

HAPPENINGS IN BELLEFONTE.

Local Events Briefly Told in a Few Lines.

PERSONALS, SOCIAL EVENTS.

What has Transpired During the Past Week —Movements of our People—What the Local Scribe saw worthy of mention—A week's local news in a few words.

—Mr. Rush Larimer has moved to Valentine street.

—The advance in the price of wheat has made many of our farmers smile.

—The Uadine Fire company are arranging for their annual Thanksgiving ball.

—Have you read the advertisement of Lyon & Co., on page 8 of this issue. It will interest you.

—John Gould and family moved to Lock Haven last week where the latter secured a position.

—Geo. Bush left for Pittsburg, on Saturday, where he will attend U. S. District court, this week, as a juror.

—The widow of the late Dr. J. M. Stewart died at her home in Clearfield, on Friday last, aged about 53 years.

—The cold blast of winter set in Monday and the indications are that we soon will have a genuine touch of winter.

—James A. McClain left on Monday for Spangler, Pa., where he will again turn his attention to business matters.

—A substantial flag stone pavement is being laid in front of Mr. Frank Montgomery's residence by Mr. Mott and Mr. Johnson.

—But a few weeks remain until the Scholarship contest will close. The result will be announced in our first issue of December.

—Mr. Cyrus Brumgard, the jolly butcher, from Millheim, paid us a short call on Monday. The election has not affected his politics in the least.

—The special week of court will commence on Monday, November 16th. Regular term of quarter session will take place the following Monday.

—Hon. J. G. Meyer and wife, of Aaronsburg, spent Sunday in Bellefonte as the guest of his sons Wm. T. the merchant and J. Calvin, the attorney.

—Several parties from this section are camping in the mountains hunting deer at present. Even a tired man can find something to do after the election.

—Rev. Ed. E. Hoshour, pastor of the Lutheran congregation, assisted in the installation exercises of Rev. Geo. S. Bright, at Philipsburg, last Sunday.

—Preparations are being made for starting the glass works, at this place, on a co-operative plan. It will give employment to about 25 men at the start.

—Paul Sheffer has a fine collection of house plants, consisting of palms, etc., for sale in the vacant store room in the Crider Exchange. Give him your order.

—There is a fortune for the milliner who shall devise a bonnet that can be worn in any part of the church and always present the trimmed side to the congregation.

—Mr. Jonathan Harter, one of Millheims best known citizens, and furniture dealers, transacted business in Bellefonte on Monday, and called at the Centre Democrat office.

—Ex-treasurer James J. Gramley, of Rebersburg, was in town over Sunday. He sustained a fall some time ago by which he fractured a rib that causes him some inconvenience.

—Miss Kate Garber, who recently completed a course in a Williamsport business college and has mastered the art of stenography and typewriting is visiting friends in Bellefonte, her former home.

—Our republican friends are still dilating over the magnificent victory attained at the election. There is nothing remarkable about it. You got a worse licking four years ago and died a great deal harder.

—A Kansas man has discovered that brandy can be made from wet elm sawdust. A discouraged temperance advocate asks what chance the good cause will have when a man can go forth with a rip saw and get drunk on a fence rail.—Ex.

—Webb Kerstetter, the Bishop street baker and confectioner, has settled down to business, since his matrimonial venture and now is better prepared to serve his patrons than ever. He is better off a half or has a "better half" than formerly. We wish them abundant prosperity.

—Mr. Harry Bush sailed on Saturday for United States of Columbia, South America. He takes charge of the lumber interests of a Philadelphia firm, while the general manager comes home for a rest. He will be located about 150 miles from Cartagena and goes on a sailing vessel which takes 20 days on the ocean and ten days stop at Cuba.

—A reverend gentleman, addressing a school concert recently, was trying to enforce the idea that the hearts of the little ones were sinful and needed regulating. Taking his watch and holding it up he said: "Now, here is my watch; suppose it don't keep good time; now goes too fast, now too slow; what shall I do with it?" "Sell it!" shouted a youngster.

IN THE COURT HOUSE.

Susan Holder to Emma J. Hinds, June 20, 1896; for tract of land in Haines twp; for \$150.

Warning to Dairymen.

