THE CENTRE DEMOCRAT, BELLEFONTE, PA., THURSDAY, AUGUST 5, 1897.

THE KLONDIKE DISTRICT

A Circular Which Gives General Information Concerning It.

DIFFERENT ROUTES DESCRIBED.

It Is Estimated That Fifty Thousand People Will Make the Trip Next Spring-The Value of Pay Streaks. Petroleum Lake Discovered.

Seattle, Aug. 3 .- I. A. Nadeau, the general agent of the Northern Pacific has prepared a circular concerning the Klondike district. The circular is full of information, and is in part as follows:

'There are two established routes into the Klondike country. One is via the ocean to St. Michael's, thence via steamer up the Yukon to Dawson City. The mouth of the Yukon river is 60 miles from St. Michael's, and the distance from St. Michael's to Klondike is 2,000 miles. The facilities on the Yukon consist of two stern-wheel steamers belonging to the Alaska Commercial company, and the steamers P. B. Weare, J. J. Healy, of the North American Transportation and Trading company, and a third boat, the C. H. Hamilton, of the latter company, which is expected to be ready in a couple of weeks. The Yukon is shallow in places. and it is impracticable to operate any steamers having a draught of more than 4½ feet.

"The other route, and the one which will be principally traveled, is from Dyea, over the trail via Chilcoot Pass to Lake Linderman, thence through the chain of lakes which you will see on any Alaska map into Lewis river and down the Yukon to the Klondike. The route via Dyea is by steamer from Seattle running direct to Dyea, where they pack over Chilcoot to Lake Linderman, at which place they build boats usually 22 to 24 feet long and 41/2 to 1 feet wide, which are taken through the lakes, while the provisions have to be packed over two short portages, one one and a half miles and one of about three-quarters of a mile, while the boat is taken through the small streams. The distance from Seattle to Janeau is 899 miles, Juneau to Dyea 96 miles. and Dyea to Dawson City 604 miles.

"The gold streak is anywhere from eight to thirty feet from the surface, and is reached by sinking a shaft from two to three feet wide and six feet long down to the pay streak. Sinking this shaft and working the pay streak are made difficult from the fact that from the surface to the deepest depth that has yet been reached the ground is perpetually frozen and a process of firing in order to thaw out the ground is employed. A brush and wood fire is built in the bottom of the shaft, which, burning all night, thaws out the ground from eight to fourteen inches. The gravel is shoveled out during the day, and the operation is repeated until the desired depth is reached. The average progress in the shaft is from eight to fourteen inches per day. When the pay streak is reached they drift under the ground, which does not have to be supported by timbers on account of its being perpetually frozen. The fire, in thawing out the pay streak, generates after the fire has burned out, must be expelled before work can be done. This is accomplished by the use of bellows, fans and other devices. 'The value of the pay streak varies from as high as a few cents per pan to as high as \$545, as one miner took out a little over \$1,000 in gold from two pans, and a miners' pan contains two shovelfuls of dirt, so you can realize the richness of some of this ground. The gold is coarse, very little flour gold exists, and it runs largely to nuggets. The value of the gold is about \$17 per ounce, \$200 per pound. The summers are short and winters long and weather severe, the thermometer registering as low as 70 degrees below zero. There is very little wind, however, and such low temperature is somewhat unusual. The great plagues in that section during the summer are the mosquitoes and gnats, which swarm in great numbers and are ex-ceedingly vicious, compelling people who are at all susceptible to insect poisoning, and in fact nearly every one to wear nets to protect their faces and gloves to protect their hands. "It is estimated that there will be no less than 50,000 people, exclusive of excursionists, going into Alaska next spring or the early summer. The time required in making the inland trip is as follows: Seattle to Dyea, five to seven days; Dyea across Chilkoot Pass to Lake Linderman, ten days; to construct a boat at Lake Linderman, and make the trip via the lakes and rivers to Dawson City, requires about 24 days. Via St. Michaels route the time required is as follows: Seattle to St. Michaels, 14 days; St. Michaels to Dawson City, about 21 days, with the possibility of waiting at St. Michaels for the up-river boats.'

