FRANCE AND ENGLAND.

British Expedition Up the Nile May Cause Trouble.

THE APPREHENSION IN FRANCE.

M. Berthelot, the French Foreign Minister. Has Asked for Information from Great Britain's Ambassador-An Understanding Between France and Russia.

PARIS, March 18 .- The French govern ment up to this time has not defined its position towards the British proposal to dispatch an expedition up the Nile. There is reason to believe that the proposal came as a surprise to the French government. French statesmen had been entertaining the hope that an opening of negotiations was near at hand looking to the evacuation of Egypt by the British troops. Next to the sovereignty of Germany over Alsace-Lorraine probably the greatest source of irritation known to French diplomacy is the British occupation of Egypt. The present move on Great Britain's part is doubly irritating, coming as a check to hopes which French statesmen had allowed themselves to entertain.

The first intimation came yesterday of the probable course which France will take in view of the new condition in Egypt. A sensation has been caused by she announcement made by M. Berthelot, minister of foreign affairs, in the cabinet meeting, that he had asked the British ambassador, the Marquis of Dufferin, for information regarding the proposed advance of British-Egyptian troops up the Nile, and he pointed out to him the serious consequences of such an advance. This warning note may be a preliminary to more decided steps.

The foreign minister's announcement was eagerly taken up in the lobbles and in the chamber of deputies, and was the exclusive topic of discussion. The prevailing sentiment expressed was one of indignation at the course adopted by Great Britain, and the general feeling is that France must adopt a decisive tone in dealing with the matter.

A semi-official statement was given out last evening reflecting the opinion of the government on the subject, although M Berthelot had decided to postpone making the formal statement in the chamber of deputies on the attitude of the government towards the proposed expedition.

"The proposed advance up the Nile, says this inspired utterance, "is a great surprise to the government, and will serve to embitter the anti-English feeling in France at a time when a better entente was promised."

This is a reference to the London agree ment of Jan. 15, bearing on the delimitation of English and French possessions on the Mekong, with substantial advantage to France, the appointment of commissioners for fixing the boundary between the French and English possession of the lower Niger, and the opening of negotiations for a fresh convention respecting Tunis.

The government's semi-official state ment further announces that Great Britain's explanation, that the advance is necessary in the interest of Egypt, "is viewed with scepticism in France.'

France is not deciding upon the course she will pursue without a full understanding with her Russian ally, and it is announced that numerous telegrams have passed between Paris and St. Petersburg day on the subject. It is understood

MORGAN AND DE LOME.

The Alabama Senator Assails the Spanish Minister.

THE LATTER TOO PRESUMPTUOUS.

The Senator Intimates That the "Supercilious Foreign Minister" Has Been Guilty of Utterances Which Warrant His Recall-Alleged Spanish Cruelties.

WASHINGTON, March 18.-The Cuban debate in the senate is drawing to a close, and the expectation is that a final vote will be taken within a day or two, and possibly late this afternoon. Mr. Sherman is keeping the question before the senate continuously, so that the speeches are not likely to last much longer. Mr. Morgan, of Alabama, occupied almost the entire session yesterday, speaking until 6 o'clock in the evening in support of the resolutions. He spoke of the super-sensitiveness of Spain, caused, he said, because she felt the sand slipping from under her feet, while the gem of the Antilles was passing out of her grasp. Spain had sucked this orange well nigh dry, until the sweetness was about exhausted.

Mr. Morgan said the Spanish minister's statement, made public Monday, was a most weak effort. It had been kept in secret doubtless because all its prophecies of subduing the insurgents were disproved by facts. The Spanish minister pleaded that the insurgents would not come out for an open fight, for the etiquette and chivalry of Spanish warfare. And yet, com-mented Mr. Morgan, the insurgents free their prisoners, being unable to feed them, and they maintain no prisons such as the Spanish have at Ceuta, Africa. Spain's conduct of the war in Cuba ran with blood.

The senator referred to Minister Dupuy de Lome's "celebrated diatribe" criticizing senators and appealing over their heads to the American people. Such an act by a "supercilious foreign minister" was most remarkable, and it would be high time for the American congress to retire if the American people ever listened to the appeal of a foreigner, calling in question words used in debate. It was a presumptious act for the minister to misquote him (Morgan), and he had lost respect for the minister as a gentleman for adopting a misquotation in order to ap peal to the American people. Mr. Morgan reaffirmed his original state-

ment that 43,000 Cuban prisoners had been murdered in the last war, according to an official statement. The law shielded a foreign minister from prosecution for any libel for any poisonous language he might emit, and the only remedy was the dis-missal of the minister by the president. And when a foreign minister attacked congress he abused this legal protection

given him as a diplomatic representative. The senator said he was supremely indifferent to what Minister De Lome might say in criticism of him, but he regarded the minister's course as involving a serious public question. He went on to say that it was essential that foreign minis ters be reprimanded, and if need be dismissed, for assaults on senators for words nsed in debate.

The senator then had the clerks read the reply of Gonzales Quesada, secretary of the Cuban junta, to the Spanish minister's letter. It related such shocking details as to indignities on naked Cuban women by Spanish troops that Mr. Chandler urged that the statement be printed, but

Must Use The Knife.