Secretary Edge, of the department of agriculture, calls the attention of dairymen to the frauds which are now being offered for sale in various parts of the state guaranteeing to increase the amount of butter which may be made from a given quantity of milk or cream. In one case he says the mixture is guaranteed to make two pounds of butter from one pound and one quart of sweet milk; in another it is guaranteed to make an equal amount of butter from one quart of milk and enough cream to make to one pound of butter.

In every case thus far in which these compounds have been examined by the department it has been found that alum and acetic acid enter largely into them, and are in fact the active agents used to produce the results claimed for the mixture. Either of these ingredients, the secretary states, has the power of coagulating or thickening the cheesy matter of the milk and cream in mixing it with the butter produced from the fat, consequently the mixture produced is neither butter nor cheese, but simply a mixture of the two and not marketable as butter.

When we Dream.

Professor Pheltshu says that lively dreams are in general a sign of nervous action. Soft dreams a sign of slight irritation of the brain, often in nervous fever announcing the approach of a favorable crisis. Frightful dreams are a determination of blood to the head. Dreams about rain and water are often signs of diseased mucous membranes and dropsy. Dreams of distorted forms are frequently a sign of abdominal obstructions and disorder of the liver. Dreams in which the patient sees any part of the body, especially suffering, indicates disease in that part. The nightmare, with great sensitiveness, is a sign of determination of blood to the chest.—Popular Science News.

Murder at Huntingdon.

Five prisoners, Lewis, Lawrence and Daniel Cherase, Chilian and Alexander Vanance, all Italians, were lodged in jail at Huntingdon, Sunday night, charged with murder. During the festivities at a beer and cider jollification at Robertsdale, a mining town in Huntingdon county, Peter Venzelona was beaten to death with an iron pin and stones. It seems Venzelona was too intimate with a girl of whom several others were enamored.

DAY THE HYPNOTIST.

During the past week Prof. Day, the hypnotist, had been entertaining our people at the opera house in a series of very amusing and exceedingly interesting performances. The feats performed by him are simply wonderful and have set our people to talking and thinking about this remarkable science, or profession, of hypnotism.

While in Bellefonte he has had no trouble in finding young men of town who volunteered to go on the stage and submit themselves to the tests. Very few persons could not be reached or affected. When they once get into the hypnotic state or mood they appear to lose all consciousness of self and surroundings, as well as will power, and appear to be under his entire control. They act and move only at his suggestion or command. They can be made to believe almost anything, or do anything. Horse racing, bicycle riding, fishing, playing base ball, fighting, boating, selling peanuts in the audience, and many other ridiculous feats were gone through by these subjects. One remarkable feat was putting a young man into a cataleptic state, insensible of all feeling, and making the body rigid and hard. Another feat was to put a man to sleep for 24 hours and was placed in a cot, in the Philadelphia Branch store window. The physicians pronounced it a genuine sleep. The man slept the full time and was awakened without any difficulty and displayed no bad symptoms from the long sleep.

The subject of hypnotism has been the talk of the town. Prof. Day is regarded by some as a monster to be feared. On the other hand he is a quiet, unassuming gentleman, of pleasing manner, who has made many friends in the community and has taken a special fancy to Bellefonte and a liking for its people. He will have another engagement at Bellefonte at an early date.

Death of Philip Barnhart.

At a very advanced age Philip W. Barnhart, one of the well known and oldest citizens of the county, died at his home, near Curtin's Works, on Wednesday evening of last week. Ever since the death of his wife he has been in poor health. Mrs. Barnhart died last March and following the loss of his life's companion Mr. Barnhart became affected with heart trouble and has been ill ever since.

Deceased was a consistent member of the Methodist church and was buried at Curtin's Works. His wife's maiden name was Leathers. To them nine children were born all of whom are living except two; Mrs. Samuel Orris, of Milesburg, and Mrs. H. H. Harshberger, of this place, both who died some time ago. The children who survive are: Joseph L., of Renovo, a baggage-master on the P. & E. R. R.; Harry O., of Punxsutawney, baggage-master on the Bell's Gap R. R.; James K., clerk in the first National bank of this place; Lucy and Amanda, both single and living at home; Alice, wife of Howard Hard, of Farrandville, and Laura, wife of J. C. Weaver, of Bellefonte.

A Change Probable.

