**THE ACADEMY DOWNED.**

The Williamsport Rooters Score one on Bellefonte.

On Saturday about a thousand people assembled on the glass works meadow to witness the struggle between the football teams of the Williamsport High school and the Bellefonte Academy. The visitors arrived on the morning train and from their appearance and size it was evident that they would put up a stiff game.

Promptly at 3 p. m. the game started by Williamsport kicking the ball. From the start it was evident that the lumber city rooters were the strongest and better trained. At the end of the first half the score stood 12 to 0 in favor of Williamsport. The second half was fiercely fought and only six more points were scored. The Academy team put up a strong fight and never played better. The final score was 18 to 0.

**In Trouble Again.**

Amos Parsons, a son of Joseph Parsons, of Bellefonte, is in trouble. It seems that about a month ago he got a horse from John Sourbeck to keep for its feed during the winter. Amos kept the horse up until about two weeks ago when he traded it to Essex Kline at Hublersburg. He got in return for the horse, a dog and one or two other trifles which amounted to practically nothing. On Thursday afternoon Mr. Sourbeck asked him what had become of the horse and Amos at first refused to tell him but afterwards acknowledged he did not have it any longer. He told Mr. Sourbeck that the horse was now in the possession of Mr. Kline, at Hublersburg. A warrant was then sworn out and officer Garis arrested Amos and took him to jail where he now is living. Mr. Sourbeck says if he pays for the horse together with the costs he will allow him to go free but if he does not, he must stand trial. Parsons now is in jail.

**No Gas or Oil.**

A meeting of the Salt Lick Gas and Oil company was held last Friday. The contractor reported that owing to the flow of water it would be too expensive to go deeper, and that in his opinion, from the gas and oil indications found in the first and second sands, there is certainly oil in that vicinity.

The directors decided to stop drilling and if they can raise the required amount of money will put down another test well. The next well will probably be put down on the opposite side of the river from where the first one was drilled, which will locate it in Centre county. Mr. Grove stated that the water is flowing continually through the casing of the last well drilled.

**Trouble for two.**

On Monday evening Policeman Funk, of Philipsburg, brought to Bellefonte and lodged in jail J. S. Bennett, aged 32 years, of Philipsburg, charged with adultery and forgery. On the same evening Constable Martin Cowher, of Port Matilda, arrived in Bellefonte having in custody Harry Frantz, a 15 year-old boy who was arrested near Sandy Ridge on Sunday for stealing a horse from a man named Gray, living near Stormstown. Both cases will come up in the November term of court.

**May Not Recover.**

About three weeks ago Alexander McCoy, of Potters Mills, met with a very painful accident by having his hand crushed in a corn husker. Owing to his old age the shock to his nervous system was very severe and there are grave doubts as to his recovery. Instead of getting better Mr. McCoy has gradually been getting weaker and it is now thought that it will be impossible to get well again.

**Gold Again.**

Tussey Mountain Mining and Smelting Company, of Henrietta, Blair county, recently had an analysis of the gold-bearing quartz of their new mine made and it was found to assay \$30,000 to the carload. This is equal to the best quartz even in the most notable gold fields.

**Oil Fever High.**

A letter received from J. A. Hecker-dorn, of Karthaus, one of the directors of the Salt Lick gas and oil company, states that the oil and gas fever is very high in that locality, and that shares are being rapidly taken.

**Near Future.**

The Sandy Ridge fire brick works, which have been idle for a year past, but doing a small amount of work during the past four weeks, will resume operations on a more extensive scale in the near future.

**Dont Shiver.**

When you can buy clothing at such remarkably low prices as now prevail, at the Philad. Branch, it is a mistake to stand about shivering and shaking. Clothing never was so low in price.

**Teachers Institute.**

Prof. Gramley has completed all arrangements for holding the annual session of Teacher's Institute, commencing on Monday, December 16th, in the court house, at Bellefonte.

**Notary Public.**

On Wednesday morning Chris H. Murray, Esq., filed his bond having received a commission as a Notary Public.

**OF INTESTEST TO HUNTERS.**

The Fine for Trespassing Changed by a Recent Act.

The last legislature passed a new trespass law which will be of interest to gunners, now that the season for rabbits is open. Under the old law the smallest penalty for trespassing was \$5, but under the new act of assembly the penalty imposed cannot be more than the damages done. There is an idea prevalent that hunters cannot be arrested when there are no notices posted or published forbidding trespassing on individual property. This is a mistaken idea. Suit can be brought against hunters even if there are no notices, although recovery can only be had for the actual amount of damages.

Farmers are beginning to object very strongly to the large number of men with their dogs, who roam over their properties in their pursuit of game, claiming that many fences are broken down, or opened to pass through and never closed, and it is also alleged that many have no scruples against bagging turkeys and chickens, when no one is about.

The part of the new trespass law affecting gunners says "that anyone who shall trample or in any way injure any grass or grain, shall pay a penalty not exceeding \$50 for each offense."
