right, but the report now comes that Boss Quay has expressed a desire not to have such a vote take place, and the readers of that "truely good" paper will be treated to the delightful spectacle of seeing its editor craw-fish into his hole-that is going backward and draw the hole in after him. But what else can be expected of a subsidized sheet-one that gets the very air it breathes from the bellows worked by the bosses.

The Republican voters are for McKiney, but the Hastings crew are now for Quay. For that reason no popular party vote will be taken.

THE Republican primaries to select delegates to the state convention, will be held on April 11th. Chairman Gray has issued his edict to that effect.

EX-SENATOR Wm. A. Wallace, who has been ill for some time in New York city, is not in danger. His many friends in this section are much concerned about him!

On account of certain parties being dissatisfied, the county chairman N. B. Spangler, has reconsidered his intention of calling the county committee together to elect delegates to the coming state convention. The convention of last year will be reconvened. The following correspondence will more fully explain the situation :

The bureau of statistics at Washington Hannah sends out a statement of the imports and exports for February and for the eight .Port Matilda months of the current fiscal year. During February of 1895, there was sent abroad \$55,982,734 worth of merchandise and for the same period this year the exports amounted to \$77,710,938, a gain of A NUMBER of new announcements ap-

38 per cent, or more than \$21,000,000. During the eight months ending in February of last year the exports were valued at \$557,885,668, and for the same time ending with February of this year the valuation increased to \$602,614,981. In imports the aggregate for the eight months of last year was \$466,233,616, while for the same period covering the fiscal year ending last month they were \$541,312,774.

Drew a Rifle.

For some time the Eighth Regiment people at Harrisburg had been chancing off a handsome rifle. Among those who bought chances on it were Mr. Williams of Bellefonte. Last Saturday when he was notified that he was the winner. It is a Colt's 15 shooter, calibre 44, and is a very fine gun.

Executed in the Fortress of Cabanas by the Spaniards.

ALLEGED MURDERERS GARROTED.

Another Prisoner Sent to the Spanish Penal Colony in Africa-Troops Said to be Pursuing Maceo-General Weyler's Reported Recall Denied.

HAVANA, March 31 .- The insurgent leader Enrique Aleman, a brother of the celebrated insurgent leader of the same name, was shot yesterday in the Fortress of Cabanas. Five negroes, convicted of murdering families at Cayajayaboa were garroted today.

Abelerdo Font, who was taken prisoner on the Olivette last week, has been sent to the African penal colony.

The authorities of the war courts are investigating and gathering all the facts in the case of Walter Grant Dygert, the American who has been imprisoned for working with the insurgents, and whose case has been the subject of representations by the United States government. The authorities are striving to clear the matter up in order to determine whether to indict Dygert or not.

The insurgent leaders Vicente Nunez and Eduardo Garcia, with a force estimated to number about 1,500 men, are encamped at the plantation of Magdalena, district of Santa Ana, province of Matanzas. They have burned fourteen houses belonging to the little colony of Estrella, near Palmillas, province of Matanzas, and have destroyed a number of canefields in central Felicia and Alfonso Doce. The insurgent leader Angel Castillo has burned, near Puerto Principe, a fine farm and a number of houses at Painta Maria; San Miguel la Carbonera, La' Josefina, Santa Rosa and other places which had good houses.

Columns of troops are pursuing Maceo without ceasing in the mountains of the Sierra Cuzco in the western portion of Pinar del Rio. At Guines, in Havana province, a party of negro insurgents have hung a white man named Ceferino Perez. The insurgents have burned thirty houses in the village of Jamanitas and the farm of La Herminia, near Marianao. They have also burned 635 tons of sugar cane near Palmillas, in Matanzas.