For years the holding of the teachers' institute in Bellefonte was an assured thing, but there is a move on foot among some of the teachers to have the sessions held in Philipsburg, and we understand the measure is under consideration. It is claimed that the citizens are unresponsive and unappreciative of the institute, and that a change to Philipsburg would not be detrimental. Philipsburg is putting up some good claims, but being at the extreme end of the county, the location is the only factor against them. A decade back it was customary to hold the institutes in a different town each year, but that was departed from and Bellefonte was the only point selected.—From the Reporter.

We hardly think such a move would be made. By location, Bellefonte is the natural place for such gatherings.

The Apple Crop.

Statistics of this year's crop of apples are beginning to come in. The New England Homestead estimates the crop in the United States at a little less than 59,000,000 barrels, as against 57,000,000 barrels in 1894 and 60,500,000 barrels in 1895. It appears, then, that the crop which was supposed to be phenomenal is so only in certain sections, and the general average is low rather than high, New England and New York, however, report over 16,000,000 barrels, as against a little more than 7,000,000 last year; while Michigan has the largest and finest crop she has ever had. This is a situation where facilities for distribution are needed, in order that all parts of the country may have their share of the fruit.

Death of Miss Dora Mowery.

Miss Dora Mowery died at the residence of John Hendershot, near Valentines' works, Sunday morning. Deceased was a resident of Granville, Mifflin county, Pa., and was on a visit to her aunt, Mrs. John Hendershot, of this place. Her age was about 22 years.

She had been ill for some time with consumption. The remains will be taken to Mifflin county for interment.

—Miss Philadelphia will be a fine attraction, at the opera house December 7th. One of the best engagements of the season.

ADDITIONAL LOCALS.

—Mr. S. O. Malin, of Radford, Virginia, is visiting his brother at this place.

—Mr. John Lane has been on the sick list for the past two weeks with rheumatism.

—The republicans are preparing for a grand ratification the latter part of this week.

—Thanksgiving season will soon be here and many of us will have nothing but crow in our dish.

—Are you going to have sale this year? If so we have exceptionally fine facilities for printing your bills.

—Jim. Schofield thinks, since the election, that silver mounted harness can be furnished cheaper than ever.

—Joseph M. Belford, of Riverhead, N. Y., formerly a resident of this place, was elected to congress last week.

—The Village Improvement committee have ordered about one hundred trees for planting about the streets of town.

—Mrs. John Shadle departed last week for Philadelphia, where she will receive treatment in one of the hospitals.

—Do you send your job printing out of town? You can have it done at the same prices at the Centre Democrat office.

—Joseph Garbrick returned on Tuesday morning from Philadelphia where he had gone for treatment in one of the hospitals.

—Instructions in vocal music is one of the new features introduced in the Academy this term. It is under the direction of Miss Overton.

—The official election returns will be found in the table published on page 8. The return as given we believe is correct in every particular.

—Mrs. Andrew Young and her two children, Ruth and Esther, are at present visiting friends and relatives at Philipsburg and Osceola.

—H. B. Shaffer, the photographer, left for Altoona on Monday where he will open a branch studio for high grade work only. He will operate only by use of the electric light process.

—John Riley, of Altoona, a native of Centre county, died at a Philadelphia hospital Friday of cancer of the stomach and liver. He was a veteran of the late war, and is survived by a wife and one child.

—Ira C. Mitchell, Esq., is on the sick list and unable to leave the house. He was on the go continually during the campaign, making addresses in various parts of the state and the exposure injured his health.

—On Monday evening Prof. Day tendered a banquet to all the young men who assisted on the stage in his performances. It was given at the Garman House and everything was done up to the queen's taste.

—During the past month the circulation of the Centre Democrat has been over 1800. The campaign no doubt brought us many new names which we hope to retain by giving the "Most News for the Least Money."

—Sechler, the grocerymen in the Bush House, has been distributing some attractive advertising novelties in the shape of handsome mirrors. He keeps one of the best stores in the town and always held a large patronage.

—The Gentle hunting party left Bellefonte early on Monday morning for the Greenwoods in Clearfield county, where they will spend about ten days. Editor Harter and Clyde Blackford, of Bellefonte, went with the party.

—The Howard Hornet and the Philipsburg Ledger seem to be scurvy over the result of the election in Centre county. They are rather disgusted over the means and methods employed by members of their own party.

