

FAURE'S WELCOME HOME

The French People Aroused to the Greatest Enthusiasm.

THE BOMB FIEND BUSY AGAIN.

An Infernal Machine Exploded Soon After the President Had Passed the Madeleine, But No One Was Injured. Probably a Lunatic's Work.

Paris, Aug. 31.—President Faure arrived at the Northern railroad station from Dunkirk, at 6 o'clock last evening. He was received there by the president of the chamber of deputies, M. Brisson, the president of the senate, M. Loubet; the general in command of the Paris garrison, and his staff, and municipal councillors. After listening to short speeches of welcome the president entered a landau and proceeded to the Elysee palace.

Awaiting the arrival of President Faure were large bodies of troops massed in the vicinity of the Gare du Nord, including the whole of the artillery garrison from Mont Valerien. The scenes at the railway station and along the entire route baffled description. The crush at the Place de l'Opera was so great that the combined efforts of the mounted guards, Chasseurs, mounted gendarme and brigades of police were hardly sufficient to keep order.

The scene as viewed from a balcony was one long to be remembered. As the presidential cortege moved along the streets the crowd began to sway and move about, the excitement reaching the climax as President Faure drove up bareheaded and acknowledged the shouts of welcome. M. Mellin sat on the right of the president, opposite him being General Letourneur and Baron Fredericks. In the second carriage appeared M. Hanotaux and three generals. Then followed a long line of carriages containing officials who met the presidential party at the station.

In the Place de l'Opera a large platform had been erected, and upon it were assembled the members of the committee of the chamber of commerce and industry of Paris, which had arranged the decorations and which had been commissioned to welcome the president back from Russia. The grand stand was surrounded by a ring of triumphant arches. M. Faure, alighted at the picturesque grand stand, decorated with crimson and gold. The band played "The Marseillaise" and massed choirs sang the Russian hymn, accompanied with solemn, thrilling effect. The chairman of the committee of the chamber of commerce and industry read an address, to which President Faure briefly replied.

Then the procession to the Elysee palace was resumed. The shouts chiefly heard as the president was driven to the Elysee were "Vive l'Alliance," "Vive la France," and "Vive le Russe." There were thundering cheers and shouts of "Vive la Felix Faure." Such a spectacle of popular enthusiasm has rarely been witnessed. The people seemed entirely to lose self control. Many accidents occurred during the crush, and the ambulance corps was kept fully occupied.

The president had evidently been welcomed back to France not as a potentate, but as the faithful representative of the people, and his reception is regarded as a triumph not of a person, but of a principle, and the date of Aug. 31 will undoubtedly be known henceforth as "Alliance day."

Three performances were given during the afternoon at the Theater Francaise and in the evening at the opera. The people waited the whole day to obtain admission. The only discordant note at night was the holding of two socialist meetings to protest against the governments policy.

Ten minutes after the president had passed the Madeleine a bomb was exploded inside the railings around the church. Two arrests followed immediately, and the railed enclosure was closed by the police, who began an active investigation into the outrage. Nobody was injured by the explosion, but the affair, following so closely upon others of a similar nature, caused the greatest excitement. All the persons inside the railings of the Madeleine were minutely examined by the police before they were allowed to leave.

The fragments of the bomb found by the police resembled those found in the Bois de Boulogne on June 13 last and on the Place de la Concorde on June 16 last. It consisted of an iron tube filled with an explosive and loaded with nails.

At the prefecture of police the bomb explosion is not attributed to anarchists, but it is rather believed to be the work of a lunatic, who was responsible for previous similar affairs. It is believed that the men arrested for complicity in the explosion are innocent, and all of them have been released.

At midnight a band of 150 persons, with flags flying, left the opera and proceeded in the direction of the Elysee, shouting "Down with Emperor William." The police stopped the procession, and the band dispersed with a scuffle. Two of the leaders were placed under arrest.

MRS. JOHN DREW DEAD.

Had Been a Public Entertainer for Over Seventy Years. New York, Sept. 1.—Mrs. John Drew, the actress, died yesterday afternoon at Larchmont.

With the passing of Mrs. Drew there has parted one of the links that unite the present generation with the grandest galaxy that has ever illuminated the American dramatic firmament. She was contemporaneous and appeared upon the American stage in leading parts with the elder Booth and Forrest, with Macready and Edwin Booth, with Florence, Clarke and Owen, of those who have passed away, and with Jefferson and Coudock, who still survive. She was in her day an "infant prodigy" on the English and American boards, and the most famous of Mrs. Malaprop, winning laurels also as Julie de Mortimer, Opheleia, Desdemona and Pauline, not to mention characters in more recently written plays.

