THE republicans recently attempted to linker with tariff and were defeated by anumber of their own party in the sen-Me don't want any more monkeying with the tariff. Business men want a rest.

CARTER, chairman of the Republican National committee, has come out flatflotted for cheap money, lots of it and only good to burn. When one of the leaders plays a hand like that it is easy determine what that party's future

THERE is considerable shifting about among republican politicians in this state find Senator Cameron's successor. Many are anxious to step in his shoes, but now the report comes that Mr. Cameron has changed his mind and will ask

THE Free Silver people can expect very little favorable legislation for some years. Congress is positively against them and will remain so. The coun try is opposed to the silver standard and will likely entertain the same sentiments for years to come. A good dollar, worth a gold dollar, is what we want what we need, and will have.

THERE is no danger of us having a war with Spain. She has enough to do in trying to subdue the Cuban insurgents and cannot afford to make more trouble. The outburst of the Spanish mob indicates their feeling of what they would like to do with America, but can't. No, Spain will not hunt any trouble with us. When she does, Cuba will be annexed to the United States.

THE next Democratic state convention will be held at Allentown, Pa., on April 29th, 1896, to nominate two candidates for Representatives-at-Large in congress, and thirty-two candidates for Presidential Blectors, and sixty-four delegates to the National Democratic Convention. Other **Business** of importance will be transacted on this occasion. Centre county is entitled to five delegates. These remain unchosen and it may be necessary for our county chairman to convene the county convention for that purpose.

AMONG democratic politicians there is so commotion as to the naming of presidential candidates. Wm. C. Whitmey will not allow his name to be considered. Cleveland we hope is not so ambitious as to ask for a third term. Carlisle would be a strong man. His views on finances and the tariff would make him strong with the people. Pattison is also prominently mentioned but we for the position as Secretary Carlisle whose life has been devoted to matters of state. Pattison would inspire confidence among the people and would make a strong candidate.

CHAMBERSBURG Public Opinion is one of the few republican organs of the day whose confessions touching the expensive record of the last legislature are truly refreshing. The Public Opinion has been looking over the accounts of the past reform legislature and finds that the general appropriation bill allows \$1,-\$16 to pay the salaries of State officers and clerks, where the same approtion under Gov., Pattison amounted \$552,659. This item of reform costs the state alone \$817,157 more than has ever before been required to run the de-The senate and house tother cost \$601,871 or \$57,512 more than When the previous legislature. REPUBLICAN DEFEAT.

While our republican friends are exulting over their prospects of securing the presidency in '96 a sudden chill has come over them. A Western Free Silver cyclone has sent a chill into the very marrow of their bones. For years they have followed the course of admitting Western Territories to Statehood, mere vest-pocket colonies, to give them the control in the U. S. Senate and the Electoral College. In the last presidential election these little states were a boomerang. Instead of falling in the republican column they came in with a sweep for the Populist ticket, and thus their fondest hopes were destroyed.

The same fate threatens them in 1896. This time the silver party threatens to cause all the trouble. Thomas Carter, chairman of the republican party, has sounded the warning, that unless the republicans, in the majority in the House and Senate, recognize in a favorable manner the Free Silver movement, the Western states will desert them in the presidential contest. It is a significant threat and means much-the same fate as in 1892. In the vote in the U. S. Senate, on Tuesday of last week, by which the republican tariff bill was defeated, it is evident that the Free Silver men are determined. The importance of the vote is the assurance that thirteen electoral votes from states counted on as republican will be lost to that party in the next Fall campaign, as follows :Colorado 4, Utah 3, Montana 3 and Idaho 3. Some of the free coinage men claim, that in case the St. Louis Convention should not put a free silver plank in their platform 49 electoral votes will be taken from the republican column. In these votes the nine from California and the same number from Kansas are counted. In the course of Senator Sherman's remarks, he said as to the silver question, in reply to a question by Senator Harris, that matter had been settled, that "most foolish and dangerous policy." He produced figures to show that the 20 silver State Senators represented a population not equal to that of New York State, and argued from this that the Senate did not represent either the people or the popular sentiment of the country; that the House was the real representive of the people, and that body had spoken in decided terms on the silver question.

Thus it is, the republican party, full of hope and confidence, is apt to be mown down by the children of their own creation-the vest-pocket states from the far west.

