THE MARCHING MINERS.

the Pittsburg District.

EUGENE V. DEBS DISCOURAGED.

The Great Strike Agitator Admits His Inability to Induce the West Virginia Miners to Join in the Struggle For Higher Wages.

Pittsburg, July 21.-The attention of the miners of the Pittsburg district is now riveted on the Allison, Boone and Enterprise mines, near Canonsburg The Boone and Allison mines, which were closed on Monday by the owenrs to prevent trouble between their men and the marching strikers, resumed yesterday with nearly a full force. The Enterprise mine started up this morning. The program of the strikers is to make another march on these mines. The leaders said yesterday afternoon that more than 2,000 diggers would be massed in the Pan Handle district and another march made on the mines. The men in the Miller's and Tom's Run districts are idle and have plenty of time to make another march. They are supplying themselves with several days' rations, and if the proposed march is made they will stay about the offending mines for several days. Up to a late hour last night no word relating to a march had been received at district headquarters. If the march is made the time will be kept a secret. Just at this stage of the strike sen sational developments are expected. The men are beginning to feel the pangs of want, and in a condition bordering on desperation.

It was learned yesterday that organizers have been secretly at work among the miners of the New York and Cleveland Gas Coal company for several days. One of them was served with an injunction to remain off the company's property and leave the men alone. He said that he had been at work among the miners at Plum Creek, and expressed great hopes of being able to have them join the general suspension. As near as can be learned a concerted effort will be made in the near future to bring out the men at Turtle Creek. Sandy Creek and Plum Creek. Just what proceedure will be resorted to has not yet been decided on. The officials feel that in order to make the strike a success in this district these miners must be brought out. They admit that they have a difficult job on their hands, as DeArmitt's men seem determined to remain at work. The mines are running to their fullest capacity, and are supplying a large quantity of coal to the trade.

A dispatch from Wheeling, W. Va., says that last night the 100 miners employed in the works of the Glendale Coal company, eight miles below Wheeling, notified the management that they would not return to work this morning. A few days ago the 60 cent. rate was conceded to the men, with the understanding that they would not strike. Since then, however, the officials of the Pan Handle district union have been at work on the Glendale men, and their efforts have proved successful. The efforts of the miners will now be turned toward getting the Moundsville mines stopped, also the two or three still at work in other parts of the Pan Handle district.

An Elkhorn (W. Va.) dispatch says: The only signs of any of the miners coming out on the Norfolk and Western railroad in the immediate future is at the Switchback collieries. Here a little dissatisfaction has manifested itself, but otherwise all the mines are running to their fullest capacity and operators and miners are on the best of terms. Of the 500 to 700 miners in the Flat Top field who were out Monday, about one-fourth of this number returned to work yesterday morning. The meetings of agitation Monday night and yesterday availed naught for their cause, and the indications are that unless something very extraordinary develops the agitators will leave the field in this section.

Changes that have an important bearing upon the coal strike situation in West Virginia came yesterday. The state, taken as a whole, is against the strike for financial reasons, and all who have struck have been brought out under the pressure of the organizers and agitators from elsewhere. Generally they have been shamed into striking, and their minds change when the agitators move on to other sections.

In the Fairmount region Eugene V. Debs admits that he is sorely discour-Seventy-six of the Monongah men brought out Monday returned to work yesterday morning. The Fair- a lien on real estate. mount managers declares that if the Watson men, about 1,000 in number, can be kept at work the other mines will be working tomorrow as usual.

Debs will speak at Worthington and Minersville today to more of the Watson men. The Watsons and their men are on excellent terms, and neither side has any grievance. They lead the region in production and profits, and have the miners tied up in agreeable contracts to purchase cheap houses and to furnish necessaries in sickness and death. The miners have cause to like and respect the Watsons, and will probably stick to them.

It transpires today that Debs has been shadowed by two Pinkerton men, and that he has been threatened with death if he goes to Kanawha. He will go, however, tomorrow.

Governor Atkinson was at Wheeling yesterday. He thinks the strike will become general, and hopes the men will win. He says he has not been consulted about using the military, and that none but the most violent out-

break would call for its use. Fifty miners heard E. V. Debs speak at Riversville, W. Va., last night, but only a few of them came from Montana, the most important mine in the region excepting Monongah. Debs' speech was the same appeal to the men to lay down their picks and throw their fortunes with their striking brethren. He was received very enthusiastically and the miners seemed deeply interested, but no attempt was made to organize the men, as Debs thought there were not enough miners present. Every effort was used to keep the men 8, 1860, for the registration of maraway from the meeting, and many spotters were employed.

