SELLING OUR RAILS ABROAD.

Two English Railroads Purchase 50,000 Tons.

The recent break in the price of steel rails has resulted in large sales of the American product abroad. The most important event of the week, however, is the announcement from Pittsburgh that export sales of rails have been made aggregating 100,000 tons. Iron Age, which is the recognized organ of the American iron and steel trade, in commenting upon the matter, says editorially: "These sales will convulse the English iron trade and furnish proof that henceforth our steel manufactures must be reckoned as an important factor in the world's market."

SOME INTERESTING FACTS ON MERCHANT TAILORING

Every man should know the difference between genuine Merchant Tailoring, which means that your clothes should be made in this city by skillful labor, and sewed principally by hand, with best quality and that they are properly fitted, by being tried on before being finished, and

SO-CALLED "Merchant Tailoring."

offered you by agents, who locate here temporarily, and who are not merchant tailors, but send your order away to be made out of town; this means that your measure is sent to the nearest large city and the clothes are made up the same as Ready-Made Clothing, in factories, sweat-shops, or tenement houses. Or else your measure is sent to some large Ready-Made Clothing house, who takes a stock garment off the shelf and alters it to correspond with your measure.

LUMBER:—Gettig Bros. are working hard to get their saw mill in operation, it will be located in the upper end of town on the same site where the Bilger Bros. operated a mill a few years ago. The lumbering interest is again beginning to develop in this section and at present there are three saw mills and one planning mill in operation which gives employment to a large number of men, and all report large advance orders that will keep them busy for many months to come. J. N. Brooks, who operates the planing mill, reports orders coming in every day and has to keep his mill humming night and day to keep up. He vows he will take a holiday on the fourth of July and give all his employes a turkey on Christmas.

MOVING:—A number of changes will be made in this vicinity soon, among those that we have already learned of are William Bilger, who will move on his farm near this place. Henry Walters will occupy the house vacated by Mr. Bilger. Another acquisition will be gained by our friend, Albert Smeltzer, moving in town, we will however lose Samuel Markle and Daniel Dunkle who intend moving to Hubersburg. It is quite evident that houses will be very scarce, and we would suggest that any one wishing to make a profitable investment could do no better than come to this place.

The Methodist congregation will do some remodeling of their parsonage, in the near future. They intend to make a very commodious home out of it and one of which the people may feel proud.
