Death of Frederick Burket.

The subject of this sketch was born at Rebersburg, this county, about 90 years ago, and lived there until the year 1867, when he moved with his family to the state of Indiana, where he resided until his death, which occurred on last Friday, October 23rd, having attained a ripe old age, being in the neighborhood of 90 years. In early life Mr. Burket was engaged in the mercantile business at Rebersburg, at the same time taking an active interest in politics. He was one of the founders of the republican party, and in 1858, was elected to the office of county commissioner receiving a large complimentary vote in the strong democratic districts of Penns and Brushvalleys. He performed the duties of commissioner with credit to himself and with honor to the party to which he belonged, applying to the business of the public, the experience which he acquired behind the counter and in the counting room. He established a system in the commissioners office which proved not only convenient in the affairs of the county, but of great benefit to the tax payers.
 After his removal to the state of Indiana he engaged in farming, which occupation he followed until he was disabled by reason of old age. His wife was a sister of John and Daniel Kremer late of Rebersburg died some years ago. Since, he lived with one of his children, at New Germantown. His oldest son Erastus A. Burket, has for years been a resident of Chicago. He has been prominent in the politics of that city, and has for years filled responsible places under the city government. Those of the children who are living reside in different parts of the West. Many of our readers no doubt remember Mr. Burket, especially those residing in the eastern end of the county, where he was well known and highly respected.

Important Game Laws.

Inasmuch as certain game laws of the State are reported to be repeatedly violated, the following laws are published in the hope that hunters as well as fishermen will see that they are living up to:

TRAPPING PROHIBITED.

No person shall at any time or place within the State kill or take any wild turkey or ruffed grouse, commonly called pheasant or quail, or Virginia partridge, or woodcock or rail or reed birds, any pinnated grouse, commonly called prairie chicken, with any net, trap, snare or torch light for the purpose of taking or killing any of said birds nor shall any person sell or expose for sale any of the said birds after the same shall have been so taken or killed, under a penalty of \$10 for each bird; and it shall be lawful for any person to take and destroy any such nets, traps or snares wherever found set. Provided, that nothing in this section shall be so construed as to prevent individuals or associations, for protection preservation or propagation of game, from gathering alive by nets or traps, with the written consent of the owners of the land, quails or Virginia partridges, from the 17th day of December in any year to the 1st day of February next following, for the sole purpose of preserving them alive over the winter.

HUNTING OR FISHING ON SUNDAY.

There shall be no hunting or fishing or shooting on the first day of the week called Sunday, and any persons offending against the provisions of this section shall be liable to a penalty of \$25.

Something New for the Voter.

There is something new for the voter in the election law this year. He will find near the top of his ballot a black square. If he wants to vote for the electors in a group he can do so by making a mark in that large square, opposite and to the right of the names of Bryan and Sewall. If the voter then desires to vote for any other candidate under the democratic head he must make a cross in the square opposite and to the right of the name of each candidate for whom he desires to vote. The better way, however, is to vote the entire Democratic ticket by putting a cross in the circle at the top of the second column on the ballot and in so doing you will not make any mistake.

773 Miles of Ballots in the State.

The man with the pencil was at it. He had heard that the smallest ballot to be voted this year would be eleven columns wide, or twenty-seven inches long. Then he sat down and began to figure. There are about a million of registered voters in Pennsylvania, and the law provides that there shall be one and a half ballots for each voter, or 1,500,000 in all. Added to this number there are 250,000 specimens. The man's pencil scooted over the paper rapidly and after a while he stopped figuring and said: "There will be printed for the use of the voters of the state, under the law, one million, seven hundred and fifty thousand ballots, the smallest of which will be twenty-seven inches long. I have reduced the number of inches to miles, and find that if the ballots were placed end to end they would cover 773 miles." Just think of that distance in ballots. Twice across the state of Pennsylvania. Paste one end of the continuous ballot on the city hall, Philadelphia, and it could be carried across the state to the city hall at Pittsburg, wound around it once and then taken back to Philadelphia again. That continuous ballot could be fastened to the dome of the capital at Harrisburg and stretched to New York and back to the capital and then back to New York again, and then there would be some left for good measure.

Arnold and the Soldiers.

RIDGWAY, PA., Oct. 20th, 1896.
 EDITOR DEMOCRAT.—W. C. Arnold, the present representative in Congress, and who seeks re-election, is a lover of the old soldier—nit—only for his vote. Mr. Arnold has had opportunity to assist some veteran from the 28th district, as did other representatives, by obtaining for him a position in the folding room at Washington where public documents, speeches, etc., are wrapped and mailed. This job is worth \$2 50 a day, and some 25 hands are employed—nearly all old veterans of the late war. Mr. Arnold was given opportunity to have a man appointed from his district, but no soldier was given the job! Jas. P. Baker, a brother of the editor and manager of the "Elk Advocate," was selected, and he has been having an easy time of it, as any old man can do the work after short practice. Mr. Baker has been at Ridgway from the middle of June to the middle of September and came home again on Sunday last to assist in bringing about Arnold's re-election, but his pay (so he says) never stopped. Why did not Arnold assist some deserving soldier, instead of Baker, who is a printer, and could have had work at home. Probably Arnold knows, but there are a good many soldiers in the district who don't know.
 REPUBLICAN SOLDIER.

State vs. Bucknell.

On Saturday, October 31st, the State College foot ball team will go to Williamsport, Pa., for the annual game with Bucknell University eleven, and a stubborn contest may be expected. For this occasion the Central R. R. of Penn'a., will run a special train from Bellefonte at 9:15 a. m., and sell tickets at rate of \$1.00 for the round trip. Returning the special train will leave Williamsport for Bellefonte after the political demonstration or between 10:00 and 11:00 o'clock. About three hundred students and their friends will go down to lend encouragement to wearers of the blue and white.

An Interesting Relic.

The Lock Haven Express says: A Centre county man who attended the market to-day exhibited a pair of handcuffs which he said had been found near Bellefonte and are believed to have been used in shackling one of the noted highwaymen, Lewis and Conley who flourished in this section many years ago. The handcuffs had been made by a country blacksmith, were of crude workmanship and were badly eaten by rust. What reason there is for thinking they had been on Lewis and Conley was not learned.