It is reported that Maximo Gomez, with only 600 followers, has passed into Santa Clara. It is said that he passed by Placetas in the direction of Sancti Spiritus. Twenty-six prisoners have been sent to the Fortress of Cabanas, including the exmayor of San Nicolas, Ignacio Pizarro,

who is charged with conspiring with the insurgents to enter his village. The insurgents have made another attempt to pass through the military line drawn across the province of Pinar del Rio. This time they tried to get through in the southern part, but were repulsed. Rumors of the recall of Captain General Weyler are pronounced to be untrue, and he is said to continue to enjoy the com-

plete confidence of the Spanish government. A guerilla captain named Niguero, in combination with the crew of a gunboat, landed at Manzanillo, fought a band of insurgents at Rincon, near Cabo Cruz. killing six insurgents, among them being the leader Carvino, who came with an expedition from Jamaica. The salt mines at that point were then destroyed.

For National Weal.

Much interest is felt in the aims and objects of the National Association of Manufacturers, which not long ago met for a business conference. The purposes of this convention are as follows: The fostering, extending and perfecting of home manufactures, and the establishing of new markets in foreign ports; the simplification of trade relations, between the United States and foreign countries; the subsidizing of United States ships, and the withdrawal, as far as may be, of subsidies from foreign vessels; the importance of the Nicaragua canal, and the extension and improvement of natural and artificial waterways; also the completion of connecting channels between the great lakes, the Mississippi valley and the Atlantic seaboard. This association is but year old, but includes in its membership some of the best-known and most influential names in the United States. All of the manufacturing and commercial interests of the country are to be carefully looked after and encouraged, and reciprocity treaties are to be established with countries where business connections give promise of satisfactory results. It is the intention of the association to organize branches in every state in the union, on a sort of federative pl.n. There is an executive committee and various subcommittees, composed of men able and willing to understand and carry out whatever may seem to the united body to be to the best interests of the land. That good will come of this, no one who realizes the importance of our manufacturing and commercial relations can

BAYARD COMING HOME.

It Is Believed at His Home That He Will Not Return.

WILMINGTON, Del., March 31 .- There is a strong supposition here that Ambassador Bayard is contemplating resigning from his post. While his friends refuse to give any definite particulars, they hint that Mr. Bayard is dissatisfied with the action of congress, and also that the drain on his private purse necessary to keep up the dignity of his diplomatic position has reached such a point that he can no longer maintain it. The story is not confirmed by his son, Thomas F. Bayard, Jr., but certain developments indicate that the ambassador means to return to this country for at least an indefinite period.

When Mr. Bayard took his family to England two years ago he rented his house at Clayton and Sycamore streets to Howard Pyle, the artist, and it was then generally understood that the lease was to extend until the time of Mr. Bayard's return to resume his residence here. dience to a notification received last week Mr. Pyle is preparing to leave the premises, and certain local contractors have been ordered to at once begin the work of renovation and repair.

The story of Mr. Bayard's return was rumored last week, when, it was said, he meant to visit this country next summer to participate in the campaign in Delaware. Local politicians, however, do not credit this theory.

Pretty Annie McGrath's Funeral.

PHILADELPHIA, March 28 .- The funeral of Annie McGrath took place yesterday from the home of her parents on Gratz street. Only relatives and a few intimate friends were admitted to the house, though there was a large crowd outside. The grief of the parents was extremely pathetic. Standing by the side of his dead child Mr. McGrath declared impressively: "My daughter was murdered." Meantime the police officials profess to have discovered no motive for the crime, though Miss Mc-Grath's friends assert that the motive is plainly apparent in the jealousy of an old man who was about to be deserted by his Among men of prominence whose youthful mistress. Miss McGrath is the young woman who was found dead on Monday of last week in a house on Girard avenue, which had been fitted up for her by S. P. Langdon, a wealthy mine promoter who called her his "wife." Langdon, who is under arrest, has made no statement.

Drowned While Fleeing from Flames.

JERSEY CITY, March 31 .- Pier 5. of the Erie railroad, at the foot of Ninth street this city, was burned at 5 o'clock in the morning. A number of tugs and Erie barges were located near by, and their occupants were panic stricken when they found themselves surrounded by flames Peter Hogan, Jr., aged 24, of the barge Milligan, jumped into the river to escape death by fire and was drowned. His father, Peter Hogan, captain of the barge, was terribly burned by the flames, which had spread to his barge. He may die. The loss is about \$50,000.

