**A Chance to Make Money.**

I have berries, grapes and peaches, a year old, fresh as when picked. I use the California Cold process, do not heat or seal the fruit, just put it up cold, keeps perfectly fresh, and costs almost nothing; can put up a bushel in ten minutes. Last week I sold directions to over 120 families; anyone will pay a dollar for directions, when they see the beautiful samples of fruit. As there are many people poor like myself, I consider it my duty to give my experience to such, and feel confident any one can make one or two hundred dollars round home in a few days. I will mail sample fruit and complete directions, to any of your readers, for 18 two-cent stamps, which is only the actual cost of the sample, postage, etc., to me.

**Spoons Free to all.**

I read in the Christian Standard that Miss A. M. Fritz, Station A, St. Louis, Mo., would give an elegant plated hook spoon to any one sending her ten 2-cent stamps. I sent for one and found it so useful that I showed it to my friends, and made \$13 in two hours, taking orders for the spoon. The hook spoon is a household necessity. It cannot slip into the dish or cooking vessel, being held in the place by a hook on the back. The spoon is something housekeepers have needed ever since spoons were first invented. Any one can get a sample spoon by sending ten 2-cent stamps to Miss Fritz. This is a splendid way to make money around home. Very truly,

**Did You Ever Make Money Easy.**

Mr. Editor—I have read now Mr. C. E. B. made so much money in the Dish Washer business and I think I have beat him. I am very young yet and have had little experience in selling goods, but have made over eight hundred dollars in the ten weeks selling Dish Washers. It is simply wonderful how easy it is to sell them. All you have to do is to show the ladies how they work and they cannot help but buy one. For the benefit of others I will say that I got my start from the Mound City Dish Washer Co., St. Louis, Mo. Write to them and they will give you full particulars. I think I can clear over \$1,000 the coming year, and I am not going to let the opportunity pass. Try it and publish your success for the benefit of others.

**The New Way.**

How to preserve fruits and vegetables so that they will retain their natural color and flavor has been a study for the good housewife which most have failed to solve. As each fruit season comes on they, after a great deal of study and thought, try the same old way of cooking and sealing the fruit and with the same results—some is cooked too much, some not enough, it sours, it molds, it breaks, until they state positively they never will put up any fruit again.

All these difficulties have been overcome in the past few years, but only a few housewives have become familiar with the method. By the use of the "California Cold Process" all fruits can be kept perfectly without cooking, heating or even sealing, the fruit being as good after two or three years of preserving and tastes as natural as perfectly fresh fruit. This process of preserving fruits makes it a pleasure. See Frances Casey's experience in another place in this paper.

**The Saddle Question.**

This is an illustration of the old style saddle. If you will observe it carefully you will note that it fits like a glove (and a saddle should not). It presses the sensitive parts, causes soreness, stiffness and chafing, and has made cycling to a certain extent injurious, because few could enjoy a long ride without fear of injury.

All this is now changed. Here is represented the perfect saddle—the Christy Anatomical Saddle, showing the pelvic as it rests on the pads. The Christy Anatomical Saddle is the only saddle that is built right. Made of metal, of light weight, cannot warp or change its shape, has pads that rest the entire body.

Does not press the sensitive parts, prevents stiffness, and makes cycling a pleasure. Shows pelvic as it rests on the Christy saddle.
