—The State College foot ball team will play with the Carlisle, Pa., Indian school team at Harrisburg on Saturday. The Indians are one of the best teams in the country and will give State a hard tussle.

—Mrs. Robert Armstrong of east Howard street, while out in the yard surrounding her house fell twisting her right limb and breaking it in two places. She was also bruised about the head and shoulders.

—The grain dealers in Bellefonte have been getting large quantities of wheat during the past week. The price has been ranging from 80 to 90 cents per bushel and many think it will go a few notches higher.

—Jackson & Co's flouring mill received some new machinery this week which will greatly improve their facilities. They are finding ready sale for their entire product. Mr. Terry, the head miller, has made a decided success of that plant.

—Col. Dunham was one of the principal orators at the republican jubilee, at Mill Hall on last Friday evening, and gave them one of his old time, vigorous addresses. It was 40 years ago, in 1856 that the Colonel spoke at the same place and a number of the former audience were present to hear him this time.

Undine Ball.

The fifth annual Thanksgiving Ball of the Undine Fire company will be held on Wednesday evening, November 25th, 1896, in the Bush Arcade, at Bellefonte. The committee consists of Wm. P. Flack chairman; Wm. Smith, Benj. Hoffman, Joseph Beck, and Harry Lose. Music will be furnished by the company's orchestra. The Undine band and company will make a parade at 8 p. m. As this is a select ball, positively no one will be allowed to enter the hall without presenting an invitation. No improper character will be admitted. Two special policemen have been engaged to tend the doors and keep order. Persons having invitations and leaving them at home, will not be admitted without first presenting such invitation. This ball, we predict, will be a success.

Pumpkin Seeds.

The pumpkin seed business is growing down through Nittany Valley. The farmers' wives and daughters have begun gathering the seeds and some are making money at it. Miss Emma Garbrick, daughter of Henry Garbrick of near Zion, has taken out over twenty bushels of seeds which she will sell to a New York seed firm. Nice pumpkin seeds are worth from \$1.10 to \$1.25 per bushel. This pays better than raising wheat.

Guard Against Fires.

Cold weather is setting in. Fires to keep your homes warm during the winter will be necessary. Many fires are caused by defective flues and chimneys, and in such cases all insurance is forfeited, as your neglect in this regard is the cause of many fires. One hour spent in examining your house to see that all is safe against fires, may save you and your neighbors hundreds and even thousands of dollars.

Shipping Fruit and Potatoes.

The Centre Hall Reporter says a party has been in Penns Valley for a week past buying up apples and potatoes for shipment to other markets, 18 cents being paid for potatoes and 20 cents for picked apples. These prices are higher than these products have been bringing for some time.

It is A Mistake.

On Monday Mr. Benjamin Royer called at our office to contradict the rumor that he was notified to vacate the Valentine farm, for having participated in a democratic parade recently. Mr. Royer says that when he farms he attends strictly to business, and in politics he does what suits himself.

Smart Boy.

Bellefonte has a smart boy who played a smart trick at the public school building. He was detected in his dirty work and the school board have taken the matter in hand and will likely send the smart boy through court and to jail for his smartness.

A MONSTER DEMONSTRATION.

Thousands Were in Line to Jubilate for McKinley.

On Saturday evening the republicans of Centre county celebrated the election of McKinley by a monster demonstration at Bellefonte. It was a gathering from the remotest corners of the county. Special trains were so crowded, over the various branch roads coming into Bellefonte, that they were compelled to run several sections, so great was the attendance and some of these unfortunately did not reach Bellefonte until the demonstration was entirely over.

