the magnificent new Odd Fellows' Temple, on the southeast corner of Broad and Cherry streets, took place this forenoon, beginning at 10 o'clock, in the auditorium of the Temple.

All seeing eyes look down from a wealth of bunting on the crowds in the busy sections of the city. Philadelphia began on Saturday to put on her gala dress to welcome the multitude of strangers who have flocked here to take part in the festivities attending the dedication. A striking feature of the decorations, which make the city bright with color, is the display of the emblems of the order. Where the wide awake eye is seen the links representing Friendship, Love and Truth are found. Red, white and blue bunting

GRAND MASTER HARRY L. NEALL is lavishly displayed on the front of the big hotels and business houses in the center of the city, but the colors peculiar to the various branches of Odd Fellowship take an important part in the decorations. The white, blue and scarlet of the lodges, the gold and purple of the encampments and the purple and black of the Patriarchs Militant are conspicuous in the holiday attire which the city of Penn has donned in honor of the occasion.

Special trains from all points of the compass, bearing visiting lodges, encampments and cantons, began to arrive at 7 o'clock yesterday morning. They continued to pour their human freight into the station until noon today. Over forty special trains arrived over the various branches of the Philadelphia and Reading railroad, and an equal number of special trains bearing delegations came here over the Pennsylvania and its connecting lines.

### That Million County Gold Find.

There has been considerable excitement of late at Newton Hamilton concerning the gold discoveries there. The latest information obtainable is to the effect that assays have been made of the rock with the following results: Assay by W. M. Bradshaw, sample one worth \$16.90 per ton; sample two \$16.10 per ton. Assay by W. Burlew, sample one worth \$12 gold, \$1.35 silver per ton; sample two \$13 per ton. The Watchman says: The second strata lies twenty-two feet beneath the surface and contains gold, silver and lead in rich deposits. Gold miners who have examined it say it is equal to gold quartz. We have a proposition from a Colorado firm to consolidate with us and work the mine."

### As to Kissing the Baby.

Kissing the baby may result in deforming its nose or bringing on nearsightedness. The safest plan is not to kiss a baby of the feminine persuasion until it attains the age of eighteen years. The cartilage of the nose is much stronger then.

### A False One.

"The nearest I ever came to being married," said the old bachelor, "was when a shopkeeper gave me a bad fifty-cent piece, and I went back and tried to get a better half."

### Special Bargains.

—Figured China silk 20 cents a yard, and striped wash silk 30 cents a yard, at LION & CO.

### The attendance at the Inter-Collegiate sports, at State College, on Saturday, was not as large as was expected.

—The masonry work on the Lamb street bridge has been progressing exceedingly slowly. The abutments will hardly be completed inside of another month, at the present rate of progress. It is utterly impossible to have it finished in time for the centennial celebration.

### Daring Theft.

On Sunday evening a daring theft was committed at the residence of Archie Allison, on Allegheny street, this place. Some time during the night an entrance was effected to the second floor of the house, by the use of a ladder to the window over the kitchen. This was raised and an entrance easily gained. The doors leading to Mr. and Mrs. Allison's bedroom were opened and propped back so as to make a safe retreat.

In the room they managed to find Mr. Allison's pantaloons and undershirt. This was taken down stairs and all the contents in the pockets were laid out on the table where they were found the next morning. The only thing missed was \$12 in money.

The cupboard doors were open, but nothing was disturbed and it is thought that nothing else was taken.

Mr. Allison had a considerable amount of money in his coat and vest, in the same room, which the burglars missed, and when they read this notice they will discover their mistake. It is generally thought that the theft was committed by someone well acquainted with the surroundings.

### Change of Time.

It is well for the public to remember that a number of decisive changes have been recently made in the railroad schedules about Bellefonte. Trains on the Bald Eagle Valley are moving on new schedules. The Central R. R. of Penna. has a new schedule which is well to keep in mind. Our time tables were corrected this week and will be found reliable.

# HEART DISEASE!

## Fluttering, No Appetite, Could Not Sleep, Wind on Stomach.

"For a long time I had a terrible pain at my heart, which fluttered almost incessantly. I had no appetite and could not sleep. I would be compelled to sit up in bed and belch gas from my stomach until I thought that every minute would be my last. There was a feeling of oppression about my heart, and I was afraid to draw a full breath. I could not sweep a room without resting. My husband induced me to try

## Dr. Miles' Heart Cure
