FATHER'S AWFUL CRIME.

He Murders His Three Children, Then Takes His Own Life.

THE RESULT OF MORBID BROODING

Though Having Regular Employment, from Which He Had Saved \$1,500, He Feared That His Family Would Come to Want-Two Children Narrowly Escape.

CHICAGO, April 15. - While brooding over the idea that his family would suffer from want John Lehman last evening shot and killed his three children. After committing the terrible deed Lehman attempted to end his own life by hanging, but failing in this he turned the revolver upon himself and sent a bullet through his heart, killing himself instantly. The names of the dead are: John Lehman, 38 years old; Clara Lehman, 5 years; Bertha Lehman, 3 years, and an infant 4 months old.

For eight years Lehman had been in the employ of the West Chicago Street Railway company, and during the greater part of the time had been a driver on the Center avenue line. He had saved \$1,500, which is deposited in one of the city banks. The family lived comfortably and wanted for nothing. Notwithstanding that fact Lehman worried a great deal. He had a fear that some day his savings would be swept away and his family would be dependent on charity.

His malady gradually grew worse, and of late when at home he talked of nothing else. Mrs. Lehman and Henry Lehman, her young stepson, were away from home when the tragedy occurred. At 5:30 p.m. Henry Lehman returned and found that his father had killed all the children and himself. Minnie Lehman, a daughter who had not returned from school, was, besides Henry, the only child to escape, and both would have been killed had they been at home, for their father was asking for them a short time before Henry returned and found the bodies.

Murderer Holmes' Romance.

PHILADELPHIA, April 13.-The published "confession" of Herman Mudgett, alias H. H. Holmes, who is to be hanged in this city on May 7 for the murder of Benjamin F. Pitezel, is not generally credited. But the statement arouses great init is written, and the calm, cruel deliberation in which he explains how he took the fives of twenty-seven people, and was only prevented from carrying out six other murders because his plans were interfered with. The names of some of his victims, he claims, he cannot remember, which makes it evident that the arch-criminal has been romancing for the benefit of the newspaper syndicate which paid \$7,500 for the alleged confession.

SPAIN'S ANSWER READY.

Report That the President Has Communicated with Castillo.

THE REPORT NOT YET CONFIRMED.

A Madrid Dispatch Declares That Spain Will Fight Rather Than Relinquish Cuba or Yield to the Intervention of a Foreign Power.

LONDON, April 15.— A dispatch from Madrid to The Pall Mall Gazette says: Senor Canovas del Castillo, the Spanish premier, is ill and cannot be interviewed. His relatives, however, confirm the existence of a communique from President Cleveland, but in the present state of public feeling; it will be impossible for the government to accept his offer. While the government will do everything in its power to avoid a quarrel with the United States, it will prefer to fight rather than lose Cuba through foreign pressure. The coming cortes will grant Cuba every reasonable franchise to be enjoyed under the Spanish

flag WASHINGTON, April 15. - Nothing is known at the state department of any communication from President such Cleveland to the Spanish premier, Senor Castillo, as is referred to in the cablegram from Madrid. It is surmised here that the matter is entering into Spanish politics, and is perhaps being more or less distorted to serve party purposes.

The intimation of a purpose on the part of the Spanish government to grant a large measure of local autonomy to the Cubans confirms an understanding that has obtained here to the effect that the abuses of which the Cubans complain, and which have served as the basis of the present rebellion, will be largely abated by the Spanish government just as soon as this can be done without the appearance of compulsion, against which Spanish pride revolts, and it is, perhaps, a knowledge of this fact that has operated to shape the present attitude of our administration.

WILLIAMS GLAD TO BE RELEASED. He Speaks Highly of His Successor as Con-

General Fitzhugh Les is to be my successor. I know him and esteem his high qualities.

"This consulate is one of the hardest to manage in the service, on account of the fact that the greatest part of the claims to be pushed are those of former Spanish subjects who have become naturalized Americans. Add to this the fact of the resolutions of congress pending for decision before the government at Madrid, and the resulting strain in diplomatic relations, and we have a state of affairs that does not occur in the case of other nations."
