THE BELLEFONTE FURNACE

To Resume Operations at an Early Date by a New Company. For the past two months there have been rumors to the effect that the Bellefonte Furnace, formerly operated by the Collins, but idle for several years past, will resume operations. We are informed that Supt. Thomas of the Bellefonte Central R. R. has announced that it will likely be started inside of the next month, and that an entirely new company will take charge of it. Some of the new company are said to be largely interested in the railroad. When this large plant is in operation it gives employment to several hundred men in the ore banks, lime stone quarries and about the furnace. That means much for this community, and we hope the report will prove correct.

Dynamite Cap in Stove.

A few days ago, John Sheffer, teacher in the red school house, between Milesburg and Bellefonte, threw into the stove one of several playthings with which the children were toying. The article thrown into the stove happened to be a dynamite cap. The Daily News says that immediately there was a flash of fire, followed by a loud report and soon the school room was filled with smoke. Children were excited and ran this way and that, and, not knowing what had happened, naturally was scared almost to death. It was a very narrow escape and it was very fortunate that only one of the cartridges was thrown into the fire instead of the whole pack, for if such had been the case every one in the room might have been killed.

About Again.

Dr. George W. Atherton, of State College, president of the Pennsylvania State College, is at the Lochiel Harrisburg. He has not been well for some time and Dr. Atherton is there to attend a meeting of the State College and University council at the executive department. He says the State College is in splendid condition.

Death of Mrs. Boalich.

On Monday night Mrs. Ruth Boalich died at Axe Mann, after an extended illness. Her age was about 65 years. Three children survive her. One daughter is married to John Rote, at Axe Mann, and the other one is at home. The son is living at Hemet, California. The funeral took place Thursday morning. Interment in the Lutheran cemetery at Pleasant Gap.

An Old Ticket.

On Tuesday conductor Cook lifted a ticket that was twenty-five years old, given May 2nd, 1870, to a lady who held it until the above time. It was good from Northumberland to Lewisburg, and as nice yet as new, and just as good. Why the lady held it so long a time conductor Cook did not know.

An Appointment.

Miss Mary V. Rhone, of Centre Hall, a daughter of Leonard H. Rhone, worthy master of the State grange, has been tendered the position of stenographer and typewriter in the department of public instruction by Dr. Shaeffer. She will probably accept, as the place is a good one with a comfortable salary.

IT FOLDS, TRIMS AND PASTES.

A Mechanical wonder Recently Added to this Office.

Last week an important addition was made to the mechanical equipment of this office. It consists of a clever piece of mechanism that handles papers with a deftness and speed that is simply remarkable. Heretofore, after our papers were printed it required the work of two men almost a half day to fold them ready for mailing. This always was a tedious job and one detested by a printer. Owing to a rapidly increasing circulation, it was found necessary to add modern machinery to do this work. We secured the exact machine needed from the Bascon Folder Co., Sydney, Ohio, and of which the above is a front view. This is a small, compact device which can be run at a high rate of speed, capable of handling 3000 papers per hour, depending entirely upon the ability of the operator.

It pastes, trims and folds each paper accurately, as will be seen by looking at this sheet. It is a little wonder, and when in full operation it is a sight worth seeing.

The CENTRE DEMOCRAT has gone to considerable expense to make this improvement but the appreciation shown by the public for this paper sufficiently warrants it. The paper to day is gotten up in a most desirable form—convenient and attractive. From all quarters compliments have been dropping in upon the improvements made under the present management. We hope to deserve all, and fully appreciate these kindly expressions of our friends. It will be our effort to merit a continuance of the public patronage and esteem, by publishing a live wide awake paper which will continue to give the "Most News" for the "Least Money".

Persons desiring to see this in operation should call at the office on Thursdays between the hours of 11 a. m. and 3 p. m. Visitors, and the ladies especially are welcome.

IT IS COMING.

The electrical effects in Joseph Callahan's production of Faust are simply indescribable. They surpass any and all similar features.—Phila. Inquirer.

A car load of scenery will be used on next Tuesday night, Oct. 22, for Joseph Callahan's "Faust," at Garmans opera house.

MINGLES SHOE STORE.

We Never take a back step

That means something; neither are we satisfied with standing still. There's a force constantly at work that tends to bring this store closer to those who buy dry goods. Perhaps your experience here after trying other stores will tell you what it is.

BETTER BLANKETS—

We might better say "better blankets at \$3.50" for no store hereabouts to our knowledge has ever offered to sell a blanket like any of these fifty for \$3.75 each. Woolly and full of warmth as the regulation \$5 article, and all the difference is \$1.25 more in your purse. Worth saving, isn't it? GARMAN'S.

NOT A DAY PASSES
