In two weeks it will be our opportunity to attend the republican circus in Bellefonte. There will be fun, you bet.

THE ticket is named in Centre county. There were the usual number of disappointments and defeats. No candidate honest with himself and the people can consistently go home and do anything else but give his hearty support for the same.

# CAMPAIGN OF MONEY.

# SOUTHERN DELEGATES BOUGHT LIKE CATTLE.

The Mask of Decency No Longer Veils the Corrupt Methods of Republican Politicians In the South-Longest Purse Captures the Most Votes.

The experience which the Republican party is now having in its conventions in the several southern states to choose delegates to St. Louis ought to come, and would come to a party led by dif. ferent men than the Elkinses and Claytons and Platts and Quays, with all the force of a demonstration requiring a change in the system of representation in national conventions. Everybody knows, and these gatherings at the south make it patent, that the southern delegates are to be acquired by those candidates who have most money to spend in getting control of their states. They represent nothing.

The Republican party there is only a name, and not a fragrant one. It cannot carry a state, elect a candidate or choose a member of the electoral college. The men whom it sends to national conventions simply make them, as a rule, an opportunity to turn their political pretensions to personal profit. Every four years there is a perfect carnival of corruption throughout the south in order to obtain the large and sometimes decisive vote of those states in the convention for some particular candidate. It was one of the most serions drawbacks to the Republican campaign of four years ago that Mr. Harrison's strength in the convention lay so largely among the southern delegates, who could contribute nothing to his election.

This year the buying and selling process is going on with more than usual tempt at concealment. With the rise to undisputed control in the party's councils of its most venal and least scrupulous element, the mask of decency that has veiled its operations in previous years has fallen off. The different candidates have massed their resources and are going through the southern states as Messrs. Frank Hess, of Philipsburg, stock buyers might traverse the cattle and B. F. Keistler, of Millheim, are com- ranches of the west. The man with the long purse captures most of the delegates, and it is not difficult to see where the funds come from. While the moral sense of the Republican party of the nation has fallen almost to the point of disappearance, we cannot think that this process will pass without its proper rebuke by the voters. It constitutes an element of weakness which will make it-

self felt later on.

There is no possible reason for the continuance of a system of representation which is based upon population instead of upon party vote. The strength of the southern states in the Republican Hugh S. JOHN HAMILTON, director of farmers' institutes, has completed an apportion. ment showing the number of days the Department of Agriculture will furnish two lec'ures to each county in the State for institute work during the season of 1896-97. The apportionment is made on the basis of two days of institute to every county having not over 1,000 farms, three days to each county having more than 1,000 and not over 1,500 farms. This insures department aid to each county in proportion to its agricultural interests.

MR. ANDREW CARNEGIE has profited by protection to the extent of millions of dollars. He is not a professional politician, and when he was asked whether he attributed the depressions and panics of the last few years to the agitation for a reduction in the standard of value he answered instantly and honestly: "I do. ner, conscientious in the performance of All other causes combined," he said, his duty, clever and obliging he will "have not affected the country to the extent that this has." He agrees with Mr. Roberts, the president of the Pennsylvania fit to keep such a man at his place a Railroad Company, and other competent and careful observers as to the nature of the difficulty. M'KINLEY AND QUAY.

Probable and Logical Candidates of the Republican Party.

Major McKinley has secured the Exposition building for headquarters during the national convention, says the St. Louis Republic.

For the favorite sons a back room on the top floor in any of the St. Louis hotels will be amplo. Several of them are not certain at this time of needing headquarters at all.

If they discover later that it is wise to maintain private consultation rooms, three or four of them can club together. Cullom and Manderson and Bradley, by hearty co-operation, might bring enough "delegates together to remind the newspaper men that they were once considered in the fight.

But even this is not certain. It will largely depend on whether McKinley makes an aggressive fight in Illinois, Nebraska and Kentucky.

The Republic's Republican ticket is gaining ground every day. McKinley and Quay are the logical Republican candidates.