The parade moved exactly at 7:30 p. m. It was a brilliant pageant of footmen, prancing steeds, gorgous floats, and bands without number. As it passed along the principal streets, colored lights illuminated the very heavens. The display of fire works, roman candles, was a scene of bewildering splendor—a pyrotechnic display the like of which has not been witnessed in this part of the state for many years. The crowd in Bellefonte was something remarkable, the like of which was never equaled in the memory of the oldest inhabitants. As the procession passed up High and Allegheny streets the great mass of humanity seemed to fill and block the thoroughfares which were practically impassable. Several times a body of mounted police had to force their way through the dense crowds so that the procession could move along. On Allegheny street every building was a scene of bewildering splendor. The most extravagant decorations were profusely distributed. Flags and banners of rich design overhung the street. The decorations, gorgeous arches, imposing reviewing stand erected on the diamond were of artistic design and were the finest pieces of decorative work seen here for a long time. As the various divisions passed by they were greeted by lusty cheers from the throats of the thousands of patriotic republicans, most of whom had their whistles tuned to a high pitch by this time and were growing more enthusiastic as the procession moved along. The chief marshal of the parade was county chairman W. E. Gray, who was astride a prancing coal-black steed. Then came his aids, the various divisions, clubs, etc. They marched in solid phalanx, four and eight abreast, and all in full uniform. The head of the parade passed the diamond at about 8 p. m. There were two thousand horsemen in line. The uniformed clubs, with individual bands from every district, came in such great numbers and variety of decorations that space will not allow us to dilate in detail upon their various meritorious features. About twenty bands and many drum corps furnished the music. By actual count there were six thousand men afoot. At 11 p. m. weary and tired the writer left for his quarters and the lines were still marching up Allegheny street, and great crowds of men and boys filled the diamond, and were quite full themselves. Fire works were exhausted, but fire-water was a good substitute and kept up the enthusiasm.

The great republican jubilee is now over, and long will be remembered as a most gigantic undertaking and stupendous failure. It was nothing more than an aggregation of politicians and enthusiastic office seekers. The leaders, and more conservative element of the party, would not take part, and stood on the sidewalks and cursed. "What Fools these Mortals be."

Deer are Scarce.

On Monday a week ago the Gentzel hunting party went to the Greenwoods for a few days hunt. This party is composed of old time hunters who understand the business and know how to capture the keen scented, fleet-footed creatures. Nearly every season they make two and three excursions to this famous hunting ground and always return with several fine deer and some large antlers. This past week they worked faithfully. They hunted over and over the same territory and found no traces or signs of deer in that section. Other hunting parties in the same section have the same poor luck.

It is the opinion of some that the scarcity of beech nuts, upon which they feed largely during the winter has caused many of them to migrate. Several deer have been killed in the vicinity of Snow Shoe, and a few reported from the Seven mountains.

Observe the Day, Everybody.

One week from Thursday, November 26th, is the day appointed by the President of the United States and seconded by the Governors of all the other States for prayerful thanksgiving for the manifold blessings vouchsafed us as a people. We do not recall an instance in which so little notice has been taken of the near approach of this usually well observed day. Everybody can, of course, give thanks without public announcement, but there should be a grand expression of thankfulness in the churches and in homes. The rising generations should be taught the full meaning of Thanksgiving day, and the best method of imparting such teachings is in the form of the full observance of it by the old folks.

Philipsburg's Debt.

Philipsburg's debt to Governor Hastings is piling up bravely. Let us assure him that it will all be paid, one hundred cents on the dollar, with the highest legal rate of interest. Philipsburg doesn't favor repudiation by a long shot—Ledger

A PECULIAR INCIDENT.

The Letter B is Distinctly marked on Oats and Wheat blades.

One day last week Mr. James Simmonds, of Spring township, brought a handful of young, green stalks of oats and wheat to town. He called the writers attention to the same. On each blade a peculiar thing is found. The outlines of the capital letter "B" are distinctly marked on each blade about one-third of the distance from the point. It is more marked on the oats blades than the wheat. On some of the blades the outlines are hard to find but usually distinct. It looks as though the letter had been stamped on the blade and it is slightly deformed at the point. It is said that this strange phenomena is found in all the grain fields. Whether this same letter could always be found on the young plant we cannot say. Some persons declare that last year the letter "C" was found in the same manner.

There are many persons who regard this as an omen of good luck and others think it is omen of evil. The initial B if stood for Bryan meant him no good politically. Probably it was "Beat Billy Bryan badly." That is what all the oats fields and wheat might say by that initial. Probably it means "Billy Brave Boy, Billy Bryan the Best." The one is as likely as the other.

Look for this initial B, you can find it by careful observation.

Failed to Score.

Last Saturday the State College foot ball team played the University of Pennsylvania, at Philadelphia. A cold bleak wind swept across Franklin field when the rival football teams of State College and Pennsylvania met in their annual contest. Much interest was evinced in the game on account of it being the first in which the Quakers tried their new code of signals. The new code of signals worked like a charm. First half, Pennsylvania 23, State college 0, Pennsylvania put in several of their substitutes in the second half. When the game was called the score stood 27 to 0, the state team having failed to score.