Scottdale, Aug. 2 .- A. M. Cummings, the leader of the non-union men who came here from Apollo to break the

strike at the Scottdale iron and steel works, was shot and killed in a riot that occurred in front of the Commercial hotel. John Evans and James Dolff, two other non-union men, who were with him, were seriously wound-

have been shot, but their names are unknown. Cummings, Evans and Dolff entered the bar room of the Commercial house where strikers were drinking. Cummings became involved in an argument with them, and the bartender compelled them to go outside. On the porch one of the strikers called Cummings a vile name. Cummings drew a revolver. This was a signal for the other men to draw weapons. A number of shots were fired and three of the men fell. Cummings was picked up and carried into the hotel, where he died in five minutes. The wounds of Dolff and Evans were about the legs. Both will probably recover. One of the strikers had to be helped away from the scene by his companions. The mill stands not far from where the shooting occurred, and the men who were afraid to come out became panic stricken when they heard the shooting. They rushed for the side gate, where they were met by the deputies who are guarding the plant and driven back with clubs and revolvers.

ed. Several strikers are supposed to

ITEMS OF STATE NEWS.

Jeannette, Pa., Aug. 2 .- While J. E. Klingensmith and wife were handling powder it was ignited, causing an explosion, by which Klingensmith and his wife were so badly burned that they cannot recover. William Peterson, a visitor, was badly burned.

Altoona, Pa., Aug. 3 .- Dr. William D. Hall, the most prominent Grand Army man in this part of the state, died last evening of apoplexy. Dr. Hall served a term as surgeon general of the G. A. R., and had been medical director of the department of Pennsylvania.

Easton, Pa., Aug. 4 .- Mrs. George Stentake, of East Bangor, was burned to death yesterday at her home. Her husband arose and built a fire in the stove. He left a can of kerosene on the hearth, and a short time later it exploded, setting fire to Mrs. Stentake's and the wind fanned the flames. She died soon after.

Scranton, Pa., Aug. 3.-Right Rev. Bishop William O'Hara, of the Scranton Catholic diocese, narrowly escaped death in a runaway accident yesterday. The bishop, who is 82 years old, accompanled by Rev. Michael Loftus, of the St. Peter's Cathedral parish, was en route to visit a sick priest. Going down Marion street hill the horse became unmanageable and ran three blocks. The carriage grazed a trolley car and collided with a telegraph pole and was demolished. Bishop O'Hara escaped with a slight scalp wound.

Altoona, Pa., Aug. 4 .- Although the Mitchell coal operators at Hastings supposed they had made satisfactory terms with their miners, the men are still out. The trouble at the Sterling | Dolan and Warner, and no further genhave taken a new step by suing the officials of the mine for the value of the fifth ton taken off them. The suits average \$10 each. The miners say that in addition to being obliged to dig 2,500 pounds for a ton, they have been robbed of every fifth car they put out. Williamsport, Pa., July 31.-James C. Forman, married, aged 45 years, was instantly killed at the Twelfth regiment rifle range yesterday. He was engaged in picking berries at a point 250 yards back of the target, which had no backstop, and was in a stooping position. The ball passed through his head. W. G. Stair, John Bond and W. J. Davis, members of the rifle team that will represent Company D in the regimental matches, were practicing at 200 yards. Forman could not see the target, neither could the guardsmen see Forman. It could not be determined which man fired the fatal shot. Lancaster, July 31 .- Howard Overly, a young farmer, of Providence township, has been ailing for several months and his case was a puzzle to the physicians. Yesterday Overly commenced to vomit, with astonishing results There were 24 lizards, ranging in size from two to three and a half inches long, many of them dead, 40 lizard eggs and many worms thrown from his stomach. The doctor will continue the treatment to dislodge any of the unwelcome tenants that may still be in Overly's stomach. On the farm on which the latter resides is a large spring, from which he has been accustomed to drink for years by lying flat on his stomach, and it is supposed that he in that way swallowed the lizards or their eggs. Harrisburg, July 31 .- The mercantile tax measure was vetoed by the governor last night. It was originally intended to provide revenue by imposing a tax of one-half cent a gallon on beer. ale and porter brewed within the state be of great value. Several months ago during the three years beginning July 1. It was amended in the closing days of the legislature to provide revenue "by imposing a tax on venders of or dealers in goods, wares and merchandise, and providing for the collection of said tax.' The Simon bill was similar to the "twin electric light" bill vetoed two years ago by Governor Hastings. The measure required municipalities before engaging in the electric light business to purchase the franchises of an existing corporation engaged in the same business, if such exists.