The wife of one of the foremost actor-managers of this country, she bore three children who won distinction in the dramatic profession—John Drew, the late George Drew-Barrymore and Sydney Drew. Seventy-one of the 77 years of her life she was a familiar figure to playgoers. With practically no education in the accepted sense, she was an actress of rare intelligence and refinement. "I got my education," she once said, "from reading and from associating with and listening to the conversation of clever people."

Mrs. Drew was born in London on Jan. 10, 1820, and six years later made her debut as Agib in "Timour the Tartar." Her mother, an actress, brought her to this country a year later, and she performed at the Walnut Street theater, Philadelphia, playing the Duke of York to Julius Brutus Booth's Richard III. In one play, written expressly to exploit childish precocity, she had five different characters to portray. In 1833 she came to New York, and here married Henry Hunt, a popular vocalist, from whom she separated. She subsequently married a comedian named Mospop, and after his death married Mr. Drew. Her last engagement was with "The Sporting Duchess" company.

Died Thinking of Mother.

Chicago, Sept. 1.—A handsome young woman, whose name is unknown, killed herself by poison in the Victoria hotel, where she was a guest. The suicide was evidently carried out with the utmost deliberation, as the young woman had apparently slept in the bed during the night, taken a bath in the morning, made up the bed and then, swallowing morphine, lay down to die. She registered as Miss Blanche Wilson, New York city, and left a note saying: "Please do not try to find out who I am. I ask and beg of you, whoever you may be, and remember it is my last favor I ask on earth, as a dying woman. And for my mother's sake do not try. I don't care what you do with my body. Remember, please don't try, for my mother's sake."

The World's Light Harvest.

Buda Pesth, Aug. 30.—The ministry of agriculture has issued its annual estimates, in which it describes the world's harvest as extraordinarily light. The total yield of wheat is placed at 573,760,000 metric hundred-weight, while the present annual requirements are estimated at 655,150,000 metric hundredweight. It is calculated that for 1897 and 1898 there will be a shortage of 20,000,000 metric hundredweight. The stocks remaining on hand from 1896 are approximately estimated at somewhere between 28,000,000 and 45,000,000. The total supply for the year, reckoning both the present stocks and the harvest, is estimated at from 618,000,000 to 651,000,000 metric hundred-weight.

Gold Seekers Return.

Seattle, Wash., Aug. 30.—The steamer Portland arrived here yesterday morning. The Portland carried 12 miners, each of whom brought only a small part of his stake. The total amount of dust on the vessel is perhaps \$775,000. The miners on board, with the amount of their total mining profits, part of which was brought with them, are as follows: J. Rowan, \$50,000; Jim Bell, \$45,000; Joe Goldsmith, \$35,000; N. W. Powers, \$35,000; W. W. Caldwell, \$35,000; W. Oter, \$30,000; C. K. Zilly, \$25,000; F. W. Cobbs, \$25,000; W. Zahn, \$15,000; A. Buckley, \$10,000; M. S. Lansing, \$15,000; H. W. Farnham, \$10,000; M. R. Camler, \$15,000.

Claims the Town of Skaguay.

San Francisco, Aug. 31.—A special from Victoria contains a signed statement from Bernard Moore, who claims the town of Skaguay. He says that ten years ago he made application for 160 acres of land in accordance with the United States laws as applied to Alaska, had a legal survey and paid the requisite \$400 to the proper officials. He had just begun to stock the place for a dairy when the gold rush began, and now thousands of citizens of Skaguay are claiming the land he paid for the government for.

Nicaragua Merchants Want Gold Basis.

Managua, Nicaragua, Sept. 1.—A meeting merchants, which was largely attended, was held here yesterday. Resolutions were adopted deploring the present financial condition of Nicaragua, and petitioning the government to place the country on a gold basis, estimating the present paper dollar or silver dollar at 30 cents gold, asking for the issuance of gold certificates in their place, and at this valuation, and requesting the government to export and sell the present silver coinage of Nicaragua.

Sendng Money South.

New York, Sept. 1.—A canvass of the leading banks in this city shows that large sums of money are being shipped south daily to help move the crops. One of the most prominent financial institutions here has sent about \$700,000 since the middle of the week. Altogether it is estimated that fully \$5,000,000 of "crop money" has been shipped from this city within the past fortnight.

