

COMPROMISE IN THE AIR

Neither Greece or Turkey Anxious to Precipitate War.

WOULD SETTLE IF LEFT ALONE.

Turks Still Retort Charges That Greek Regular Troops Invaded Turkey, and Greeks Deny the Charge. The Invaders Return to Greece.

London, April 14.—The Athens correspondent of The Daily Chronicle says that compromise is evidently in the air. Turkey is showing herself exceptionally friendly to Greece, and it is believed in diplomatic circles that the two parties, if left alone, would settle the affair in as many days.

Advices from Epirus represent the situation there as a reign of terror. The Turks are laying the country waste with fire and sword. The vail of Jania has ordered every Christian to give the Turkish army ten sheep and a bullock.

The Athens correspondent of The Times says that the commanding officers of the Greek troops in Thessaly and Epirus have been ordered to telegraph to the ministry of war tomorrow detailed reports as to the efficiency of the troops, and to point out any deficiencies. He adds that Assim Bey called last Monday on M. Skouzis, the minister of foreign affairs, and repeated his former assertion that Greek regulars participated in the recent invasion, declaring that a colonel of the Greek army had been identified among them. M. Skouzis strenuously denied both allegations, and no further communications have passed on the subject between the two governments.

While 50 Turkish soldiers were landing to reinforce the forts at Kissamos, Crete, the Greeks fired on the boat. Several shots struck an Austrian boat, which was assisting, whereupon two Austrians and one Turkish gunboat bombarded the Greeks and repulsed them.

It is said that the Cretans recently impaled outside the fort a Turkish non-commissioned officer whom they had captured.

Yesterday the Turks fired on the insurgents at Akrotiri, but the fusillade was stopped by the intervention of the foreign warships.

The insurgent bands have returned to Greek territory with the exception of one or two, which are composed of only a small number.

A dispatch from Constantinople says that the Turkish version of the fighting at Balitino has been published in the newspaper Ikdum, which states that 5,000 Greek troops were allowed to attack the place. Their retreat was then cut off and the Greeks were finally worsted, leaving 2,000 dead and dying upon the field. The Ikdum adds: "Out of pure magnanimity the Turks took no prisoners."

Verdict Against the Pullman Company
New York, April 14.—A jury in the city court yesterday found a verdict for C. Force, who sued to recover from the Pullman Car Company \$250 for the loss of a sealskin sash and an overcoat. The suit is important, in that it involves the liability of common carriers for the loss of un-checked property of passengers. The property disappeared from a Pullman car on the Baltimore and Ohio road between Cincinnati and Washington on Nov. 14, 1895, while the owners, Mrs. Olive Goodwin and her son, were in a dining car. The claim was assigned to the plaintiff.

Chinese Dying of Starvation.
San Francisco, April 13.—According to advices brought by the Gaelic, natives in the vicinity of Ichang, China, are dying by hundreds of starvation. The grain crop last year was almost a total failure, and as the people exchanged their maize for rice to last them through the winter food has been scant for a long time. Supplies are now completely exhausted, and the harvest of death has begun. Even in the sections that relief supplies reach the amount given to each family is so small that it serves barely to sustain life, and does not relieve the pangs of hunger.

A Methodist Protest.

Sing Sing, N. Y., April 14.—The New York Methodist conference ended its week's session yesterday. A resolution was adopted protesting against the act of the secretary of war in "granting permission for the erection of a Roman Catholic church on the government reservation at West Point, N. Y., such permission being contrary to the well established principles of our government, which, while assuring religious freedom to all, forbids sectarian discrimination and national patronage of any distinctive form of religious faith."

Will Mexico Retaliate?

Washington, April 13.—The framers of the Dingley bill are much interested in a semi-official report from the City of Mexico to the effect that a retaliatory tariff bill is to be introduced in the Mexican congress this week. It is stated that in view of the practically prohibitive duty on Mexican cattle provided by the Dingley bill, the Mexicans will place a prohibitive duty on American hogs and packing house products, which comprise one of our most important articles of export to Mexico.

Bimetallism Commissioners Appointed.

Washington, April 13.—The president last night announced the appointment of Senator Edward O. Wolcott, of Colorado, Hon. Charles J. Faine, of Boston, and Mr. President Adlai E. Stevenson as commissioners to an international monetary conference. These appointments are made under the act approved March 3 last "for the promotion of an international agreement for bimetallicism," and by its provisions the appointees do not require confirmation by the senate.

Confirmed by the Senate.

Washington, April 14.—The senate in executive session yesterday confirmed the following among other nominations: Alfred E. Buck of Georgia, minister to Japan; James Boyle of Ohio, consul at Liverpool; Edgar A. Angier, United States attorney for the Northern district of Georgia; Marion Erwin, United States attorney for the Southern district of Georgia; W. T. Beall, register of the land office at Leadville, Colo.