Said the Surgeon, but Dr. David Kenedy's Favorite Remedy was taken and the Knife Avoided.

The Union and Advertiser of Rochester, N. Y., recently published the following interesting account of how William W. Adams of 127 South avenne, that city was saved from a painful operation by the use Dr. David Kennedy's Favorite Remedy.

Mr. Adams said : "Three years ago I was taken with kidney disease very badly; at times I was completely prostrated; in fact, was so bad that the day was set for the doctors to perform an op-eration upon me. But I decided I would not submit. I had been put in hot water baths, and, in fact, nearly every

means was tried to help me. Upon the day set for the operation I commenced the use of Dr. David Kennedy's Favorite Remedy, and from that moment began to gain, and it was not long before I was entirely cured and have had no return of the trouble since. My weight

has increased and I never was so well as I am now. I have recomended

DR. DAVID KENNEDY'S

to many people, for it saved my life."

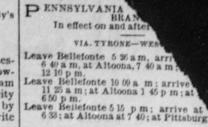

In speaking to Mrs. Adams, she said "About a year ago I was in a very feeble state of health, being completely run down. I had doctored considerably, but without permanent relief. One day one of my neighbors advised me to take Dr. David Kennedy's Favorite Remedy which I did. My trouble was dyspepsia and for a long while I was unable to be about at all; but after taking a few doses I was completely cured, and now enjoy good health."

Hundreds of men and women with that "run down" condition, unable to have recovered health and work, strength through this remarkable rem-edy. It purifies the blood, stirs the liver and kidneys to a healthy action. In cases of rheumatism, kidney, liver and urinary troubles, it is a wellknown specific.

here that Great Britain also sounded the Russian government before announcing the Egyptian program. But the action of the czar yesterday in conferring upon the Negus Menelek the military order of St. George is accepted as peremptory notice that Russia has no sympathy with Great Britain's plans for aiding and relieving the Italians in Africa.

France fears that the Egyptian advance to Dongola covers a British advance to Khartoum and to Uganda and an interference with her prosperous colonial expansion in Central Africa. The British occupation of Egypt is sufficiently galling in itself, but more so in its threats to French plans in Africa beyond Egypt.

Rev. Dr. Brown May Lose His Church. SAN FRANCISCO, March 18 .- A verdict has been reached in the case of Rev. C. O. Brown, and the committee on findings has declared the minister guilty of conduct unbecoming a Christian minister. The report will not be made public until after it has been submitted to the Congregational church, which will be probably tonight. It is believed the report of the council will exonerate Brown on the charge of immorality, but will find him guilty of unministerial conduct. Upon the precise wording of the report under the ministerial conduct specification will depend Dr. Brown's future. The council may or may not fix the punishment, but even if no penalty is mentioned a severe condemnation by the council would result in Brown's loss of his church. Should this occur the pastor's friends declare they will form a new church for him in the city.

Cowardly Defense by Spaniards.

HAVANA, March 14 .- Residents of Seiba del Argus, in Havana province, have arrived here and tell the following: A large party of insurgents appeared near the town on Saturday. The Spanish garrison immediately took from their homes all the Cubans in town, and at the point of the bayonet compelled them to stand in line in front of the garrison. The invaders seeing unarmed men standing in front of the Spanish troops withheld their fire, and finally withdrew without making any attack.

CINCINNATI, March 18 .- Jackson and Walling, the indicted murderers of Pearl Bryan, are in the Newport jail. John Bitzer, the jailer, has increased the number of his guards, and the police of New-port have been instructed to exercise great vigflazce.

Mr. Morgan assented, but Mr. Hale in sisted that the statement be read in full in order, as he said, that its credibility might be judged. Mr. Morgan said he did not wouch for the truth of Senor Quesada's statements, but he asserted that Quesada's character was quite as good as that of Minister De Lome.

Mr. Morgan read further evidences of Spanish cruelty in Cuba. One referred to the massacre of seven young men who were stood against a wall and shot to pieces by a regiment of soldiers. The massacre of the students, he said, was historically established beyond a question.

Mr. Morgan went on to read from personal letters received by him, giving the experience of men in Cuba. The letters told of violation of girls and the massacre of women and children. Six men gathering bananas were killed and bananas stuffed down their throats as a joke. A Cuban general was stripped of his clothing and exhibited before crowds of women and then killed and his body dragged a mile. A beautiful girl was torn from her mother and carried off by a Spanish offleer. Mr. Morgan said the writer was a graduate of the Virginia Military academy.

More Rebel Defeats in Nicaragua.

MANAGUA, March 18 .- The city of Managua is in a frenzy of excitement and rejoicing over the news received of three great victories scored by the government forces yesterday over their opponents, the Leonist rebels. The city of Metapa was taken by storm after two days' hard fighting. The capture was attended with terrible slaughter, news from the scene place ing the number of killed and wounded as high as 1,000 men. Metapa was considered the stronghold of the rebels, and was counted upon by the insurgents to fall back upon as a last resort. The town of Mora also succumbed yesterday to Zelaya's arms, with heavy rebel losses.

Both were found dead in the room last night, having been shot with a pistol, which lay on the bed between them.