Out Hunting.

On Saturday Sheriff-elect Cronister, Treasurer John Q. Miles, Recorder J. C. Harper, Joseph Rightmower, Esq., and several gentlemen from Pittsburg took to the mountains about ten miles back of Port Matilda for a deer hunt. They will be gone for ten days and promise to make a record on the trip by bringing home about a car load of venison. They had their first hard luck by finding their camp burned to the ground, and had to send back for a tent.

How the Howard Boys Do It.

From the Howard Hornet: Did Walker was sent to the grocery the other day to get a dozen of eggs. On his return his mother opened the bag and found only ten eggs therein, and when asked what had become of the others he replied: I met John Baney as I was coming home and he sassed me, and I let him have'm. One struck him in the neck, and the other right between the eyes.

Good Work.

The Borough stone crusher has been doing good work thus far. Parties who know something about such matters pronounce it an improved machine which in time will prove a great saving by giving us better streets for less money.

Academy Defeated.

On Saturday the Bellefonte Academy boys went down to Lock Haven and tackled the famous State Normal team for a game of foot ball. The result can be told in a few words. The Normal boys scored 16 points, and the Academy 0.

We had a slight snow fall on Friday, in some parts of the count; out on the mountains, about an inch of snow fell.

...THE... GLOBE
Dry Goods, Clothing and Millinery.

There is no sentiment in business; the people trade with us because their dollars go further here than elsewhere.

We do not ask your trade for friendship sake, but on the basis of DOLLARS AND CENTS. We cater to the masses, and sell MORE DRY GOODS AND MILLINERY than any store in Bellefonte. Our CLOTHING DEPARTMENT is a new departure with us, but our way of doing business will bring it to the front and in line with our other departments in a very short time. We have been heavy buyers this season on the dullest market ever known in the wholesale trade. The crowded condition of our two floors shows very plainly that we have an immense stock.

We are Selling Goods at Ringing Bargains

that bring a WORLD OF BUYERS to our counters. Our trade is LARGE, our stocks are so GREAT, and our assortment is so VARIED that we are enabled to offer inducements that have never been equalled in this town.

In Domestic, Table Linens and House Furnishing Articles we made our Big Purchases on the Depressed Markets.

INDIANS AGAINST STATE.

Arrangements were made for the great Game Saturday.

Arrangements were made by R. M. McKinley, of the State college football team, for a game to be played against the Carlisle Indian school eleven next Saturday. It will draw an immense crowd as the game between the Indians, who have scored on every eleven except Pennsylvania, and the strong State eleven will attract attention all over the State.

Mr. Bryan writing a Book.

Wm. J. Bryan is actively engaged in the preparation of a book to be published about Jan. 1. This work will embody a thorough discussion of bimetalism and its importance as an issue in the campaign of 1900. Mr. Bryan has authorized his publishers to state that one-half of the royalties received from the sale of the book will be used in advancing the cause of bimetalism during the next four years.

The work will also contain Mr. Bryan's views regarding the results of the recent campaign, his biography, written by his wife, together with special contributions from eminent political leaders. Another special feature of the work will be an interesting account of Mr. Bryan's trip and the enthusiastic reception accorded him.

GROSS The Tailor.

DO YOU?

Send out of town to get your clothes made! If you do,

WHY DO YOU?

When you can get a better fit for less money by going to Jacob Gross, the Bishop st. merchant tailor, Bellefonte.

Don't do it!

You can do better at home, and patronize home industries.

GROSS, THE TAILOR.

A Subterranean Fire.

A coal trade exchange says that in Mercer county, Pa., the centre of the bituminous coal district, there is a subterranean fire that has been burning continually for twenty-five years. The spot is marked by the parched soil and jets smoke issuing from crevices in the earth. Fire shoots out the openings at intervals, making a striking picture.

Shoot You First!

is now heard where boys most do congregate, and when the youngsters begin the shooting the shoes begin to feel the first of a great many strains they will be called upon to bear before the school going season is over.

Before and after school hours and at recess the boys will be at marble shooting, leap frog and other games very popular among them. You ought to prepare for it. Fortify the boy with stout shoes that will not give way when he begins to play. Come in an see if we can't give you what you want—what the boy ought to have.
