L. Magee and his friends in the West, and Governor Hastings and the friends of the administration wherever they can operate throughout the state. It is asserted that the governor enters personally into the campaign for the state convention, with the avowed purpose of becoming its presiding officer, and of defeating Senator Quay's aspirations for the state chairmanship.

HARRISBURG, June 25.-Governor Hastings formally announced last night to a reporter for the Associated Press that he would be a candidate for delegate from Centre county to the next Republican state convention, and that he would also stand for the permanent chairmanship of that body. This announcement followed upon a conference between the governor, Attorney General McCormick and Senator Quay. What passed between them none would disclose, except that the gov ernor told the Beaver senator that he favored Mr. Gilkeson's candidacy for reelection.

After the conference the senator said to the Associated Press correspondent that he thought Governor Hastings would be chosen chairman of the state convention without objection, but there would be a fight for state chairman. Governor Hastings said that the fight against Chairman Gilkinson is war in disguise against his administration for its stand during the recent legislation for a new apportionment of the state. He says that Mr. Gilkinson is an able leader and politician, and ought to be re-elected chairman for his success in increasing the Republican majorities in the state under his leadership.

LONDON, June 26. - Prince Emanuel Filiberto, duke of Aosta, nephew of King Humbert, of Italy, was married yesterday at the Church of St. Raphael, Kingston-on-Thames, his bride being the Princess Helene of Orleans.

Advertising Pays.

Last winter, during the dull spell, when everybody was complaining of hard times and no business, the firm of Jenkins & Lingle, machinists of this place, began advertising. They argued that as business was dull busy men would have plenty of time to read an advertisement, and think over any needed improvements to be made. The firm manufactures a helve trip-hammer that is considered the best in the market. They prepared a large amount of stationery on which was printed some of the leading testimonials of those who had used this hammer. They placed these in the hands of almost every manufacturer and iron worker in this section of the country. Business in the iron trade is growing brisker every day, just as they calculated, and firms are making improvements. In proof of this the firm of Jenkius & Lingle recently had six orders ahead for large hammers, and on Monday orders came in by telegraph for two more, This is exceedingly encouraging to them, and will keep their plant busy for some time.

They advertised when business was dull and then caught the trade when ripe.