THE MINERS' CAMP.

The Large Body of Men at Camp

Determination Peaceful.

NO NECESSITY TO CALL TROOPS.

Strikers Are Slowly Winning Their Points Around the DeArmitt Mines. Means of Feeding the Large Number Is Limited.

Pittsburg, Aug. 4 .- The strikers still ontinue to gain accessions to their number from the New York and Cleveland company's men. Sandy Creek and Turtle Creek mines are completely idle and the Plum Creek men are slowly. but surely coming into line with the men encamped in the vicinity. Yesterday nearly half of the diggers at this stronghold of the company failed to go to work, and a number of those who did go to work into the pit have promised to quit as soon as they clean up the coal now lying in their rooms. At Camp Determination it was reported that every one of the miners of the New York and Cleveland company who had gone to work was in sympathy with the movement and only their signatures to a contract prevented them from staying out. The miners are satisfied with the progress they have made. They claimed that the offending mines were nearer to suspension now than they have been since the strike was inaugurated, and are jubilant over the work they have done.

There are close upon 2,000 strikers in camp at Turtle Creek, 350 at Plum Creek and 300 at Sandy Creek. If this number is not sufficient to deter the DeArmitt miners from going to work, all these camps will be largely increased before the end of the week. Arrangements are being made for the big meeting on the wharf Tuesday night. It promises to be the greatest demonstration of the kind ever held in this city. Mayor Ford was asked by the men to preside over the meeting, which invitation he declined on the ground that he was acting neutrally in the strike question.

The announcement that Sheriff Lowry was in communication with the governor, and that there was a possibility that the state troops would be ordered out, had no particular effect in Camp Determination. The strikers all say there has been no occasion nor clothes. She ran out into the yard reason for discussing the coming of the troops. It is reported that a military attache had been at work through the strike territory preparing maps that will insure a quick mobilization of troops at any given point in case of trouble. The move, it is said, however, is merely precautionary. The same plan was carried out at Homestead.

> The lull in the situation, after the exciting events of the 24 hours, is the first opportunity the officials have had to size up the situation. As a result, cach of the three camps of striking miners has been placed under strict military government. This will be continued until the camps are abandoned. The members of the district executive board were placed at each camp. These men are to receive instructions from

LEGAL NOTICE

COURT PROCLAMATION.

COURT PROCLAMATION. WIRREAS the Hon. John G. Love, President judge of the Court of Common Pleas of the synchronic state of the Court of Common Pleas of the sociate Judge, having issued their precept bearing date the 25th day of July 1807, to A. Faulken ter Sessions of the Peace in Bellefonte, for the county of Centre, and commence on the 41 Nonday of August, the 23rd day of August 187, and to continue one week. Notices is nereby given to the Conner, Justice of the Peace, Aldermen and Constables of said county of Centre, that they be then and there rances, to do those things which to their office appertains to be done, and those who are brances, to do those things which to their office appertains to be done, and those who are the prisoners that are or shall be in the jail of Centre county, be then and there to prosecute against the prisoners that are or shall be in the jail of contre of July in the year of our Lord, 187 the prisoners that are or shall be in the jail of centre county, be then and there to prosecute against the prisoners that are of shall be in the jail of centre county, be then and there to prosecute against the prisoners that are of shall be in the jail of centre county, be then and there to prosecute against the prisoners that are of shall be in the jail of centre county, be then and there to prosecute against the one hundred and twenty. first year of the independence of the United States. Seized, taken in execution and to be sold as the property of Peter Coyle, who survives Philena G. Coyle, and Peter Coyle, Admr. of &c., of Philena G. Coyle, deceased. All that certain messuage, tenement and tract of land situate in the township of Bogzs.

A Lake of Petroleum in Alaska. San Francisco, Aug. 3 .- While the world is excited over the gold discoveries in the north, sight has been lost of another discovery that promises to a lake of almost pure petroleum was discovered, and samples were sent to Seattle for analysis. The report has just been made public, and the find is reported to be of great richness. The lake is of unknown depth, several miles wide and five or six miles in length It is only two miles from the ocean The hills surrounding are said to be rich in gold and asphalt. It is the expectation of the owners of the lake to take its products into the mining camps of northern Alaska whenever the waterways will permit.

