SILVER DOLLARS FOR SNOWBALLS.

A Little Game Which Some Boys Hugely Enjoyed.

A Port Townsend letter in the Seattle Post-Intelligencer is as follows: Three years ago this spring Peter Wilborg left his home in California for Cook Inlet, Alaska. For nearly three years he worked unceasingly in the gold regions. Last November he came back to the States on a visit, bringing with him \$48,000, in gold dust and nuggets. After banking \$35,000 in San Francisco he started out to have a good time on the remaining \$13,000. He spent four months in the Eastern and Southern cities, spending the larger part of his pocket money. To-day he left here on the steamer City of Topeka on his return to the Alaska gold fields.

While the steamer was lying at the wharf he amused himself by throwing double handfuls of silver dollars at the boys on the wharf. Every boy who could hit the eccentric Alaskan miner with a snowball would get handful of coin thrown at him in return. Wilborg appeared to enjoy the sport and of course the boys did. As the boat pulled out from the wharf he pelted the boys with money as long as he was within throwing distance. During Wilborg's three years of exile his only companion was a dog. On his return to-day he had two dogs, which he will take to his lonely retreat in the far north. He expects to remain another three years.

A wife and two sons survive him.

No Corns Here

There is no good reason why there should be such things as corns. There is a reason, however, but it isn't a good one. The reason is that people buy and wear ill-fitting footwear that makes corns faster than chiropodist can cut them off. All this is caused by not beginning right. If you will bring the children to me, and take the Shoes I recommend, and keep on bringing the children year after year, those boys and girls will never have to spend a cent for corn medicine.