PUBLIC DEBT DECREASES.

The debt statement issued last Monday afternoon shows a net decrease in the public debtless cash in the treasury during February of \$15,978,764. Total cash in the treasury \$858,811,830.

The above is the official statement from Washington, yet every week Harter declares in the Gazette that the democrats are increasing the public debt. Which is the more reliable, the Gazette or the official statement? Who knows the most about the public's finances, the Gazette or the government officials? In this little controversy you can take your choice, as to the facts.

United Evangelical Conference.

The second annual session of the United Evangelical church conference will be held at Newberry, commencing Thursday, to-day, to continue over Sunday. The conference consists of 100 ministers in the active work with the same number of lay delegates. Bishop R. Dubs, D. D. L. L. D., of Chicago, will preside. The boundaries of the conference comprise the territory in Central Pennsylvania, from Baltimore, Md., in the south to Seneca, N. Y., on the north. The first annual conference of the United Evangelical church was held at York in March, 1895, and immediately following the disruption of the Evangelical church of North America, the conference of the United Evangelical church was organized.

Passenger Rates Reduced.

The Central Railroad Co., of Penna., has reduced the passenger rates from Bellefonte and intermediate points to Philipsburg and stations west of Philipsburg including Clearfield. Good service added to the fact that there are no tedious transfer points has made this line doubt if he would be as well fitted between Bellefonte and Philipsburg the popular route. It is not the most direct road to Philipsburg, but by reason of close connection it is the shortest in point | lyn. of time by more than one hour. 3t.

A Mistake.

On Monday Mr. Vinton Beckwith, o Taylor township, was in town and called. He informed us that a clerical error in the return sheet from his town ship stated that G. M. Walk was elected constable for that district. Our report, copied from this sheet, contained the same error. Mr. Beckwith was elected and now is the acting constable for Taylor township.

Will Convene Friday.

The annual session of the United Evangelical conference will meet in the new Evangelical church at Newberry Friday evening, and will continue until the beginning of next week. Bishop Dubs will preside. There are about 100 ministers and about the same number of lady delegates in the conference.

Possibilities of the Cathode Ray. Ordinary people, who don't buy

bonds, are talking more about the Roentgen discovery than about anything else. It is the most genuinely astonishing thing in science since the invention of the phonograph. The medical aspect of the discovery, which may lead to the photographing of onc's internal organs as a preliminary to every visit to the doctor, is possibly the most interesting side of the matter; though the promise of a French savant to so adapt the "cathode rays"-if they are the cathode rays-to the eyes that we can all see through solid substances, may be the most startling feature of all. If the day should ever come, says the Boston Transcript, when that should be done, what a world of humbugs would be at an end! Clothes, of course, after that would be worn simply as a protection against cold. Everybody could see how much money everybody else had in his pocket. Skeletons would be visible in carefully-locked closets. We could begin to feel that the very scorets of our hearts were be- event. In the reserved gallery were many ing laid bare. And even now we see rather more than is good for us. Let us hope, on the whole, that the cathode rays will be left to the camera. That is bad enough!

THERE is probably no other city in the world where such an annual increase of population has to be provided for, as in Chicago. The city is growing at the rate of 65,000 yearly, and 13,000 of this number are children of school age. Fifteen new buildings are imperatively required to accommodate this increase, and 14 more for the nearly equal number of children now housed in rented rooms. But, fortunately for Chicago, her board of education does not have to cope with this tremendous problem with the feeble means that are at the disposal of too many other cities. It is not dependent on councils for school funds in Chicago, but has been empowered by the legislature to make a five per cent. levy on real estate in the city, two-fifths of which may be used for salaries and three-fifths for building purposes-"a sum amply sufficient to provide wholesome and comfortable accommodation for every child of school age in the

Two BROTHERS who had been separated for 42 years, each thinking the other dead for more than 30 years, were reunited in Cochran, Ga., recently. Their name is Ingram, and one is a hotel proprietor in Cochran. They parted in 1854, and at the outbreak of the war lost all trace of each other. All efforts of each to learn the other's whereabouts at the close of the war were unsuccess ful, and each mourned the other as dead, A week or so since a commercial traveler stopping at Mr. Ingram's hotel in Cochran remarked that he knew a man named Ingram in Pike county, Ala. who bore a strong resemblance to the hotelkeeper. From what the traveler related Mr. Ingram thought the Alabama man might be his brother, wrote to him, and found that he was. Soon afterwards the two brothers met in

CALIFORNIA and Mexico have a new competitor in the matter of supplying oranges to the rest of the world. The oranges grown near Jerusalem are light in color, of oval shape, and the fruit is packed with more care than that from other countries. The first consignment, which reached this country recently, attracted much attention. The oranges were grown between Jerusalem and Jaffa and are worth be tween \$4 and \$4.50 a case.