Charged With Stealing \$75,500.

Boston, Aug. 31.—Robert S. Straine, president and director of the United Telegram company in this city, was arrested yesterday afternoon on a charge of embezzling \$75,500. The arrest is the result of the disclosures of Marsden J. Perry, receiver of the company, who reports that there is only \$76,144 in the treasury instead of the \$73,444.31 that ought to have been there.

STOCK AND PRODUCE MARKETS.

Deals on Wall Street characterized by Great Irregularity. New York, Aug. 31.—Today's stock market was characterized by great irregularity, prices of many stocks remaining remarkably stable, even on large transactions, while the price movement of others was wide and erratic to the last degree and quite independent of any general influence or harmony with others.

Sugar was the sensational feature, and covered a range of nearly eight points during the day. Closing bids: Hutto, 16; Lehigh Valley, 20; Chesapeake, 25; N. J. Central, 9; Del. & Hudson, 11; N. Y. After Quacks.

One of the bills passed by the present legislature and recently signed by the Governor, requires traveling doctors, or any person assuming to cure disease, either by medicine or by faith, whether he charges for his services or not, to pay a license fee of \$10 per day for the privilege. This is to protect the legitimate practitioner and to save the public from being bamboozled.

ONE OF TWO WAYS.

The bladder was created for one purpose, namely, a receptacle for the urine, and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

CHIEF CAUSE. Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles.

So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back, bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be easily avoided.

To find out correctly, set your urine aside for twenty four hours; a sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney and bladder remedy, is soon realized. If you need a medicine you should have the best. At druggists fifty-cents and one dollar. You may have a sample bottle and pamphlet, both sent free by mail. Mention The Centre Democrat and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

"ALL WORKED OUT."

An Instructive Lesson in the Death Roll of Our Great Men.

Dr. Greene's Nervura a Protection Against Premature Death. Value of Vigorous Nerves and Pure Blood.

It is a lengthy and a sad list. We can easily recall many whom we have personally known, who have seemed to wear their precious lives out all too soon because their deaths were premature. The world feels their loss keenly for its sudden ending.

They were not worked out; they were tired out, exhausted. They stopped because they could go no greater physical lengths. Why? Their vitality was vitiated and lost. Long years ago, Dr. Greene, studying this deep problem, discovered its prime cause and at once set

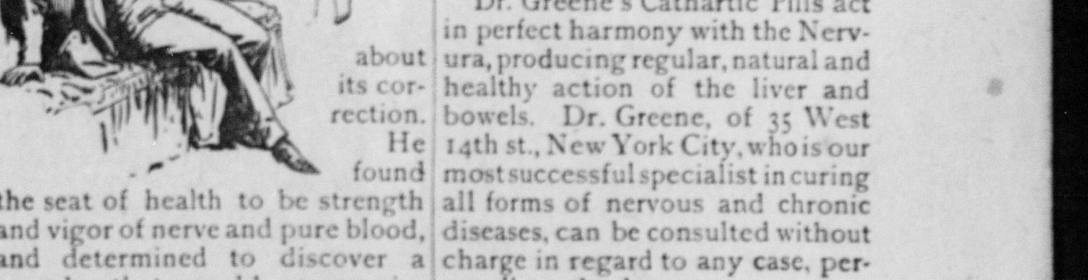

about its correction. He found the seat of health to be strength and vigor of nerve and pure blood, and determined to discover a remedy that would re-energize

the nerves and purify and enrich the blood when both become weakened, and to prevent, if taken in time, such relapse of physical force. He succeeded to such an extent that Dr. Greene's Nervura blood and nerve remedy has gained a world-wide reputation through its wonderful cures and the benefits it has conferred on the thousands who have used it. In his study of this subject he has also become the leading authority on blood and nervous ailments, and so is sought as physician by people everywhere. He charges no fee for his opinion, and can consequently be consulted, free of charge, by letter or in person.

If you are "worked out," if weak, nervous, run down or you feel "out of sorts," or if you want to avoid the ills, weakness and exhaustion, so sure to come, don't delay. Get this grand restorer of health and strength, Dr. Greene's Nervura blood and nerve remedy, at once, and it will make you well.

Dr. Greene's Cathartic Pills act in perfect harmony with the Nervura, producing regular, natural and healthy action of the liver and bowels. Dr. Greene, of 35 West 14th st., New York City, who is our most successful specialist in curing all forms of nervous and chronic diseases, can be consulted without charge in regard to any case, personally or by letter.
