AMENDING THE TREATY. House

England as Signed.

SENATOR MORGAN'S OBJECTIONS.

He Claims That the Treaty Should Not be Ratified Until After the Abrogation of the Clayton-Bulwer Treaty, as England Has Unfair Advantages.

Washington, Feb. 10.-The most important developments concerning the consideration of the arbitration treaty by the senate in executive session yesterday were the offering of an amendment by Senator Morgan, of Alabama, providing for the abrogation of the Clayton-Bulwer treaty and the speech by the same senator in favor of this proposition. Senator Morgan declared that the conditions which called forth the Clayton-Bulwer treaty had long passed away. It was no longer binding on either nation, nor was it of any use or value to this nation, though it might be of great importance to Great Britain in case the Nicaragua canal was constructed. With the treaty now under consideration he said that no doubt the question of the abrogation of the Clayton-Bulwer treaty in effect would have to be submitted to arbitration. While the old treaty was obsolete and disregarded, yet it was still used as a menace and bugaboo to the United States whenever the construction of the Nicaragua canal was advocated. Great Britain, declared Senator Morgan, had violated the treaty, and abrogated it by occupying a portion of the territory of Honduras. Great Britain would use the treaty of arbitration to her advantage, and the Clayton-Bulwer treaty would be used in the same way unless it was declared to be void.

Another important ameniment was offered by Senator Bacon, of Georgia. It provides for a modification of article 8 so as to relieve the southern states from any obligations that might arise under the bonds issued in the reconstruction days. The amendment was the result of a conference among the southern senators, who concluded that the article as it now stands might render it possible to make these bonds when held by British subjects the object of arbitration. Mr. Bacon sought an opportunity to address the senate on the amendment, but was prevented by the fact that Senator Morgan held the floor all day.

When Senator Morgan renewed his remarks he stated that the treaty before the senate should be amended so as to except in definite terms the Nicaragua canal and everything relating to that enterprise. He dwelt at length upon this phase of the treaty, and read from a number of reports bearing on the subject, showing the interest of the United States in that part of the continent, which the senator declared was more vital than any treaty that could be made with Great

Senator Morgan at 5:30 concluded his speech, but said he would discuss other phases of the treaty before a vote was reached.

A number of amendments have been prepared, which will be offered in the course of the debate. Among them is part of the Greeks, such as bombardtration must be first submitted to the president and senate before being sent to the tribunal provided for in the treaty. Another excepts from matters subject to the treaty the Alaskan boundary dispute, also any controversy as to the boundary line in the Straits of Fuca, which separate Vancouver island from Washington state.

The friends of the treaty did not enter the debate yesterday. During the day Senator Teller stated that he wanted it understood the silver men were not opposing the treaty as silver men, and that no opposition was being made to it because it affected the silver interests.

The first two hours of the secret session were given to a discussion of the full reports of Monday's secret session that were printed in the papers. Senator Vest sprang this subject as soon as the confirmations were disposed of. The time was devoted to a senatorial discussion of the methods of the modern news seeker, which was more in the nature of fault finding than of criticism of their accuracy. Senator Hill did not fail to take advantage of the opportunity to "point the moral" as being that his motion for open doors should have been adop-

He says that Campbell came to collect \$50 of him, that they quarreled, that he at Belfast, Ireland. Agrees to the Final Conference Report on the Measure.

Washington, Feb. 10.-The house Opposing the Agreement with yesterday agreed to the final conference report on the immigration bill by an overwhelming majority (217 to 33), and passed two more pension bills over the president's veto. The modifications of the immigration contained in the conference report, by which an intending immigrant was required to be able to read and write "the English or another language," and which permitted the illiterate wife and minor children to accompany an eligible immigrant, removed the main opposition to the bill, but Messrs. Mahany of New York, Maguire of California and Keifer of Minnesota opposed the whole theory of the bill on general principles, while Messrs, Bartholdt of Missouri and Mc-Alpin of Massachusetts both spoke in favor of the bill as modified. The beneficiaries of the pension bills passed over the veto were both of the class known as "remarried widows." Mr. Cleveland has disapproved a number of these bills, but he has also allowed several to become laws without his signature. A resolution was adopted appointing John Marshall Brown, of Maine, to the vacancy on the board of managers of the National Home for Disabled Volunteers, made vacant by the death of George L. Beal.

The open session of the senate was wholly perfunctory and after transacting some routine business the doors were closed and an executive session continued throughout the day.

Passed Over the President's Veto.

Washington, Feb. 9.-The senate was in executive session most of yesterday considering the Anglo-American peace treaty, so that little time was given in open session to the transaction of regular legislative work. Early in the day the bill rearranging the judicial districts of Texas was passed over the president's veto by the unusually heavy majority of 57 to 1.

Fewer Pension Agents.

Washington, Feb. 8.-The president has signed, on the recommendation of Secretary of the Interior Francis, an important order reducing the number of pension agencies in the United States from eighteen to nine. The object of the order is to effect a very large saving to the government without inconveniencing the pensioners. The secretary demonstrates that by this reduction of the pension agencies the cost of disbursing pensions can be reduced by at least \$150,000 per annum. This order will go into effect Sept. 1.