Easton, Pa., July 20 .- Mrs. Charles Simmerman committed suicide in an unusual manner yesterday afternoon. She told her 2-year-old child she was going to take a bath. A few minutes later the child heard her mother groaning, and ran out for help. When a neighbor climbed into the bath room he found the woman dead on the bottom of the tub. There was not an inch of water in the tub, and Mrs. Simmerman had evidently lay down with her mouth to the spigot and turned on the water. She was 32 years old, and was released from the Norristown insane asylum a few weeks ago. She was recovering rapidly until last week, when it is said domestic difficulty induced a

His mother, who was churning a few feet away, was instantly killed, but not a mark was left on her bady. The board she was standing on was splintered to pieces.

The Tariff Bill Again Passed by the National House

BY A VOTE OF 185 TO 118.

The Result Announced Soon After Midnight, After the Opponents of ing eight people. the Measure Had Spent Hours in Debating It.

Washington, July 20 .- The conference eport on the tariff bill was adopted by the house shortly after midnight by a vote of 185 to 118, and at noon today the report went to the senate for action there. This eclipses all previous records. The result was accomplished after 12 hours of continuous debate. But two speeches were made by the Republicans, one by Governor Dingley in opening the debate, and one by Mr Payne, of New York, in closing it. The Democrats were thus forced to put forth speaker after speaker, but their bombardment of the Republican position was unanswered.

In all ten Democratic and one Popilist speeches were made. The sugar recaptured in New York Wednesday. schedule was the main point of assault, but the most interesting feature of the debate occurred when Mr. Bailey and Mr. McMillin, the two rival Demo cratic leaders, crossed swords on the question of orthodoxy of the free raw

and the latter championing it. The galleries were crowded up to the them were a number of senators, several members of the cabinet and a few members of the diplomatic corps.

Every Republican in the house who was present voted for the report. The Democrats, with five exceptions, voted against the report. The exceptions were Slayden of Texas, Broussard of Louisi-Louisiana, Kleberg of Texas.

The Populists and silverites did not vote solidly. Mr. Shafroth of Colorado silverite, of Montana, did not vote. The Populists who voted against the report were Baker, Barlow, Botkin, Four did not vote-Howard, Kelly, Stark and Southerland. The other Populists were absent.

An analysis of the vote shows that 180 Republicans and 5 Democrats voted sentenced to one year in jail. Fraser's employers deducted 3 cents a for the report, and 105 Democrats and 12 Populists against it.

Before Mr. Dingley presented the conference report Mr. Cannon presented the final conference report on the general deficiency bill, which was agreed ers in Alaska has impressed the govto without difficulty.

THE TARIFF IN THE SENATE.

Indications That the Measure Will

Reach a Vote This Week. During the day Mr. Tillman next December if cotton bagging and cotton ties were not restored to the free list, but the threat was regarded as somewhat facetious. The sugar amendments occasioned a long debate, during which Mr. Allison stated that the conference rates were lower than those of the senate and largely a concession to the house. Senators Vest, Jones, Berry and White questioned this statement, urging that the sugar trust secured larger benefits from the conference schedule than from any pre viously offered. The lumber amendment also brought out an animated criticism from Senators Teller and Pettigrew. Early in the day the senate passed a joint resolution authorizing and requesting the president to take all necessary steps for the release of the Competitor prisoners from prison at Havana.

The indications when the senate adjourned were that a vote would be reached upon the conference report on the tariff bill sometime during Thursday, or at the latest before the close of the week. There may be a change in the conditions which will postpone a vote, but it is difficult to see what could cause it. The opposition to the port, and their present purpose is only

Mrs. Kilpatrick's Pension. Washington, July 21.-Assistant Secretary of the Interior Webster Davis has reversed the action of the pension bureau in rejecting the claim for back pension made by Louisa V. Kilpatrick, widow of the famous major general, and has reopened the claim for further adjudication. She probably will get the pension, as the evidence shows that the cause of General Kilpatrick's death. Bright's disease, was incurred in the service. The widow already draws a pension conferred by congress in 1884, but the claim is for pension from Dec. 2, 1881, the date of his death, to July 1, 1884, the date of the action by congress.