—Mr. James Watson, of Snow Shoe, was in town on Monday attending to business. He reports business brisk among the miners and that more coal is being shipped from that point now than for some years. Mr. Watson thinks that the Hungarian murderer, who escaped—should have been hunted down by our authorities as he is a desperate fellow.

—Many men made election bets and lost their money that should have gone to pay grocery and butcher bills. Many old time friends and neighbors are as mad as wet hens at each other, simply because they could not see things in the same light. It is a great pity that a presidential campaign could not be conducted without such an amount of nonsense and tomfoolery.

—The movement to amend the game and fish laws to more effectively protect our rapidly diminishing supply of game and food fishes is a move in the right direction. With it should be incorporated some measure to protect the purity of our water supplies. The time has come when the greatest good to the greatest number demands that the unlicensed pollution of our streams be prohibited.

—Dr. Samuel E. Noll who spent several years in the Medico-Chirurgical hospital, Philadelphia, as a physician has located in Bellefonte, and is occupying the rooms on High street, near the court house, formerly Kellers law offices. Mr. Noll's former home was Pleasant Gap and is known to many of our readers. He has been quite successful in his profession and we think he will find this a desirable location.

THE GLOBE Dry Goods, Clothing and Millinery.

There is no sentiment in business; the people trade with us because their dollars go further here than elsewhere.

We do not ask your trade for friendship sake, but on the basis of DOLLARS AND CENTS. We cater to the masses, and sell MORE DRY GOODS AND MILLINERY than any store in Bellefonte.

We are Selling Goods at Ringing Bargains

that bring a WORLD OF BUYERS to our counters. Our trade is LARGE, our stocks are so GREAT, and our assortment is so VARIED that we are enabled to offer inducements that have never been equaled in this town.

In our Dress Goods Department we are Absolutely Without Competition.

In Domestic, Table Linens and House Furnishing Articles we made our Big Purchases on the Depressed Markets.

These goods have since then all advanced sharply in prices, and we are retailing some goods here to-day at actually less than the wholesale prices in New York.

Ladies' Wraps and Millinery

Our business has been very large and is still increasing. We have the GOODS TO SUIT YOU and at POPULAR PRICES.

We will make some remarkably low prices on Overcoats this week.

Katz & Co., Limited

Makers of Low Prices & Terrors to All Competitors.

Remembered by Friends.

Last Thursday evening the Coleville band accompanied a number of neighbors and friends who called at the home of Daniel Heckman, in Benner township, to congratulate him upon his election as county commissioner. They were tendered a royal welcome and all had a pleasant time while there.

Hot Water for Cough.

A sudden and wearing attack of coughing often needs immediate attention, especially in consumptive and those chronically ill. In an emergency that ever-cure remedy, hot water, will often prove very effective. It is much better than the ordinary cough mixtures, which disorder the digestion and spoil the appetite.

Heverly—Saylor.

On Thursday evening of last week Miss Clair Saylor and Mr. Alfred J. Heverly were united in marriage at the Catholic parsonage by Father McArdie. They were attended by Miss Mollie Plack and Arthur Hull as bridesmaid and groomsmen.

Fling at the Girl Graduate.

A cruel exchange says that a "sweet girl graduate" in a neighboring town read an essay on physiology, in which she said: "The human body is divided into three parts—the head, the chest and the stomach. The head contains the eyes and brains, if any. The chest contains the lungs and a piece of liver. The stomach is devoted to the bowels, of which there are five, a, e, i, o, u, and sometimes w and y."

HOOD'S PILLS cure Liver Ills, Biliousness, Indigestion, Headache. A pleasant laxative. AD Dressed.

—Subscribe for the Centre Democrat.

Executors Sale. The Andrew Martin, dec'd, property, in Jacksonville, will be offered at public sale Thursday, November 19, 1896.

PROVISIONS, GROCERIES & C. (AS CORRECTED WEEKLY BY BAUER & CO.) Apples dried, per pound..... 05

Bellefonte Grain Market.

Corrected weekly by Geo. W. Jackson & Co. Red wheat, per bushel..... 90

Shoot You First!

is now heard where boys most do congregate, and when the youngsters begin the shooting the shoes begin to feel the first of a great many strains they will be called upon to bear before the school going season is over.

Before and after school hours and at recess the boys will be at marble shooting, leap frog and other games very popular among them.

MINGLE'S SHOE STORE.