THE receipts of the 30 largest post offices of the United States for the month of January, 1896, amounted to ents, and the newspapers here confirm the \$2,942,340, a net increase over the first month of 1895 of \$215,000. All the offices show an increase except San Francisco and Milwaukee, where the decreases were \$723 and \$5,606 respectively. ENCOURAGING CUBANS.

The House Also Passes Resolutions Favoring Recognition.

SPAIN'S APOLOGY FOR OUTBREAKS.

Though That Government Is Doing Its Best to Suppress Demonstrations Against Uncle Sam, the Feeling of Hatred Is Still Manifesting Itself.

WASHINGTON, March 3 .- "Cuba libre" had a field day in the house yesterday. Despite the war talk from Spain, the insurgents in Cuba were eulogized and sympathized with in a two hours' debate, and the rules were then suspended and the resolutions by the house foreign affairs committee were adopted as a substitute for those of the senate by an overwhelming majority-263 to 17. An analysis of the vote shows that 188 Republicans, 70 Democrats and 5 Populists voted for the resolution and 9 Republicans and 8 Democrats against them.

The setting of the scene was brilliant. The galleries were black with people attracted by the prospect of the stirring

prominent personages. Even the diplomatic gallery, which is usually empty, was thronged with the representatives of foreign countries. On the floor the attendance was the largest of the session.

Owing to the brief time allotted for debate members were fortunate in securing two or three minutes to present their views. Mr. Hitt, chairman of the foreign affairs committee, in opening the debate was very careful not to say anything that might prove offensive. He referred to the consular reports as adequate proof that a state of war existed, and argued that Spain, which had recognized the Confederacy before the battle of Bull Run, could not take offense at our recognition of the

Mr. Turner of Georgia, who led the opposition, refused to credit the stories of butchery by the Spaniards, characterizing the reports of our consuls as a "dreary record of mutual incendiarism and assassination." He said he was opposed to recognizing belligerency for reasons that General Grant had given between 1868 and 1878. He also sneered at the president of the Cuban republic, a citizen of the United States, who is here.

Mr. Adams of Pennsylvania, who was minister to Brazil at the time of the estabwith pride to the fact that under Mr. Blaine's dictation he had been the first to recognize the provisional government. Mr. Boutelle emphasized his position of last week against the adoption of resolutions that might lead to war.

The announcement was a signal for an enthusiastic demonstration.

It is believed that the senate will accept the house resolutions. Early in the day the president gave out a dispatch received from Minister Hannis

Taylor, at Madrid, saying that the minister of state had expressed deep regret for the Barcelona outrage, and offered com WASHINGTON, March 4 .- The president

and his cabinet undoubtedly are strongly opposed to the present recognition of th belligerency of the Cuban insurgents, and to any declaration concerning their independence as embodied in recent congressional resolutions. While the president and the members of the cabinet personally feel the sympathy common to all Americans with those Cubans who are contending for self government, they feel that in their official action they should not depart from the well settled principles which were followed by former presidents and secretaries of state during prior insurrections in Cuba.

In addition, Spanish naval officers and marines are to be attached to the Spanish mail boats, which are to be armed and equipped as auxiliary cruisers. The greatest activity is being displayed in the gov-

ernment dock yards. A number of students assembled in front of the university with the intention of making a demonstration against the United States, and their intention was to mob the United States legation. But the authorities got wind of the affair, and prevented the demonstration.