A New Governor for Arizons.

WASHINGTON, March 31.-The president yesterday sent to the senate the nomina-tion of Benjamin J. Franklin, of Arizona, to be governor of that state. The term of the present governor, L. C. Hughes, would not have expired until April 1, 1897. The appointment of Mr. Franklin is no doubt the result of a bitter faotional fight that has been going on in the state, in which charges and counter charges have been nu-1745. HON. JOHN G. LOVE, is a great admirer and warm friend of Major McKinley. After the war both young men entered the Albany Law School, where they became fast friends. Both graduated from the school in 1867, Judge Love is not in polittes, but he says if the Centre county people are allowed to express their preference, McKinley will carry it by a large majority.

THE republicans in Centre county are becoming agitated over the question of voting as to their preference for president. Some of the politicians would prefer to send the delegate from this section without any instructious, so that they could dicker. A vote from the people would put an end to that game. It is a question as to whether Quay or McKinley would be the favorite, among Centre county republicans. Who the politicians are for is quite uncertain.

REPUBLICAN journalism, in Centre county, must be exceeding profitable. Last Saturday Editor Harter purchased the handsome Dartt residence on Allegheny street, where he now can dwell like a prince. From that lofty tower in front he can view the surrounding landscape and gather inspiration for some more of his weighty editorials on the Hog Combine, or deride anybody and everybody who dare vote the Democratic ticket. Since Hastings has been at Harrisburg, his subsidized organ has been beaming with all the evidence of prosperity. Now the General and his pet organ will be near neighbors and can exchange their soft-soap courtesies at short range.

LET everyone, but especially those who are not inconveniently burdened with wealth, read these words from the New York Sun. The situation could no. be more patly or correctly described. Coming from a paper which has at times been suspected of fiat money leanings, the statement has double force.

"An esteemed correspondent asks us to describe the probable effects of the free and unlimited coinage of silver, at the ratio of 16 to 1, if that measure should be adopted by the United States. We are also asked to give details as to who would be benefitted by it and who would suffer and all the rest. We are sorry that neither our times nor our imagination will suffice for the task. All we can say is that, in the event mentioned, the dollar would become in purchasing power the equivalent of the present half dollar or thereabouts; and the consequences every one can work out for himself."

Here's a New Mosquito Remedy.

An enterprising young man, who is part owner in a boathouse down the river, claims to have discovered something that will be of inestimable value to mankind if experience proves its worth. The inhabitants of this down the river boatkouse were nearly torn to pieces by mosquitoes every time they attempted to sleep in the house at night. Screens seemed to be of no avail, and it looked at one time as if the house would have to be abandoned. Finally an old lady who lived in the neighborhood told them that she had not been troubled by mosquitoes for several for yesterday in the criminal branch of years.

Her remedy was astonishingly simple. She discarded all screens, and threw the windows wide open at night. Across the open space of the window she stretched a piece of red ribbon about two inches wide. "A mosquito," said she, "cannot be induced to pass that ribbon. Why it is so I do not know, but I know the natives of India take this means of baffling the vicious mosquito. It works to perfection here also." The young man followed instructions, and now declares that there has not been a mosquito in the boathouse since the ribbon was stretched across the doors and windows .- Philadelphia Record.

Dallroom Decorations.

One of the newest decorations for a hall or concert room is the flower halloon, covered with some pale colored silk and having the flowers to correspond with it. For instance, one of pale pink will have Malmaison carnations or La France roses; asparagus, fern and smilax are gracefully intertwined among the blossoms, and the base consists of a basket filled with greenery and tied round with ribbons. In manye silk and the wives and other relatives of the men orchids, or in a pale toned yellow, with Gloire de Dijonn roses, the effect is equally lovely. The electric light in these balloons is of 32 candle power, and they are most effective when used in a room which is not otherwise illuminated.-Philadelphia Ledger.

Plump-I declare, I'm glad I met you. You seem awfully hungry.

Lean-And well I might be. I hadn't eaten anything for 24 hours.