Women Sall For the Gold Fields. San Francisco, Aug. 4 .-- The steamer Noyo sailed this morning with 140 passengers for Dyea, Alaska. Of the passengers booked 10 are women, who will make the journey over the Chilcoot Pass to the Klondike gold fields. Two others are Mayor A. C. Scott, of Springfield, Ills., and his son. Mayor Scott has resigned his office to seek his fortune in the frozen north.

Prince of Wales' Yacht Wins, Cowes, Isle of Wight, Aug. 4 .- In the race for the queen's cup the Prince Slevenski residence and opened fire of Wales' yacht, Britannia, with his upon them, with the above result. He royal highness on board, beat Emperor then fled, and thus far has evaded ar-William's yacht, Meteor, on time al- rest. The wounded persons are still lowance.

Greensburg, Pa., Aug. 3 .- Mike Morenski, a Slavish miner at United, a small mining village on the Sewickley branch, shot and mortally wounded John Slevenski and his wife. Some time ago Morenski bought a watch from Slevenski for \$10, paying \$5 on it. and promising to pay the balance on next pay day. He failed, however, to make good his word. On Saturday evening Mrs. Slevenski met him and demanded the pay for the watch. He at once handed back the watch, when she returned the \$5 he had paid for it.

Sunday evening Morenski went to the living, but with little hope of recovery.

mine No. 8 is still on. Thirty-two men eral move is to be made unless a general conference is held. Secretary Warner is experiencing

great difficulty in getting provisions. The demand for bread is so great that the local bakeries were unable to meet the orders placed this morning. In speaking of the situation, President Dolan said:

"The entire success of the movement now depends upon the worder maintained in the camp. We have demonstrated to DeArmitt that his men were not invulnerable. When I left the mines yesterday his entire interests were at a standstill. The New York and Cleveland company has given up all hope of operating the Sandy Creek mines, while those at Plum Creek and Turtle Creek are so badly crippled that there are not enough men to get out a car of coal.

These statements are not based upon the idle talk of the men, but upon personal observation. Mr. DeArmitt undoubtedly recognizes that the strike situation is gradually assuming a favcrable aspect for the men, and that if order can be preserved his defeat is certain."

Mr. DeArmitt is confident the strikers cannot wholly shut down his mines, and avers that a change will come over the scene within the next few days, although he does not say how this is to be brought about. Mr. DeArmitt intimated that he would soon spring the injunction against the miners which was granted May 25, 1895. and which was sustained by the supreme court after the superior court had reversed the lower court. This injunction was made perpetual.

Mr. DeArmitt said: "The miners employed at our mines are not only intimidated from going to work, but they dare not leave their families at home at the mercy of a mob responsible to no one. The mob has increased until it is beyond the control of the law."

Mr. DeArmitt would not say so, but judging from his remarks it is believed he is expecting that Sheriff Lowry will call on the governor for troops to disperse the strikers.

Signatures have been appended to the "uniformity agreement," which has been in preparation for a week. The last corrections were made Monday night, and the completed documents were ready for the committee yesterday. Those members of the committee who are coal producers will sign it. and at once start out to visit the owners or managers of the 141 mines which are named as necessary to be included within the compact, to secure additional signatures.

Mr. Powderly in Office.

Washington, Aug. 4 .- Mr. Terrence V. Powderly yesterday took the preacribed oath and received his commission as commissioner of immigration, succeed-ing Mr. Herman Stump, of Maryland. In answer to inquiries Mr. Powderly said he was in favor of a strict and impartial interpretation of our immi-gration laws, and believed that every proper effort should be made to keep out all undesirable classes. To that end he would use means to prevent their embarking for this country, thus sav-ing them the needless expense and bardebins of the trip. Powderly yesterday took the prescribed hardships of the trip.

No. 2011 and 201 in the general plan of said and be brough. Below, taken in execution and to be sold as the property of Mary C. McColium. ALSO. All that certain the Horough of Beilefonte.