EX-SENATOR VOORHEES' DEATH.

He Had Suffered From Rheumatism of the Heart For Years.
Washington, April 12.—Ex-Senator Daniel Voorhees, of Indiana, who has been in failing health for more than two years, died on Saturday at his home in this city. In February, 1893, his physical powers began to break, and since that time it has been

THE LATE DANIEL W. VOORHEES.

a battle of will power against physical indigestion. For at least two years past he has taken little part in the proceedings in the senate. He had been a constant sufferer from rheumatism of the heart, and his friends had come to expect that he might hear of his death suddenly.

Mr. Voorhees was born in Ohio in 1827, but went to Indiana at an early age. In 1851 he was admitted to the bar, and in 1858 became United States district attorney for Indiana. Soon afterward he was elected to the Thirty-seventh congress, being re-elected four times. He entered the national senate in 1877, and was twice re-elected.

"The American People Subdued."

Havana, April 14.—LaLucha says editorially: "We have been waiting for a year and a half for a break in the relations between Spain and the United States, due to the political excitement in both countries which their rulers were unable to subdue. But now the coolness of both governments has quieted public opinion in both countries, and the fear of a rupture of amicable relations now seems far off. The policy of the cabinet at Washington is now firm and energetic in compelling Americans to observe neutrality in Cuban affairs. Spain, on her side, accedes to all the claims made in friendly notes regarding American citizens, and the American government has quieted the violence of the press and the senate."

Celebrating Jefferson's Birthday.

Washington, April 14.—The 154th anniversary of Jefferson's birthday was celebrated last night at the Metropolitan hotel by a subscription dinner given under the auspices of the National Association of Democratic clubs. The first celebration of the anniversary of Jefferson's birthday occurred at the same hostelry, then known as the Indian Queen. President Jackson was then the guest of honor, and the occasion was made memorable by the presence of Vice President John C. Calhoun and other Democratic leaders of that day. Last night William J. Bryan, late Democratic candidate for president, was the guest of honor, and was the principal speaker of the evening.

The Missouri Changing Its Channel.

Omaha, April 14.—The Missouri river is changing its channel past Omaha, and in doing so threatens to destroy property to the value of several million dollars. Monday night the river broke through its banks about a mile above where it left the old channel 29 years ago, and is today running two broad streams across which were two days ago fertile market gardens. These streams run into Florence lake, a relic of a former cutoff. From Florence lake the water is pouring into Cutoff lake, and it now seems only a question of a few hours until East Omaha is moved into Iowa and all the property in line of the food is swept away.

Two Murderers Hanged.

Jersey City, April 14.—John Mackin, Jr., and Paul Genz were executed in the Hudson county jail yesterday. The first man, "Ma's" smaller sister, and her mother, was the first to die. He was very pale as he mounted the scaffold. Before the black cap was drawn over his face Sheriff Heller asked him if he had anything to say, to which Mackin replied: "I have only this to say. Let all young men take warning of the evils of drink, which has led me to this." Genz, who was a freeman on an ocean steamship, killed his mistress, Clara Van Armin. He met death calmly.

The Steamer Laurada Labeled.

Wilmington, Del., April 14.—Yesterday District Attorney Vandegrift filed in the United States court a libel of information against the steamship Laurada for violating the neutrality laws in having been "furnished, fitted out and armed within the limits of the United States with the intent to commit hostilities upon the subjects, citizens or property of a foreign prince or state with whom the United States is in peace." The usual process is prayed for against the vessel, and she may be condemned and forfeited according to the federal statutes.

To Rescind a Cleveland Order.

Washington, April 13.—The sweeping order of President Cleveland affecting a consolidation of pension agencies will be revoked by President McKinley. The Cleveland order was to take effect Sept. 1, but will be rescinded long before then. Commissioner of Pensions Evans declares the consolidation, instead of making a saving of considerable over \$100,000 in the way of clerk hire, etc., would increase the expenditures by \$200,000.

Dr. Luis' Appeal.

Baltimore, April 14.—Judge Morris yesterday signed the bill of exceptions in the appeal case of Dr. Joseph J. Luis, convicted in the United States court some days ago of conspiring to send a filibustering expedition to Cuba. The papers are being made ready to send to the higher courts. It is now stated that the case will first go to the circuit court of appeals, and not to the United States supreme court, as originally intended.

PENNSYLVANIA LEGISLATURE.

Matters That Are Interesting the Lawmakers at Harrisburg.
Harrisburg, April 8.—The Crothers anti-trust bill passed the house finally yesterday afternoon by a vote of 157 to 4. Those voting in the negative were Messrs. Bollis, Zehnder, Woodruff and Boyer. Mr. Crothers' bill requiring the front and rear platforms of street railway cars to be enclosed during the months of November, December, January, February and March was amended to require the inclosures to be constructed of glass, and then laid aside for printing. The bill prohibiting the sale or gift of intoxicating liquors on Memorial Day was defeated by a vote of 96 to 70.

