AFTER WOMELSDORF.

It is a well known fact that in the last legislature the two representatives from Centre county did not act in harmony. Harry Curtin was generally known as Gov. Hastings' tool. Anything directed from the bosses, Curtin would support. A SCHEME.

According to the expectations, the republican leaders have an idea that they can shape pretty well whatever they may chose, in this county. The purpose is to have as many delegates to the county convention next Tuesday, uninstructed as possible. When these parties come to town all the influence possible will be brought to bear to twist them one way and another. To accomplish this end the convention will adopt the principle that requires the majority of all votes cast CENTRE county Democrats are talking in a district to bear instructions. In such

HE PREDICTS LASTING DISASTER

To His Party Should It Declare for the Free, Unlimited and Independent Coinage of Silver-Refuses to Believe That the Democracy Will So Declare,

WASHINGTON, June 17. -In reply to a request from the New York Herald for a statement concerning the Democratic situation, President Cleveland last night

sent the following to that newspaper: "I have made no figures as to the probable action of delegates already chosen or to be chosen to the Democratic national convention, but I refuse to believe that when the time arrives for deliberate action there will be engrafted upon our Democratic creed a demand for the free, unlimited and independent coinage of silver. I cannot believe this because I know the Democratic party is neither unpatriotic nor foolish, and because it seems so clean to me that such a course will inflict a very great injury upon every interest of our country, which it has been the mission of Democracy to advance, and will result in lasting disaster to our party organization. "There is little hope that as a means of success this free silver proposition, after its thorough discussion during a political campaign, will attract a majority of the voters of the country. It must be that many of the illusions influencing those now relying upon this alleged panacea for their ills will be dispelled before the time comes for them to east their ballots, which will express their sober second thought. The adoption by the Democracy of this proposition would, I believe, give to our opponents an advantage both in the present and future which they do not de-

"My attachment to true Democracy is so strong that I consider its successage identical with the promotion of the country's good. This ought sufficiently to account for my anxiety that no mistake be made at our party convention. In my opinion no effort should be spared to secure such action of the delegates as will avert party demoralization.

"It is a place for consultation and comparison of views, and those Democrats who believe in the cause of sound money should there be heard and be constantly in evidence. A cause worth fighting for is worth fighting for to the end. If sound money Democrats suppose there is danger of a mistake being made, such danger should stimulate their activity in averting it, instead of creating discouragement.

"I am very far from arrogating to myself a controlling influence upon the policy of my party, but as an unflinching Demo crat who has been honored by his party. and who desires hereafter no greater political privileges than to occupy the place of private in its ranks, I hope I may not be plamed for saying this much at this time in the interest, as it seems to me, of the grand old organization, so rich in honor able traditions, so justly proud of its achievements, and always so undaunted and brave in its battles for the people's welfara.

THE republicans did a noble thing by taking a stand for honest money at St. Louis. We hope the democracy will do equally as well at Chicago.

BELLEFONTE republicans are of the opinion that they will have either A. V. Miller or Robt. Cook, as their candidate for sheriff. That is their opinion.