The day was not so quiet elsewhere in Spain, and attempts at noisy demonstra-tion of protest against the United States have been reported from several points. Barcelona maintained the reputation it made on Sunday for fomenting unfriendly demonstrations against the United States. and the mounted gendarmes were kept busy patrolling the city and dispersing their wrath upon the representatives of the United States government. Renewed attempts were made by crowds to do violence to the United States consulate. They were repeatedly charged by the police and dispersed, only to form in some other place with a persistent determination to do their will upon the consulate. The ac-tivity of the police prevented them from breaking windows in the consulate build-ing and tearing. American flags which they had purchased for the purpose, as they did on Sunday.

COWAN'S BIG STEALINGS.

Said to Have Appropriated \$100,000 to \$150,000 of Others' Money.

PITTSBURG, March 4 .- One of the most stupendous swindling operations that has occurred in this city within recent years has been brought to light by the disappearance of John Cowan, of the lumber firm of W. G. Cowan & Sons, who left Pittsburg last Saturday morning and whose whereabouts are unknown. amount of his defalcations, it is said, will aggregate between \$100,000 and \$150,000, the most of which he is supposed to have

arried away with him. The victims Cowan has left behind him include lumbermen in every section of the country, salesmen and employes in his office and his stepmother, the widow of his father, whom he has left financially ruined, her little fortune of about \$15,000 and property valued at \$20,000 being entirely swept away. The largest creditors are L. A. White, a lumber manufacturer of Corey, who places his loss at almost \$20,000, and William Aplers, of the Aplers Lumber company, of Allegheny, whose loss will be about \$18,000. There are about 250 others who are out in sums ranging

from \$40 to \$4,000. Cowan is 28 years old, and has been married about a year. All the money he left his wife was \$14. W. G. Cowan, the father of the missing man, died about six months ago, since which time all of the crookedness charged has been accomplished. At the time of the elder Cowan's death the business was earning about \$10,000 a year. Creditors say the young man has been enabled to accomplish his ends by trading on his father's good name.

Steamer Bermuda Released.

NEW YORK, March 4. - The United States government yesterday abandoned all proceedings against the alleged Cuban filibustering steamship Bermuda. Attorney McFarlane received a special order from Washington yesterday afternoon ordering the vessel released from custody. The dispatch also ordered the release of all the arms, money, ships stores and other things seized by the United States marshals and directed that they be placed where they were originally found. The dynamite and ammunition, however, is still held, as the carrying off this portion of the cargo without a license was a violation of the United States statutes.

The Horsa's Captain Convicted.

PHILADELPHIA, Feb. 29.-The jury rendered a verdice of guilty before Judge Butler in the United States district court yesterday in the case of Captain J. H. S. Wiborg. First Mate Jens P. Petersen and Second Mate Hans Johansen, of the steamship Horsa, of the charge of beginning a military expedition for the carrying of men and arms to Cuba to aid the insurgents. Their counsel, Captain Ker, at once gave notice of a motion for a new trial. Judge Beitler said the motion could be made any time within four days. Meantime the men were released on bail.

WASHINGTON, March 4 .- The British am-Venezuelan minister, Senor Andrade, have entered into direct negotiations for a settlement of the Uruan incident, which re sulted in the argest of a British police official in the territory in dispute between Venezuela and Great Britain, the hauling down of the British flag, and a subsequent demand for an indemnity upon the part of Great Britain.

Plot to Assassinate President Faure. Paris, March 3 .- Three Spaniards and an Italian, who were on a train bound for Lyons, were arrested at Valence for traveling without tickets. When searched by the police the Italian was found to have a dagger and one of the Spaniards a razor. All the prisoners said they were going to Lyons to see President Fours. Some of the newspapers declare that the men were

in a plot to assassinate the president.

General Garcia's Hearing Goes Over. NEW YORK, March 4.- The hearing be fore Commissioner Shields in the cases General Garcia, Captain Hughes, Captain Brabazon, Benjamin J. Guerra and Berpardo J. Bueno, accused of having violated the neutrality laws in connection with alleged fillbustering expeditions upon the steamships Hawkins, Bermuda and Laurada, has been adjourned until next Saturday morning.

Ford Gets Off with a Fine.

THENTON, March 4 .- Bernard J. Ford, the former state house superintendent who pleaded non vult to several indictments against him, as a result of the senate investigation, was sentenced yesterday by Judge Woodruff in the Mercer court to pay a fine of \$1,000. Ford had previously paid in the state treasury about \$1,600, the amount he estimates the state lost through his transactions.
