TO BE PUT IN OPERATION

As Soon as Possible-A Number of Needed Repairs are Necessary-Employs Many Skilled Mechanics and Laboring Men.

On Saturday the announcement was made that the Bellefonte nail works, in which Gen. Beaver had been a principal stockholder, had been leased to James ant. Bailey, of Harrisburg, and that the plant would be put in operation at once. This bit of information was gladly received by all, as it meant a great deal to the business interests of our town. When in full operation they employ over 150 skilled mechanics and laboringmen, at a good rate of wages. The works are in good condition and well equipped.

The lessee is of a large firm who have also leased the Lewisburg nail mill plant and it is announced that it also will be put in operation.

There are many reports affoat in regard to this lease. Some say the plant was leased under a bond, to be put and kept in operation. That the plant will positively be put in operation at once. Others assert that James Bailey leased the plant in behalf of a syndicate to control all the factories in the country.

The writer interviewed Mr. Isaac Mitchell, who was acting in behalf of the Trust company in accomplishing this lease. He stated that James Bailey had leased the works and that they have been assured that the plant will be put in operation as soon as necessary repairs could be made. Further than that they have no definite assurance. At present, the Trust Company are having some repairs and cleaning up done.

At the present writing we can say in S. H. Williams paper store, on High that the nail works are leased. When they will be put in operation is indefinite R. R. -we have only the assurance of Mr. the Mystic Chain organization, of Belle- Bailey that it will be "soon as possible." That is the situation without any gilt

It is generally considered a go. We hope it is. Bellefonte will appreciate et. al. the revival of this important industry.
