FIREMEN'S CONVENTION.

The Undine Company of Bellefonte, wins first prize in Steamer Contest.

The Fourth Annual Convention of the Central District Association of Volunteer Firemen of Pennsylvania, was held in Clearfield last week, and was largely attended. The convention for the transaction of business of the association was held in the court house on Tuesday afternoon. Houtzdale was selected as the place for holding the next convention. After attending to considerable other business the following officers were chosen for the ensuing year: President, W. C. Langford, of Houtzdale; Secretary, W. A. Moore, of Curwensville; treasurer, F. C. Walz, of Bellefonte.

The parade took place on Wednesday afternoon and it is said it eclipsed any former parades of the association. Both the Logan and Undine companies of this place, were in attendance with their engines and made a fine appearance in parade. They were highly complimented by the Clearfield papers. The Undine company, with their own band, headed the parade. The Logans took with them the Bellefonte band.

Immediately after the parade the steamer contest took place on the river bank. There were five engines entered in the contest and they made their trials in the following order: Reliance, No. 1, of Philipsburg; Citizens, of Tyrone; Hope No. 2, of Philipsburg; City Engine of DuBois; and Undine No. 2, of Bellefonte. There were three classes of engines in the contest and the rules governing the handicap were as follows: Third class to use three sections of hose, fourth class two sections, and fifth class one section. The Hope of Philipsburg, and Citizens of Tyrone, were in the third class; the City Engine of DuBois, in the fourth class; and Reliance of Philipsburg, and Undine of Bellefonte, in the fifth class. Each engine was given twenty minutes in which to contest and the one throwing the farthest in that time was to win the prize. The water was lifted from the river, a height of eighteen feet. Reliance threw 182 feet, Citizens 220 feet and 8 inches, Hope 198 feet 8 inches; City Engine 227 feet 7 inches, and Undine 247 feet 5 inches, almost 20 feet further than any other engine. The judges awarded the prizes to Undine, of Bellefonte, and City Engine, of DuBois. The prizes were first, \$50 and second, \$25.

The prize for the best band was awarded to the Philipsburg International band. The prize for the best equipped company went to the Hope, of Philipsburg. The prize for the largest company was given to Reliance, of Philipsburg.

The races and other amusements took place on Thursday, and were interesting and drew a large crowd.

The Undine company celebrated their victory on Friday evening by parading through our streets with their band and the victorious Clapp & Jones engine, and carrying banners containing spicy inscriptions. At Clearfield, before the contest, their engine was termed as the "coffee pot," "rattle-box," etc., by companies who had much larger engines. This just amused our boys, and when the time came Engineer Wm. Rodgers so successfully handled the "coffee pot" that it overwhelmingly defeated engines of almost twice its size, with but 80 pounds of steam.

On Monday morning E. Brown, Jr., treasurer of the company, received a check from Clearfield for \$50, the full amount of the prize.

A Strong Argument.

On Tuesday evening Ira C. Mitchell, Esq., of Bellefonte, addressed a large audience in the court house upon the money question, in support of free silver. His presentation of the issue was in a clean, concise, logical manner that was listened to with much interest throughout. Mr. Mitchell's remarks carried conviction to many of his audience, while others were so seriously awakened to the emergency of the times that they will begin to study and think upon this great question. That is all free silver people want. When men begin to investigate, have no fear of the result.

Lutheran Reunion.

The second annual reunion of the Lutherans of Lycoming, Clinton and Centre counties was held at Hecla Park on Thursday and was a complete success from every stand point. The crowd that gathered at the Park was truly a representative one and comprised the different congregations throughout the district.

The day was an ideal one and this fact influenced many to attend the reunion who were not directly interested. The day was pleasantly spent in roaming around the grounds and becoming acquainted with one another. In the afternoon interesting addresses were delivered by Rev. George P. Goll, the returned missionary from Africa, and Dr. Augustus Pohlman, the missionary elect.

Nervous

People wonder why their nerves are so weak; why they get tired so easily; why they do not sleep naturally; why they have frequent headaches, indigestion and Nervous Dyspepsia. The explanation is simple. It is found in that impure blood feeding the nerves on refuse instead of the elements of strength and vigor. Oplate and nerve compounds simply deaden and do not cure. THIS IS HOW---

We have often been asked how we sell good shoes as low as most stores sell the poorer sorts.

Easily Explained.

We pay cash for all the shoes we buy, shoemakers know this, and they give us the best in their shops at the best prices they can make. Then we are satisfied with a small living profit—that is an important point.

Do you grasp the situation? MINGLE'S SHOE STORE.