Plump-I'm afraid you are not having things just as you would like them. What are you writing now?

Lean-At present I am engaged in writing a work entitled, "Perils Which Environ the Wealthy." At odd moments I add something to my "Epicure's Cookbook." Do you know, I take an immense delight in that cookbook. It is almost as good as eating .-- Boston Transcript.

The Commodore Landed Her Cargo WASHINGTON, March 31 .- The treasury department has evidence tending to show that the steamship Commodore, which recently cleared from the port of Charleston. S. C., with arms and ammunition, did not lose her cargo in a storm at sea, as reported by her captain, but landed it on the coast of Cuba. In case the evidence, given by a fireman, is corroborated, the vessel, it is said at the department, is lia ble to forfeiture to the government for violation of the navigation laws relating to clearance papers.

Alleged Filibusters' Trial Again Postponed.

NEW YORK, March 31 .- The trial of the alleged Cuban filibusters, Bernardo J. Bueno, Captain Samuel Hughen, John D Hart, Captain Lawrence Brabazon and Benjamin Guerra, accused of violating the neutrality laws in connection with the steamship Bermuda, which was set down the United States circuit court, was adjourned until tomorrow by consent of counsel.

Keep the Fiag Flying.

CHAMPAIGN, Ills., March 28 .- New features have come to light in the action of the Champaign grand jury, which in dicted John P. Altgeld, governor of the state, and the other members of the board of trustees of the Illinois university for non-compliance with the state law requiring the United States flag to be floated over all public school buildings. The grand jury also brought in indictments against Father Wagner, pastor of St. Mary's Roman Catholic church, and Rev. Fred Veharn, pastor of St. Peter's German Lutheran church, for failure to comply with the law in not maintaining the United States flag over their respective parochial schools.

All Hope Abandoned.

WELLINGTON, New Zealand, March 28 .-All hopes of saving the sixty miners who were entombed in a mine at Brunnerton on Thursday by an explosion of firedamp, which killed five men outright, has been abandoned. The bodies of fifteen of the miners have been recovered from the pit, around which there are the usual scenes of distress, caused by the presence there of entombed. Many of the men engaged in the work of rescue have been overcome and there have been several narrow escapes.

Spain Will Again Apologize.

KINGSTON, Jamaica, March 30.-The American schooner William Todd, from Mobile, Ala., was fired upon by two Spanish gunboats, six miles off the Isle of Pines. Four solid shot crossed the schooner's bows after the schooner hoisted the United States colors. The vessel was boarded and searched by an armed boat's crew. Nothing of a contraband character rewarded the searching party.

The Eight Hour Strike Started.

CHICAGO, March 31.-What may develop into a strike which will paralyze the building industry in Chicago for a long period was begun yesterday. So far only about 800 carpenters are out, but the trouble is expected to spread until every one of the 13,000 carpenters in this city will have ceased work. The trouble is about an eight hour day agreement between bosses and carpenters.

FOREST fires cost Pennsylvania last year \$1,000,000. But this is a small item compared with the \$1,200,000,000 to the strength of the argument that there which the state forestry commission says has been lost in 40 years by the burning of young saplings in Pennsylvania. There are other losses connectrd with the wasteful destruction of forests, but these are enough to point | action for slander, brought by Mrs. Kitson, the moral.

An enthusiastic horticulturist, when he heard of the massacre of English missionaries in China, wrote in his farm journal: "While we deplore bloodshed, it must be confessed that the English and American missionaries are a selfish lot, lacking in patriotism. They never have sent a seed of the famous melons of Asia back to their own country."

LEAP YEAR clubs are forming in many parts of the country. The general idea of the clubs is to give private social parties at which the girls take the part isually taken by men. They invite the young men, call for them and escort function is held, and, it is alleged, foot the bills.

P. against the celebrated accoucher, Dr. Playfair, yesterday awarded Mrs. Kitson a verdict of £12,000 damages. The defense claimed that professional privileges entitled him to make the allegation, but the defense was not sustained.

She shows no regret for the shooting.