In the senate the Walton bill providing for the erection of a new state capitol on or near the old site, at a cost of \$500,000, was passed finally. The Harrison anti-trust bill was also passed, the vote being 41 to 10.

The nomination of Nathan C. Schaeffer as superintendent of public instruction was confirmed by the senate.

Harrisburg, April 13.—In the house yesterday Mr. McConnell, of Philadelphia, presented a resolution, which was adopted, indorsing the efforts made by the labor organizations throughout the state and country to establish a uniform eight hour day system, and believing that it would be beneficial to employer and employ alike, urging upon every employer within the state the necessity of lending their aid to establish this system by preparing to accept its terms at as early a time as may be convenient.

A new congressional apportionment bill was introduced by Mr. Wenk, of Forest. It is similar to that defeated two years ago.

A concurrent resolution was adopted that the legislature attend in a body the unveiling of the Washington monument in Fairmount Park, Philadelphia, May 15, 1897.

ITEMS OF STATE NEWS.

Philadelphia, April 13.—In a letter to the Philadelphia branch of the National League of Business Men Hon. John Wanamaker declines to become a candidate for the Republican nomination for state treasurer.

Seranton, Pa., April 10.—The closing arguments of counsel in the Anna Dickson case were made yesterday and Judge Acheson charged the jury. The jury retired at 5:30 o'clock, and at 11:35 reported a verdict of 64 cents in favor of Miss Dickinson.

Hazleton, Pa., April 12.—G. B. Markle & Co. began active work today at the Ebervale and Harleigh mines, which were drowned out nearly 15 years ago, and to recover which the famous Jeddo tunnel was driven. It is the intention of the company to strip the veins between Harleigh and Ebervale, and when opened this will make the largest strip of coal in the country. As soon as the necessary excavations can be made there will be 20 years' work available for about 1,000 men.

Lancaster, Pa., April 12.—Five ladies ranging in age from 14 to 17 years, named George Schuetzhaar, Harvey Fisher, Sheldon Shay, Jacob Smuckley and Frederick Milley, have been arrested for a daring robbery. For several miles the trolley lines between here and Columbia, and from this place to Millersville, were stripped of the heavy copper wire which connects the rails for the transmission of the electric current, and the robbery was traced to the accused, who sold it to a junk dealer.

Harrisburg, April 14.—The main interest in the senate yesterday was over the discussion to place the Kauffman interest bill on the calendar. During the discussion the anti-Quayites charged that it was never the intention of this legislature to pass an interest bill. This was denied by the Quayites. The further consideration of the corrupt practices bill was indefinitely postponed, and it is today remaining on the floor. Amendments made in the house to the Walton capitol bill. The bill now goes to the governor.

Shamokin, Pa., April 14.—Joseph Maus, who has operated a small mine in the Mahanoy valley, with the assistance of his three daughters, for several years past, sold the operation yesterday because the girls are about to get married, and he will not undertake to carry on the work without their aid. The three girls acted respectively as engineer, breaker and mule driver. The "Ma's" smaller sister, and her mother, was the first to die. He was very pale as he mounted the scaffold.

Wilkesbarre, Pa., April 14.—The closing down of the mines in Plymouth has caused much destitution among the miners and their families residing in that town. Yesterday Mayor Nichols, of Wilkesbarre, visited the garbage dumps on the east side of the Susquehanna river opposite Plymouth, and was surprised to find garbage and rubbish, eagerly seizing scraps of victuals, decaying vegetables, etc., in order to keep them from starving. The mayor will make an appeal to the charity inclined for immediate relief for the sufferers.

Lancaster, Pa., April 12.—Thieves Saturday night entered the postoffice at Leola, a small village near this city, blew open the safe and stole \$45 in stamps. Then they visited the jewelry store of A. S. Beller, broke in the front door and while about to proceed to rob the store were surprised by the proprietor, who had been awakened. The robbers fired four shots at Beller, but missed him. Jacob Ash, who lives in the same building, was also aroused and was fired upon when he came on the scene. Beller seized a large dinner bell, and when he began ringing it violently the robbers fled.

Marietta, Pa., April 14.—A meeting was held here last night to form an anti-convict state labor league. Manufacturers were present representing the iron hollowware, iron novelties, brush and cigar industries. Resolutions were adopted favoring the Mulhronner bill now before the legislature, prohibiting the use of power driven machinery in the penitentiaries, prisons and reformatory institutions of the state, and asking the members of the legislature to vote for the measure; and also, favoring the passage of a bill by the national congress preventing the shipment of convict-made goods out of the state in which they are manufactured. Communications were read from manufacturers throughout the state, and addresses were made by several prominent labor men.
