Fortunate for both, neither was seriously injured. The runaway created quite an excitement—neighbors running to learn the cause and extent of their injuries. Mart came back to hunt his partner, and finding him able to walk, they went on their way rejoicing, not over their accident, but to find that neither of them had been seriously injured. HOW TO FIND OUT.

Fill a bottle or common glass with urine and let it stand twenty-four hours; a sediment or settling indicates a diseased condition of the kidneys. When urine stains linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

What To Do. There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp Root, the great kidney remedy fulfills every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and scalding pain in passing it, or bad effect following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggist price fifty cents and one dollar. For a sample bottle and pamphlet, both sent free by mail, mention the Centre Democrat and send your full post-office address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

Unfortunately we lost two little girls with that dread disease. Later on two more became ill with throat affection which subsequently turned into diphtheria. We naturally became greatly alarmed. Never in the preparation of any medicine was there a greater boon to humanity than by this medicine. I beseech every family in this country to try this remedy when members of their family suffer from any throat or diphtheria troubles, as it will positively effect the desired cure. Mrs. J. E. The Sheep's Gymnasium. The Dairyman's Profit. The sheep gets fat, the dairyman's pocket-book likewise, as the sheep saves man's valuable time and labor, and dollars are added to the dairyman's profit by the saving of valuable butter-fat effected by the close skinning Improved U. S. Separator. The No. 5 Improved U. S. Separator that we bought of you March 1st is doing all that we can ask of it, and we are very much pleased with it. It is running now at the rate of over 400 pounds of milk per hour, and testing on an average .03 of one per cent. We think that is close enough for any separator to skim. It was reported around some, when we first ran it, that the sheep had to work so hard that he would not stand it long, but we do not think he is quite dead yet. After he had run it just one month, we found by weighing him that he had gained five pounds. He now weighs 175 pounds, and runs it very easily. CORWAY, MASS., April 30, 1897. J. C. NEWHALL & SON. We furnish all but the sheep. We want agents to represent us in every town where we have none. Catalogue free. Vermont Farm Machine Co., Bellows Falls, Vermont.
